Pieces in this book

- Trumpet tune (Purcell), 6
When I am laid in earth (Purcell), 7
Adagio (Albinoni/Giazotto), 8
Spring (Vivaldi), 9
Alla Danza (Handel), 10
Arrival of the Queen of Sheba
(Handel), 12
Thine be the Glory (Handel), 14
Canon in D (Pachelbel), 15
Viola concerto in G (Telemann), 16
Brandenburg concerto no.3 (Bach), 17
Air on the G string (Bach), 18
Minuet in G (Bach), 20
Rule, Britannia (Arne), 21
Bourrée (Leopold Mozart), 24
Che farò (Gluck), 25
Emperor's hymn (Haydn), 26
String quartet in D (Haydn), 27
Clarinet concerto (Mozart), 28
Romance (Mozart), 29
Symphony no.40 (Mozart), 30
Duet from The Magic Flute (Mozart), 32
Ode to Joy (Beethoven), 33
Pastoral Symphony (Beethoven), 34
Minuet in G (Beethoven), 35
Moonlight Sonata (Beethoven), 36
Impromptu (Schubert), 40
The Unfinished Symphony (Schubert), 41
Serenade (Schubert), 42
Caprice no.24 (Paganini), 44
William Tell overture (Rossini), 45
Harold in Italy (Berlioz), 46
The Jolly Peasant (Schumann), 47
The Wild Horseman (Schumann), 48
Prelude op.28, no.7 (Chopin), 49
Nocturne op.9, no.2 (Chopin), 50
Violin concerto in E minor
(Mendelssohn), 52
Liebesträume (Liszt), 54
La donna è mobile (Verdi), 55
Ride of the Valkyries (Wagner), 56
Bridal chorus (Wagner), 57
Symphony no.3 (Brahms), 58
Swan Lake (Tchaikovsky), 59
Piano concerto no.1 (Tchaikovsky), 60
Solveig's song (Grieg), 61
Terzettino (Mozart), 70
Fidelio (Beethoven), 72
The Barber of Seville overture
(Rossini), 73
Drinking song (Verdi), 74
Anvil chorus (Verdi), 76
Soldiers' chorus (Gounod), 78
March of the kings (Bizet), 79
Du und du (Strauss), 80
Morning (Grieg), 81
Flower duet (Delibes), 82
Pizzicati (Delibes), 84
Sleeping Beauty waltz
(Tchaikovsky), 85
Musette (J. S. Bach), 88
German dance (Mozart), 89
Minuet in A (Boccherini), 90
The Blue Danube waltz no.1
(Strauss), 92
Hungarian dance no.5 (Brahms), 94
Dance of the hours (Ponchielli), 95
Slavonic dance op.46, no.8 (Dvořák), 96
Eugene Onegin waltz (Tchaikovsky), 97
Norwegian dance op.35, no.2
(Grieg), 98
Polovtsian dance no.1 (Borodin), 99
Wachet auf! (J. S. Bach), 102
Jesu, joy of man's desiring
(J. S. Bach), 104
The Heavens are telling the glory of
God (Haydn), 105
The Lord's my shepherd (J. S.
Irvine), 106
Jerusalem (Parry), 107
Go down Moses, 108
Swing low, sweet chariot, 109
Autumn (Vivaldi), 112
Nocturne (Mendelssohn), 114
Hebrides overture (Mendelssohn), 116
Nocturne op.15, no.2 (Chopin), 117
Romeo and Juliet (Tchaikovsky), 118
Promenade (Musorgsky), 120
Vltava (Smetana), 121
Scheherazade (Rimsky-Korsakov), 122
The girl with the flaxen hair
(Debussy), 124

