

Three-legged dog up for adoption!

Meet this tiny girl! She was hit by a car, underwent surgery, and sadly it was necessary to amputate her injured right leg. She is less than a year old, she weighs 6.5 kg, has beige fur, olive-green eyes, and a calm and gentle personality. She's perfect for living indoors. She is currently in Arta and **can be accompanied to many locations across Greece, with all legal requirements fulfilled (adoption contract, health booklet, microchip, and spaying).**

1.disability- condition found 2.physical appearance 3.personality