Introduction

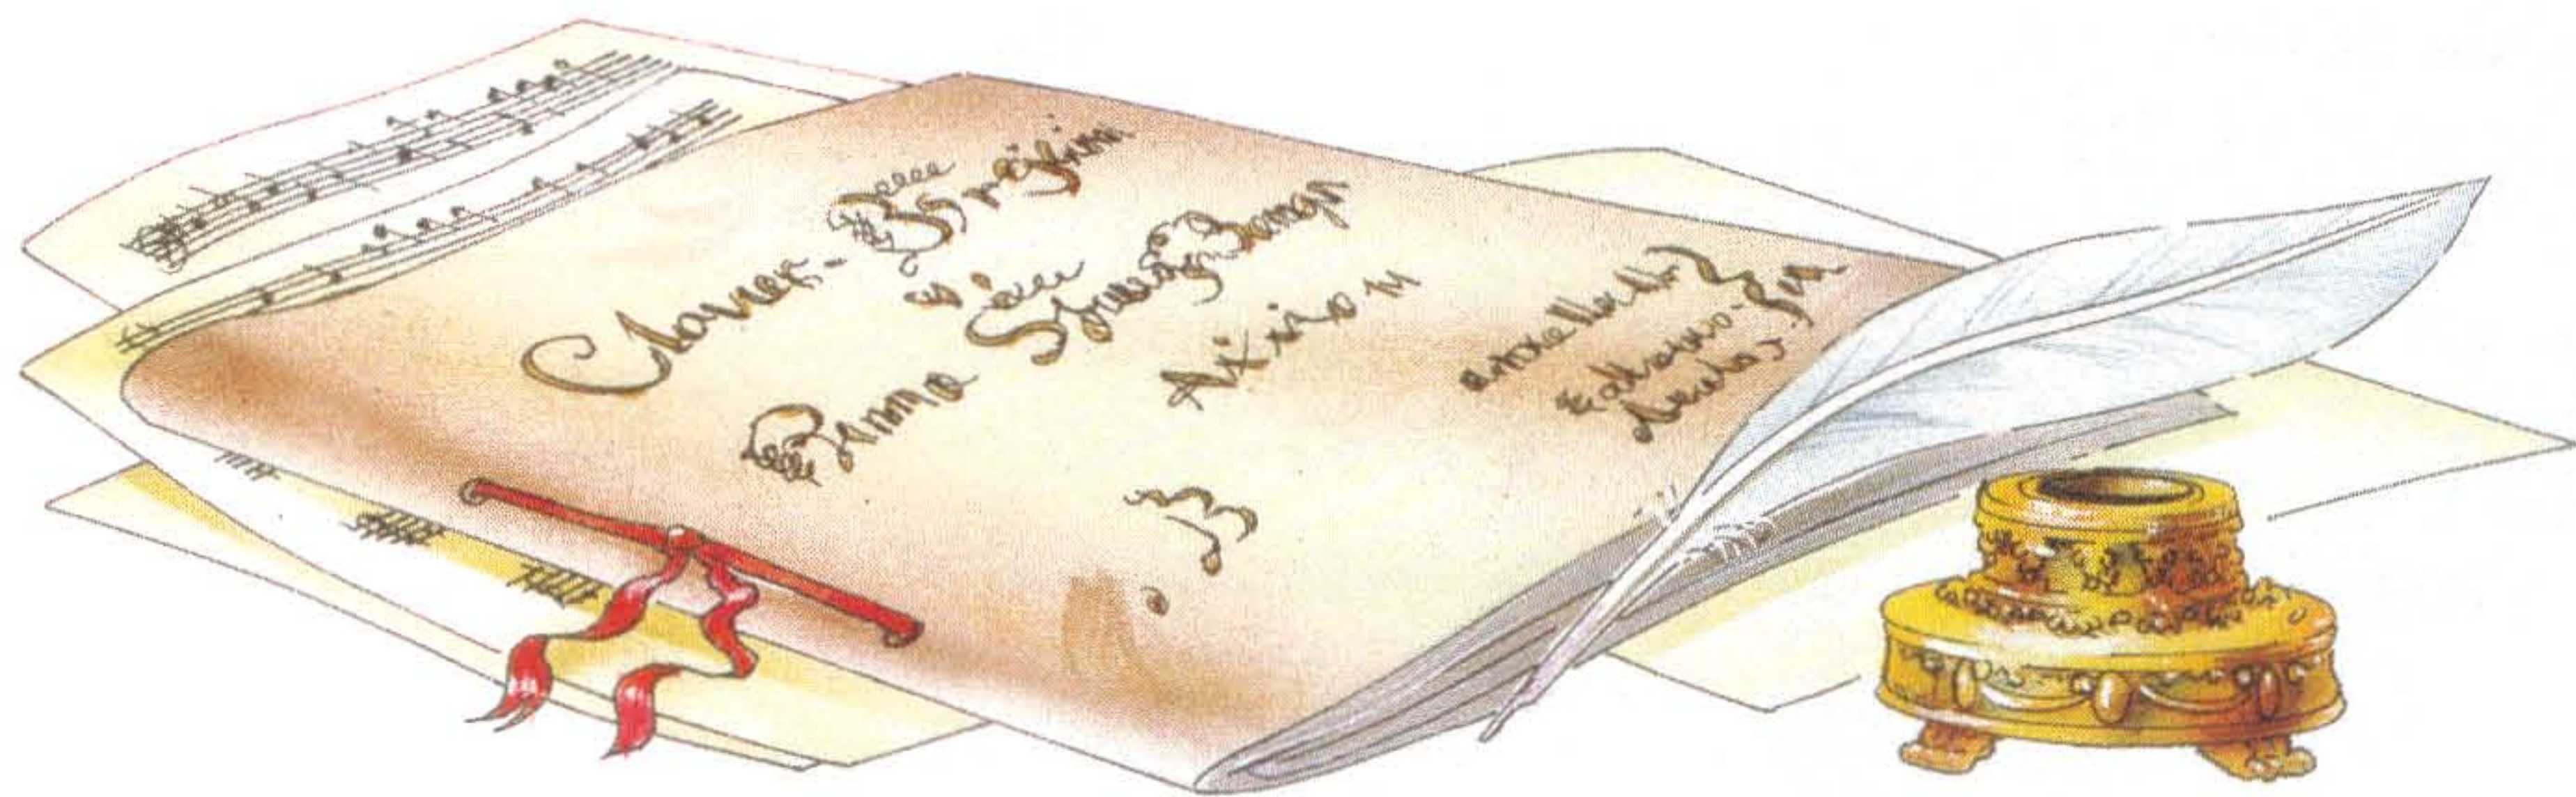

The tunes in this book are taken from popular pieces of classical music, and have been specially arranged and simplified to make them easy to play. Many of them should be familiar, even those with titles that you may not recognize. The pieces are grouped in three sections according to the period in which they were written. At the beginning of each section there is an introduction to the music and composers of that period.

Naming and numbering pieces of music

Most pieces of music have a number, called an opus number. (Opus is the Latin word for “work”). In the 17th century, composers began to number their works as they were published, opus 1 (or op.1), opus 2 and so on. Often a single opus number was given to a group of pieces published together in one book. When several pieces appeared with the same opus number, each one was given a second number, for example,
op.1, no.4.

Composers often gave their music titles as well.

For example, Beethoven called his sixth symphony the Pastoral Symphony. Sometimes titles were added later by other people. Beethoven's sonata op.27, no.2 was given the name Moonlight Sonata.

The Baroque period

Baroque is the name given to the European style of art, architecture and music from about 1600 to 1750. Buildings were very ornate, and music echoed this. Baroque music started in Italy, and worked its way north to Germany, France and England. It is known for its contrasts of speed and volume.

Many new styles or forms of music were developed in the Baroque period, some of these are described here. On the opposite page you can find out about the Baroque composers whose music appears in this section.

Opera

An opera is like a play where some or all of the words are sung. The first operas were staged in private homes in the 1590s by a group of poets and composers called the Camerata. The first public opera house (a special theatre for opera) was opened in Venice in 1637.

The first piano

Early piano

Harpsichord

The first piano was made in about 1700 by an Italian called Cristofori. Pianos didn't really become popular, though, until later in the 18th century. Until then, the main keyboard instruments were the harpsichord, virginal, spinet and clavichord. Only on the clavichord were the strings struck, as they are on a piano. The others had quills to pluck the strings.

Oratorios and cantatas

An oratorio is a musical story or drama, usually on a religious theme. It is performed by a choir and orchestra without costumes, scenery or action. Cantatas are similar to oratorios but they are more an act of worship, often including popular hymn tunes.

The concerto grosso

In the Baroque period, a type of piece called the concerto grosso was popular. It was written for a small group of instruments and a larger orchestra. The orchestra acted mainly as an accompaniment, while the smaller group played special solo parts.

Dance music and suites

Baroque composers began to use dance music in their works. An example of this is the minuet, a dance which was very popular at the court of Louis XIV in France.

A suite is a group of pieces of music, often including several different dance styles.

The orchestra

Example of a baroque orchestra.

An orchestra is a large group of instruments. In the Baroque period, an orchestra had up to around 40 players. More than half of the instruments in an orchestra are strings. There are also sections of brass, woodwind and percussion instruments. Baroque orchestras were directed by the harpsichord player or the lead violinist.

Baroque composers

Henry Purcell
(1659-1695)

Purcell was the most famous English Baroque composer. He had a song published when he was eight, and at 20 became the organist at Westminster Abbey in London. He wrote over 500 works, including music for 40 plays. He also wrote for royal occasions such as coronations, and the funeral of Queen Mary in 1695.

Tomaso Albinoni
(1671-1751)

Albinoni was an Italian composer. He wrote over 40 cantatas, many concertos and a lot of other instrumental music, mainly for strings. He also wrote over 50 operas. He lived most of his early life in Venice, where he opened a singing school with his wife, Margherita, in 1709. After her death, he directed his operas all over Europe.

Antonio Vivaldi
(1678-1741)

Vivaldi was an Italian composer who also trained to be a priest. From 1703 he taught the violin at a girls' school in Venice. He is best known for his development of the concerto, and wrote about 550 of them for various instruments. Although he was a famous musician for much of his life, he died a poor man.

George Frideric Handel
(1685-1759)

Handel was born in Germany. His father didn't want him to be a musician, so as a boy he had to play in secret. He lived in Italy for a while, then went to England and became a British subject in 1726. He composed for kings George I and George II. Handel wrote many kinds of music, including oratorios, operas and concertos.

Johann Sebastian Bach
(1685-1750)

Bach was born into a famous German musical family, and held important posts as a musician at the courts of Weimar and Cöthen. He was an excellent organist, violinist and harpsichord player. His music later influenced many other composers, including Mozart, Beethoven and Mendelssohn.

Thomas Arne
(1710-1778)

Arne was one of the most famous English composers of the late 18th century. He was noted for writing pleasant melodies. He wrote over 30 operas, and lots of music and songs for plays, including those of Shakespeare. The tune for which he is best remembered is now known as *Rule, Britannia*.

When I am laid in earth

This tune is from the opera *Dido and Aeneas*. It is based on *The Aeneid*, a story by the Roman poet Virgil.

It is also called *Dido's Lament* and is sung before she dies.

Purcell

Adagio

The musical score is written for piano in G minor, 3/4 time. It consists of five systems of staves. The first system starts with a treble clef, a key signature of two flats, and a 3/4 time signature. The tempo is marked 'Adagio'. The first measure has a dynamic marking 'p' (piano). The second system has a dynamic marking 'mp' (mezzo-piano). The third system has a dynamic marking 'pp' (pianissimo). The fourth system has a dynamic marking 'mf' (mezzo-forte). The fifth system has a dynamic marking 'pp' and a 'rit.' (ritardando) marking. The score includes various musical notations such as notes, rests, accidentals, and fingerings. The piece ends with a double bar line.

1 3 1 4 1 2 3

2 1 3 4

4 5 2 3

5 1 2 4

5 1 3 2

1 2 5

When Albinoni died, he left a lot of music unfinished. In 1945, an Italian named Giazotto listed all of Albinoni's music.

Adagio

Giazotto thought this piece was so beautiful that he completed it.

Albinoni/Giazotto

Adagio

The musical score is written for piano in G minor (two flats) and 3/4 time. It begins with a tempo marking of 'Adagio'. The first system shows the right hand starting with a half note G4 (finger 5) and a dotted half note F#4 (finger 1), while the left hand plays a half note G3 (finger 3) and a dotted half note F#3 (finger 5). The second system continues the melody in the right hand with eighth and quarter notes, while the left hand plays a half note G3 (finger 2) and a dotted half note F#3 (finger 1). The third system features a 'dim.' (diminuendo) marking and continues the melodic development. The fourth system shows more complex fingering with triplets and sixteenth notes. The fifth system provides two endings: the first ending leads back to the beginning, and the second ending concludes the piece with a final chord (G4, Bb4, D5).

Spring

This is one of four violin concertos called *The Four Seasons*. Each is based on a poem.

The Spring has come, and joyfully is greeted by the birds with happy song.

On the left you can see how the poem for *Spring* begins.

Alla Danza (from Water Music)

This tune is from the second movement of the *Water Music* suite in D. It was written for George I of England in 1717.

This music was composed for a royal river outing on the Thames.

Handel

Allegro moderato

Writing music down

During the middle ages, the words of a song had small marks, called neumes, over them. These showed roughly how high or low the notes were (the pitch).

Guido of Arezzo, an Italian monk who died in 1050, perfected the staff, which showed the exact pitch of notes. The example on the right is from the 13th century.

Handel also wrote some music for a fireworks display given by George II in 1749, to celebrate peace after the war of Austrian Succession.

At the first performance in London, the wooden frame built to support the fireworks caught fire.

Many people contributed to the development of music notation. In the 13th century Franco of Cologne first used different symbols to show notes of different lengths.

On the left is a piece of music by the French composer Josquin des Prés (1440-1521). It was written near the end of the 15th century.

Arrival of the Queen of Sheba

This tune is from the oratorio *Solomon*, based on a story in the Old Testament of the Bible.

It was written in 1749, and first heard at Covent Garden, London.

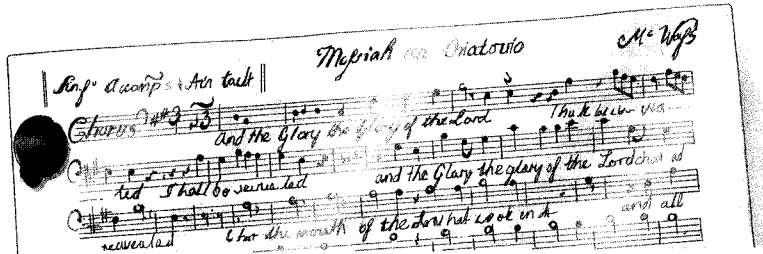

Handel

Allegro

Handwritten musical score for the "Arrival of the Queen of Sheba" by George Frideric Handel. The score is written for a grand piano (4/4 time, key of D major) and consists of five systems of staves. The tempo is marked *Allegro*. The first system begins with a forte (*f*) dynamic. The notation includes various musical symbols such as notes, rests, and fingerings (e.g., 1, 3, 4, 5, 1, 2, 3, 4, 5, 1, 1). The score is presented in a clear, legible format, suitable for a printed edition.

Handel's best known religious oratorio is probably *Messiah*, written in 1742. It is about the life of Christ.

On the left you can see a page from the original music. The words, or libretto, were written by a man called Jennens.

Thine be the glory

This piece was originally from Handel's oratorio called *Judas Maccabaeus*. It is now better known as a hymn tune.

The picture shows some of Handel's pupils in England – the Prince of Wales and his sisters. Handel

Handel

[illegible]

Canon in D

Pachelbel was born in Germany in 1653. He was a successful composer and organist.

The picture shows St. Stephen's Cathedral in Vienna, where Pachelbel was an organist for five years.

Andantino

Pachelbel

Sheet music for the Canon in D, featuring a piano introduction and the main canon. The music is in D major (two sharps) and common time (C).

The introduction is marked *p* (piano) and *Andantino*. It consists of 8 measures. The bass line features a descending chromatic scale with triplets and a final five-measure phrase.

The canon begins in measure 9, marked *mp* (mezzo-piano). It features a repeating bass line and a melody in the treble. The first system of the canon is 8 measures long. The second system is 8 measures long, marked *cresc.* (crescendo). The third system is 8 measures long, marked *mf* (mezzo-forte). The piece concludes with a final chord in measure 24.

Viola concerto in G

Telemann (1681-1767) was born in Hamburg, Germany. This theme is from the first movement of the concerto.

Telemann and his friends used to meet in coffee houses to play music and socialize.

Telemann

Largo

The musical score is written for a viola and piano. It consists of five systems of music. The key signature is one sharp (F#) and the time signature is 3/2. The tempo is marked 'Largo'. The score includes various musical notations such as notes, rests, accidentals, and dynamic markings like 'p' (piano) and 'f' (forte). There are also fingerings indicated by numbers 1-4 and 5. Trills are marked with 'tr.'. The piece concludes with a double bar line.

Brandenburg concerto no.3

Concerto No. 3 in F major for violin, flute, or organ

This theme is from the first movement of the concerto. Bach wrote six Brandenburg concertos.

It is not known exactly when they were written, but they were completed by March, 1721.

Bach

Allegro moderato

The musical score is written for piano in F major (one sharp) and common time (C). It begins with a mezzo-forte (mf) dynamic. The tempo is marked 'Allegro moderato'. The score consists of five systems of two staves each (treble and bass clef). The first system includes a five-measure introduction in the treble staff. The melody is primarily in the treble staff, with the bass staff providing harmonic support. Fingering numbers (1-5) are indicated throughout the piece. The piece concludes with a final whole note chord in the treble staff and a half note in the bass staff.

Air on a G string

This tune is from Suite no.3 in D. Suites are groups of pieces, usually dance tunes.

The bass part, with its regular, stepwise pattern of notes, is typical of Baroque music.

Bach was a very fine organist and wrote a lot of organ and church music. After his death, his music went out of fashion for about 80 years.

On the left is a picture of the organ he used at the New Church at Arnstadt in Germany.

Musical score for a piece in G major, BWV 576, by J.S. Bach. The score is written for a single melodic line on a grand staff (treble and bass clefs) with a key signature of one sharp (F#) and a common time signature (C). The piece consists of 19 measures.

The score includes various musical notations and performance instructions:

- Measures 1-3:** The melody begins with a half note G4, followed by quarter notes A4, B4, and C5. The bass line consists of quarter notes G2, A2, and B2. Fingering: 1, 3, 2 in the right hand; 3, 1, 3 in the left hand.
- Measures 4-6:** The melody continues with quarter notes D5, E5, and F#5. The bass line has quarter notes C3, D3, and E3. Fingering: 1, 3, 2 in the right hand; 1, 3 in the left hand.
- Measure 7:** The melody has a half note G5. The bass line has a half note F#3. Fingering: 1 in the right hand.
- Measures 8-10:** The melody has a half note F#5. The bass line has quarter notes G3, A3, and B3. Fingering: 1, 3, 2 in the right hand; 1, 3 in the left hand.
- Measures 11-13:** The melody has a half note E5. The bass line has quarter notes C4, D4, and E4. Fingering: 1, 3, 2 in the right hand; 1, 3 in the left hand.
- Measures 14-16:** The melody has a half note D5. The bass line has quarter notes F#3, G3, and A3. Fingering: 1, 3, 2 in the right hand; 1, 3 in the left hand.
- Measures 17-19:** The melody has a half note C5. The bass line has quarter notes B2, C3, and D3. Fingering: 1, 3, 2 in the right hand; 1, 3 in the left hand.

Performance instructions include:

- mp cresc. poco a poco:** mezzo piano, crescendo poco a poco (measures 11-13).
- dim.:** diminuendo (measures 17-19).
- rit.:** ritardando (measures 14-16).
- p:** piano (measures 17-19).

Minuet in G

Bach wrote this tune for his second wife, Anna Magdalena. She was a professional singer. They were married in 1721.

The picture shows the cover of a book of music which Bach dedicated to her.

Rule, Britannia

This is a song from a masque called *Alfred*, written in 1740. A masque is a sort of play with music, singing and dancing.

Masques were popular at the houses of wealthy noblemen.

Arne

Musical score for "Rule, Britannia" by Thomas Augustine Arne. The score is written for piano and voice (soprano, alto, tenor, and bass parts are implied by the staves). The tempo is marked *Moderato*. The key signature is one sharp (F#), and the time signature is 4/4. The score consists of five systems of music, each with a treble and bass staff. The first system begins with a forte (*f*) dynamic. The second system includes a mezzo-piano (*mp*) dynamic. The third system includes a forte (*f*) dynamic. The score concludes with a final cadence. Fingerings and articulation marks are indicated throughout the piece.

The Classical period

Some people call all serious music “classical”, but the word is mainly used to describe the music of the second half of the 18th century. Classical music reflects the confidence and prosperity of this period. New instruments enabled composers to

develop new sounds, harmonies and musical forms. Some of these forms are explained below. At this time, Vienna was one of the most important musical cities. Haydn, Mozart and Beethoven, the three greatest composers of the age, lived there for much of their lives.

The symphony

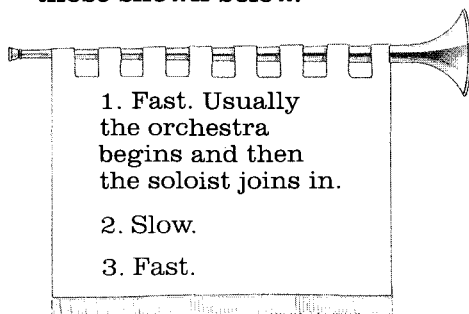

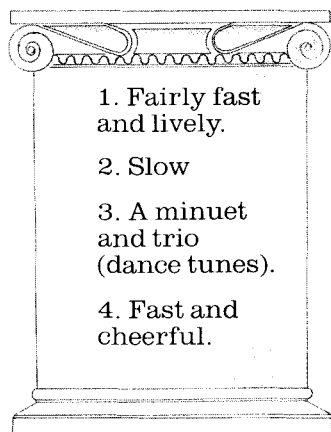

A symphony is a piece of music for an orchestra. In the Classical period, most symphonies had four sections, called movements. Each one had its own speed and style, often in the pattern shown below.

The concerto

A concerto is a piece of music for an orchestra and a soloist. It developed from the Baroque form, the concerto grosso (see page 4). The concerto usually had three movements, like those shown below.

The sonata

Classical sonatas were written for either a single keyboard instrument, or for a keyboard and one other instrument. They usually had three or four movements (see below).

In the first and last movements, the soloist sometimes had a part to play alone, called a cadenza.

The Classical piano

A square piano

A grand piano

During the 18th century, the piano gradually grew in popularity. Unlike the harpsichord, it could play loudly (*forte*) and softly (*piano*). This meant that a much wider variety of music could be played on it.

In the 18th century, Cristofori's invention was called the “*fortepiano*”. Later, it became known as the *pianoforte*, and eventually it was shortened to just the piano. Today, the word *Fortepiano* is used for an instrument built in the early 18th century.

Orchestras

As new instruments were invented or developed, orchestras grew in size. Above you can see the most common orchestral instruments of the classical period, though others were frequently included as well. Orchestras were usually still directed by the harpsichord player or lead violinist.

Classical composers

Franz Joseph Haydn (1732-1809)

Haydn

Haydn was born in Rohrau, Austria. He trained as a choirboy, and sang in the choir of St. Stephen's Cathedral in Vienna for ten years. In 1766, he became music director at the court of the Esterházy, a rich Hungarian family. He worked for them, on and off, for most of his life. Haydn wrote nearly every form of music, including

108 symphonies, many string quartets, operas and church music.

His music was popular all over Europe. He visited many major European cities, including London. In the 1780's he became very good friends with Mozart (see below), who dedicated a set of string quartets to him.

Wolfgang Amadeus Mozart (1756-1791)

To all Lovers of Sciences
THE greatest Prodigy that
Europe, at even that remote
period, ever saw, was
displayed by WOLFGANG MOZART;
born at Salzburg, in 1756, and
who died at Vienna, in 1791.
He was a prodigy of nature,
and his genius was
unrivalled in his age.
He composed more than
600 pieces of music, and
was a great favourite of
the Emperor Joseph II.
He was a great favourite of
the Emperor Joseph II.

Mozart

Mozart was an Austrian composer, and wrote his first music at the age of five. At seven he went on a concert tour of Europe. Above you can see a poster for a concert he gave in England.

Mozart wrote his first symphony at the age of nine. He lived in Salzburg, Paris and Munich, but settled in Vienna in 1781. He often appeared as the soloist and conductor for his own music.

Mozart wrote a huge amount of music, including 41 symphonies, 27 piano concertos, religious music, chamber music and 19 operas. Above is a scene from his opera *The Magic Flute*.

Ludwig van Beethoven (1770-1827)

Beethoven was born in Bonn, Germany, where his father and grandfather were both musicians. From 1792, he lived in Vienna. His early pieces included the *Moonlight Sonata* for piano, three piano concertos, and two symphonies.

From about 1802, he was troubled by gradual and incurable deafness. But he continued writing all kinds of music. Because of pieces like his third, fifth and sixth symphonies, the opera *Fidelio*

Beethoven

and two more piano concertos, he became known as the greatest composer of his day.

By the end of his life he was almost totally deaf, but this

was when he wrote some of his greatest music. His last string quartets contain some of the most challenging music ever written. In his ninth symphony, he used a choir as well as an orchestra, to increase the dramatic effect of the music.

Beethoven's ear trumpets

Bourrée

Leopold was the father of Wolfgang Amadeus Mozart. He was also a musician.

The picture on the left shows Salzburg, the city where Leopold Mozart lived and worked.

Emperor's hymn

This and the next tune are from a set of six string quartets, op.76. This is the third, called *The Emperor*.

It was originally the Austrian national anthem, and is now the anthem of West Germany.

Arms of
Austrian Empire

West German flag

Haydn

Moderato

The musical score is for a piano arrangement of 'Emperor's Hymn' by Joseph Haydn. It is in 4/4 time and B-flat major. The tempo is marked 'Moderato'. The score consists of five systems of music, each with a treble and bass staff. The first system begins with a piano (*p*) dynamic. The second system continues the melody. The third system introduces a mezzo-piano (*mp*) dynamic. The fourth system features a crescendo (*cresc.*) leading to a forte (*f*) dynamic. The fifth system concludes with a decrescendo (*dim.*). Fingerings are indicated by numbers 1-5 above notes. The piece ends with a double bar line.

A string quartet is music played by a cello, a viola and two violins. This tune is the fifth in the set.

String quartet in D op.76, no.5

The op.76 string quartets were written in 1797.

Violins

Viola

Cello

Haydn

Largo

The musical score is written for two violins, viola, and cello. It is in the key of D major (one sharp) and 4/4 time. The tempo is marked 'Largo'. The score consists of five systems of music. The first system begins with a piano (p) dynamic in the treble clef and a forte (f) dynamic in the bass clef. The second system features a piano (p) dynamic. The third system includes a forte (f) dynamic and a piano (p) dynamic. The fourth system is marked with a forte (f) dynamic. The fifth system is marked with a piano (p) dynamic. The score includes various musical notations such as notes, rests, slurs, and fingerings.

Clarinet concerto

Mozart loved the sound of the clarinet. He wrote this concerto for his friend Anton Stadler, a famous clarinetist.

A clarinet in Mozart's time.

This tune is from the second, slow, movement.

Mozart

Andante

2 4

The musical score is written for piano and clarinet. It begins with a treble clef and a 3/4 time signature. The tempo is marked 'Andante'. The piano part starts with a piano (*p*) dynamic. The clarinet part features a series of eighth and sixteenth notes, often beamed together. There are several measures with fingerings indicated by numbers 1 through 5. A repeat sign appears in the middle of the score. The dynamics range from piano (*p*) to crescendo (*cresc.*) and then decrescendo (*dim.*). The score ends with a double bar line.

Romance

The title of this music is German. It means "a little night music". It was completed in 1787.

(from *Eine Kleine Nachtmusik*)

This form of music is called a serenade. It would often be played after a dinner.

Mozart

Andante

The musical score is written for piano and bass. It is in G major (one sharp) and 4/4 time. The tempo is marked 'Andante'. The score consists of five systems of music. The first system starts with a piano (p) dynamic. The second system continues the melody. The third system features a piano (p) dynamic. The fourth system continues the melody. The fifth system concludes the piece. The score includes various musical notations such as notes, rests, and fingerings.

Symphony no.40

This symphony is one of Mozart's last. Parts of it are very sad and moving.

This is the first tune, or theme, in the symphony.

Mozart

The image displays the first 16 measures of the first movement of Mozart's Symphony No. 40. The music is in G minor (three flats) and 4/4 time. The tempo is marked 'Allegro'. The score is written for piano, with a treble and bass staff. Measures 1-4 are marked with a piano (*p*) dynamic. Measures 5-8 continue the piano theme. Measures 9-12 introduce a new melodic line in the treble staff, with the bass staff providing harmonic support. Measures 13-16 feature a crescendo leading to a fortissimo (*f*) dynamic. The score includes various musical notations such as notes, rests, slurs, and fingerings (e.g., 1, 2, 3, 4, 5).

Mozart's last three symphonies, numbers 39, 40 and 41, were written in six weeks during 1788.

On the left is a picture of Mozart conducting an orchestra.

Amazing pianos

Ever since the piano was invented, there have been many weird and wonderful ones made. You can see some on the right.

A piano that could also be used as a table, made about 1850.

A "twin semi-cottage" piano (made about 1850) had two keyboards for two players.

A "harp piano" made in 1857.

Duet from The Magic Flute

The Magic Flute is one of the last pieces Mozart wrote. This duet is sung by the characters Papageno and Pamina.

It is sung just as Papageno rescues Pamina from the evil Monostatos.

Papageno is the royal birdcatcher.

Minuet in G

A minuet is a dance tune in three-four time.

The picture shows a piano quintet (a piano playing with a string quartet).

Beethoven

Moderato

Handwritten musical score for Minuet in G, Op. 25, No. 1 by Beethoven. The score is in G major (one sharp) and 3/4 time. It consists of five systems of music, each with a treble and bass staff joined by a brace. The tempo is marked 'Moderato'. The first system begins with a mezzo-piano (*mp*) dynamic and includes fingerings (1-4, 2-3, 3-4, 3-2) and a breath mark (h). The second system features a crescendo (*cresc.*) and continues with fingerings (1-3, 4-1, 3-2, 5). The third system includes a repeat sign and fingerings (2, 1, 2, 1). The fourth system has a decrescendo hairpin and fingerings (2, 5, 4, 3, 1, 2, 1, 3). The fifth system concludes with fingerings (4, 3, 2, 1, 5, 4, 2, 3, 4, 1) and a final double bar line.

This sonata (op.27, no.2)
was written in 1801. It
was dedicated to a
Countess with whom
Beethoven was in love.

Moonlight Sonata

It got its name
because a poet called
Rellstab said it
reminded him of
moonlight on a lake.

Beethoven

Adagio sostenuto

On the right is the last page of the original manuscript for the Moonlight Sonata.

Beethoven played the piano at the first performances of much of his piano music. On the left is a picture of his grand piano.

The Romantic period

'Romantic' is the word used for a new style of music that developed in Europe in the 19th century. It was often inspired by other arts, especially poetry and painting. Romantic composers tried to write music that expressed their feelings and emotions, and much of their work is very dramatic and moving.

Some people view Beethoven as the

first Romantic composer; he introduced Romantic styles and expressions into his later music. He was followed by Schubert and then many others. You can find out about them on the opposite page.

Romantic composers, especially when they performed as well, were often very popular and had huge followings. You can find out more on page 54.

The orchestra

By about 1830, the orchestra looked more or less like it does today. There could be anywhere between 70 and 100 instruments, depending on the type of music. Many instruments were improved by the invention of valves and keys (see above). The harp was also included in orchestras from about 1820.

As orchestras grew larger, it was no longer practical for one of the musicians to direct the others and play at the same time. Since the early 19th century, most orchestras have been directed by a separate musician called a conductor.

A conductor stands in front of the orchestra, beating time with one hand, and telling the orchestra how loudly or softly to play with the other. The introduction of a conductor meant that very precise directions could be given to the orchestra.

As a result, composers began to write more complex music with greater variation in dynamics and tempo. The conductor was able to control the speed, volume and mood of the music very accurately, so composers began to be more adventurous in the kind of music they wrote for the orchestra.

Romantic music

During the Romantic period, many different types of music were popular. On the right, you can read about some of the most important Romantic styles.

Songs called *Lieder*, especially those of Schubert.

Piano pieces which expressed a mood (Chopin's *Nocturnes*).

The Romantic piano

During the Romantic period, the piano became the most popular instrument. It was much more strongly built, so its sound was able to fill the large concert halls that were being built. It was also given more keys. In the picture below you can see an upright piano.

These were first produced on a large scale in the 1870s and were the kind most people had in their homes.

Music for ballets, for example, that of Tchaikovsky.

Opera – with exotic settings and romantic or adventurous plots.

Romantic composers

Franz Schubert
(1797-1828)
Austrian

Schubert was known mainly as a writer of songs, but he also composed beautiful instrumental music, such as the *Trout Quintet*.

Nicolò Paganini
(1782-1840)
Italian

Paganini was not only a composer, but also a virtuoso performer. He played the violin to wildly enthusiastic audiences.

Gioachino Rossini
(1792-1868)
Italian

Coming from a musical family, Rossini wrote his first opera at 18. He composed 40 more, including *The Barber of Seville*.

Hector Berlioz
(1803-1869)
French

Berlioz was a very inventive composer. He was also a very emotional man, and this is reflected in much of his music.

Robert Schumann
(1810-1856)
German

A gifted pianist, Schumann wrote piano and orchestral music. He composed over 300 songs, many influenced by his love for his wife, Clara.

Felix Mendelssohn
(1809-1847)
German

Mendelssohn was a pianist and conductor as well as a composer. He played and conducted his music all over Europe.

Fryderyk Chopin
(1810-1849)
Polish

Chopin was one of the greatest composers of piano music. He influenced many others, including Liszt, Tchaikovsky and Grieg.

Franz Liszt
(1811-1886)
Hungarian

Liszt was a brilliant concert pianist by the age of 12. His piano music is among the most difficult ever written.

Giuseppe Verdi
(1813-1901)
Italian

Almost all Verdi's music is opera. He wrote and directed all over Europe. Among his best known are *Aida*, *La Traviata* and *Rigoletto*.

Richard Wagner
(1813-1883)
German

Much of Wagner's music was political. He was banished from Germany for 11 years. His 4 operas called *The Ring of the Nibelung* last 18 hours.

Johannes Brahms
(1833-1897)
German

Brahms wrote a wide variety of music, including four symphonies and many songs. He was a close friend of Schumann.

Camille Saint-Saëns
(1835-1921)
French

Saint-Saëns was a famous pianist, organist and composer. He was admired by Liszt and influenced many others, including Ravel.

Pyotr Il'yich Tchaikovsky
(1840-1893)
Russian

Tchaikovsky is famous for many types of music: symphonies, concertos, and ballets such as *Swan Lake* and *The Nutcracker*.

Edvard Grieg
(1843-1907)
Norwegian

Grieg promoted Norwegian music as a composer, pianist and conductor. Two famous works are the *Piano Concerto*, and *Peer Gynt*.

Giacomo Puccini
(1858-1924)
Italian

After seeing Verdi's *Aida*, Puccini dedicated himself to opera. Among his best known works are *La Bohème* and *Madam Butterfly*.

Impromptu op.142, no.3

An impromptu is meant to sound as if it is being improvised, that is, made up on the spot.

The picture on the left shows Schubert's room with his piano.

Schubert

Andante

The musical score is written for piano in 4/4 time, with a key signature of one sharp (F#). It consists of five systems of staves. The first system begins with a treble clef, a key signature of one sharp, and a 4/4 time signature. The tempo is marked 'Andante'. The first measure has a dynamic marking of *p* (piano). The score includes various musical notations such as eighth notes, quarter notes, and half notes, often beamed together in groups. Fingering numbers (1-5) are placed above or below notes to indicate fingerings. The second system continues the melody and accompaniment. The third system features a dynamic marking of *mf* (mezzo-forte) and a repeat sign. The fourth system shows a change in the bass line with a key signature change to two flats (Bb). The fifth system concludes the piece with a final cadence. The score is written for a grand piano, with a treble and bass clef for each system.

The Unfinished Symphony

This symphony, Schubert's eighth, only has two movements. It is thought he didn't finish it because he got tired of it.

A statue of Schubert in Vienna, Austria.

It wasn't performed until 37 years after Schubert's death.

Schubert

Allegro moderato

The musical score is written for piano in 3/4 time, key of D major. It consists of five systems of two staves each (treble and bass clef). Fingerings are indicated by numbers 1-4 above or below notes. Dynamics include *p* (piano) at measure 1, *dim.* (diminuendo) at measure 5, and *rit.* (ritardando) at measure 11. The score ends with a double bar line at measure 12.

This piece is the music to a song. Schubert wrote over 600 songs, called **Lieder**.

The musical score is written for piano in G major (one sharp) and 4/4 time. It consists of five systems of staves. The first system begins with a treble clef, a key signature of one sharp (F#), and a 4/4 time signature. The tempo is marked 'Allegro'. The first measure is marked with a first ending bracket and a piano (*p*) dynamic. The second system ends with a first ending bracket and a 'to Coda' instruction. The third system begins with a first ending bracket and a piano (*p*) dynamic, followed by a second ending bracket and a forte (*f*) dynamic. The fourth system begins with a first ending bracket and a piano (*p*) dynamic, followed by a second ending bracket and a forte (*f*) dynamic. The fifth system begins with a first ending bracket and a piano (*p*) dynamic, followed by a second ending bracket and a forte (*f*) dynamic. The score concludes with a 'D.C. al Coda' instruction and a final Coda section.

Harold in Italy

This piece has a solo viola part that Berlioz wrote for Paganini. In fact, Paganini never played the piece.

It is based on a poem by the poet Byron called *Childe Harold's Pilgrimage*.

Berlioz was also a famous conductor.

Berlioz

Adagio

The musical score is written for a solo viola and piano accompaniment. It consists of five systems of staves. The key signature is one sharp (F#) and the time signature is 3/4. The tempo is marked 'Adagio'. The score begins with a piano (*p*) dynamic. The first system shows the viola playing a melodic line with a fifth finger fingering (5) and the piano providing harmonic support. The second system continues the melodic development. The third system introduces a mezzo-forte (*mf*) dynamic and features a first finger fingering (1) on the viola. The fourth system shows a first finger fingering (1) and a second finger fingering (2) on the viola. The fifth system concludes with a first finger fingering (1) and a 'rit.' (ritardando) marking, indicating a slowing down of the tempo.

This tune is from a set of piano music called *Album for the Young*. It was written in 1848.

Playing the pieces in this section

On these two pages you will find some hints on how to play the pieces in this book. When you are learning a piece, it is usually better to practise each hand separately at first. When you can play each hand comfortably, try to play them at the correct speed, and then try playing both hands together.

There are suggestions for fingerings in the music, but you can try to work out your own fingerings if these do not feel comfortable. If you want to start with the simplest pieces in the book, look at Minuet in G on page 20, and the Pastoral Symphony on page 34.

Trumpet tune

Try to keep an even, march-like rhythm.

When I am laid in earth

There are lots of accidentals in this piece, especially in the third line. Practise each hand on its own at first, until you are confident of the notes.

Adagio

This piece is slow, so make sure the triplets are even. Take care in the first and second time bars - you might want to practise these separately at first.

Spring

The right hand plays thirds almost all the way through this piece. Practise until you can play them accurately.

Alla Danza (from Water Music)

The opening chords in the right hand are difficult. Practise these until you are confident of the fingering.

Arrival of the Queen of Sheba

This is very fast, so practise the right hand part until you can play it at the correct speed before adding the left hand part.

Thine be the glory

You may find it easier to practise this in sections. There are six sections in the piece, each four bars long.

Canon in D

Familiarize yourself with the fingering in the left hand before trying both parts together.

Viola concerto in G major

The first two bars on the last line are a bit tricky, so they may need a little extra work.

Brandenburg concerto no.3

Take care with the fourth line, as there are some big leaps in the right hand.

Air on the G string

Keep the left hand very steady throughout the piece. There are lots of large leaps, so you will need to practise this on its own before adding the right hand.

Minuet in G

Take care not to rush - play at a relaxed tempo.

Rule, Britannia

Make sure you are confident of the fingering in the right hand before trying both hands together.

Bourrée

Play this very smoothly.

Che farò

Keep the left hand part flowing evenly.

Emperor's hymn

When both hands are playing the same rhythm, make sure you keep them absolutely together.

String quartet in D op.76, no.5

When the left hand is playing crotchet chords in the last two lines, make them softer than the right hand to allow the tune to come through.

Clarinet concerto

In the last three lines of the piece, make sure you play the thirds in the left hand very smoothly.

Romance (from Eine kleine Nachtmusik)

Take care with the semiquaver passages in the third and fourth lines. The fingering is sometimes a little tricky here.

Symphony no.40

Play the left hand part a little softer than the right hand, so that you can hear the tune clearly. Keep a steady pace in the left hand, especially in the first two lines of the first page and the first three lines of the second page.

Duet from The Magic Flute

From the second bar of the second line to the first bar of the third line, the left hand has the tune. Play the right hand part a little softer in these bars.

Ode to Joy

Play this very steadily, evenly and confidently.

Pastoral Symphony

Play the chords in the left hand very softly.
Make sure you hold each one for its full length.

Minuet in G

Take care with the passages in thirds in the right hand. Practise these on their own until you can play them without any mistakes before adding the left hand part.

Moonlight Sonata

Play this very quietly and smoothly. Make sure you keep the triplets even throughout.

Impromptu op.142, no.3

Practise the rhythm in the left hand before trying both hands together. This rhythm gives the piece its character, so try to play it as smoothly as possible.

Unfinished Symphony

The tune is in the left hand part, so play this a little stronger than the right hand. Be careful not to make the chords in the right hand sound too heavy.

Serenade

Make sure you don't rush the triplet here. Try to play it exactly in time.

Caprice no.24

This is fairly fast, so practise the right hand part until you can play it fluently before playing both parts together.

William Tell overture

Keep the chords in the left hand fairly short, making sure you leave a full crotchet rest between each one.

Harold in Italy

Play this very smoothly.

The Jolly Peasant

You may find the first two bars on line two a little difficult at first. Play them a few times until you get used to the rhythm.

The Wild Horseman

Pay particular attention to the staccatos and slurs in this piece.

Prelude op.28, no.7

The right hand part is fairly difficult, so practise it very slowly at first.

Nocturne op.9, no.2

Practise the second line on the second page on its own before trying the whole piece. Some of the notes will need careful practice.

Violin concerto in E minor

This piece is fairly difficult, so you should practise both parts until there are no mistakes, before trying them together. The last three lines may need a little extra work.

Liebesträume

The quavers in the right hand should be a little softer than the dotted minims, as these are really part of the accompaniment.

La donna è mobile

The staccato chords in the left hand should be played very lightly.

Ride of the Valkyries

Pay particular attention to the accents in this piece, and emphasize the dotted quavers.

Bridal chorus

Try not to rush this. You should keep a fairly moderate pace throughout.

Symphony no.3

Practise the right hand part of the first and second time bars on its own, until you are confident of the rhythm. The number "5" over the notes means that you play five semiquavers in the time of four. Try to play them as evenly as possible.

Swan Lake

Take care with the fingering in lines two and three.

Piano concerto no.1

The fourth line is fairly difficult, so you should practise this on its own before playing the whole piece.

Solveig's song

There are a lot of accidentals in the fourth and fifth lines. Play both parts until you are confident of the notes in these two lines, before putting both parts together.

Glossary

This list explains the Italian musical terms used in this book, as well as some other words that may be unfamiliar.

Accidental A sharp, flat or natural sign in the music that does not appear in the key signature. An accidental applies to other notes of the same pitch which follow in the same bar.

Adagio Slowly. The word is also used to describe a piece or movement at this tempo.

Allegretto A little slower than Allegro.

Allegro Fast, lively.

Andante Fairly slow, at a walking pace.

Andantino Slightly faster than Andante.

Arrangement An adaptation of a piece of music. An arrangement can be a simpler version of the original piece, or a new version of it for different instruments.

A tempo Return to the original speed.

Cadenza A section for a soloist near the end of a concerto movement. The accompaniment stops, and the soloist plays virtuoso passages based on themes from the piece.

Chamber music Music for small groups of players, each playing a separate line of music.

Coda The end part of a piece of music (the word means “tail” in Italian).

Concerto A piece written for an orchestra and at least one soloist.

Conductor A person who directs musicians during rehearsal and performance.

Crescendo (cresc.) Gradually getting louder.

Da capo (D.C.) Repeat from the beginning. Da capo al fine means repeat from the beginning, ending at the word fine.

Diminuendo (dim.) Gradually getting softer.

Dolce Sweetly, gently.

Duet, duo A piece for two performers, either with or without accompaniment.

Dynamic, dynamics The indications in a piece of music of how loud or soft to play.

Fine The end. The word is often placed above the last bar of a piece, particularly one that contains a lot of repeats.

Form The structure of a piece, or the way in which it is organized.

Improvisation Making up a piece of music while it is being played. When improvising, the performer composes the piece as he or she goes along. Some improvisations are based on well-known tunes.

Largo Very slowly.

Legato Connected smoothly, with no break between the notes.

Libretto The words of an opera or other large sung piece.

Lied (plural lieder) A German song-style. In the 19th century, many German and Austrian composers wrote lieder.

Maestoso Majestically.

Marcia March. Tempo di marcia means “in the time of a march”, and alla marcia means “in the style of a march”.

Moderato At a moderate speed.

Molto Much, very. Adagio molto is very slow.

Moto Movement, motion. Andante con moto means “with more motion than Andante”.

Movement An individual section of a larger piece, such as a symphony or sonata.

Pedal, ped. When you see this written under a note, you should press down the sustaining pedal (on the right). Hold the pedal down for the length of the note, and release it when you play the next one.

Piano quintet Music for the piano and four other instruments, usually a string quartet.

Poco A little. Poco rall. means “a little slower” and poco a poco means “little by little”, or “gradually”.

Presto Fast; faster than allegro.

Rallentando; Ritardando Gradually getting slower.

Sempre Always. Sempre legato means “play smoothly throughout the piece”.

Serenade A piece of music often performed in the evening at dinners or parties. Serenades were played by small groups of musicians, and had up to ten movements.

Soloist The performer in a concerto who plays the main part.

Sonata A piece with more than one movement, usually for one or two instruments.

Sostenuto Sustained, held for a long time.

Staccato Detached. Staccato is usually shown by a dot above or below a note. Staccato notes should be short and spiky.

String quartet A group of two violins, one

viola and one cello, or a piece of chamber music for that combination of instruments.

String quintet A group of five string instruments (a string quartet with an extra viola or cello, or a double bass), or a piece of music for that combination of instruments.

Suite A set of pieces, often dances, grouped together to be played in order.

Symphony A piece for orchestra usually consisting of three or four movements.

Tempo The speed of a piece of music.

Tempo di valse At the speed of a waltz.

Theme A tune or melody. In a symphony or a sonata, there are usually many different themes grouped into movements.

Trio A group of three musicians playing together, or a piece of music written for three instruments in any combination.

Virtuoso A very skilled performer.

Vivace Lively.

Waltz A type of dance popular in the 19th century, especially in Vienna. Waltzes have three beats to the bar, but are usually faster than a minuet.

Symbols used in this book

Below you will find the meanings of the musical symbols used in this book that might be unfamiliar.

tr **Trill** Alternate quickly between the written note and one above it.

1.  **First- and second-time bars** Play the bar marked “1.” first, then repeat the section and play the bar marked “2.”

 **Pause** Hold the note for slightly longer than normal.

 **Coda** An extra section at the end of a piece.

Accent Play accented notes with more force.

Go back to this sign.

Forzando With force.

Tenuto Make sure you hold on to the note for the full value.

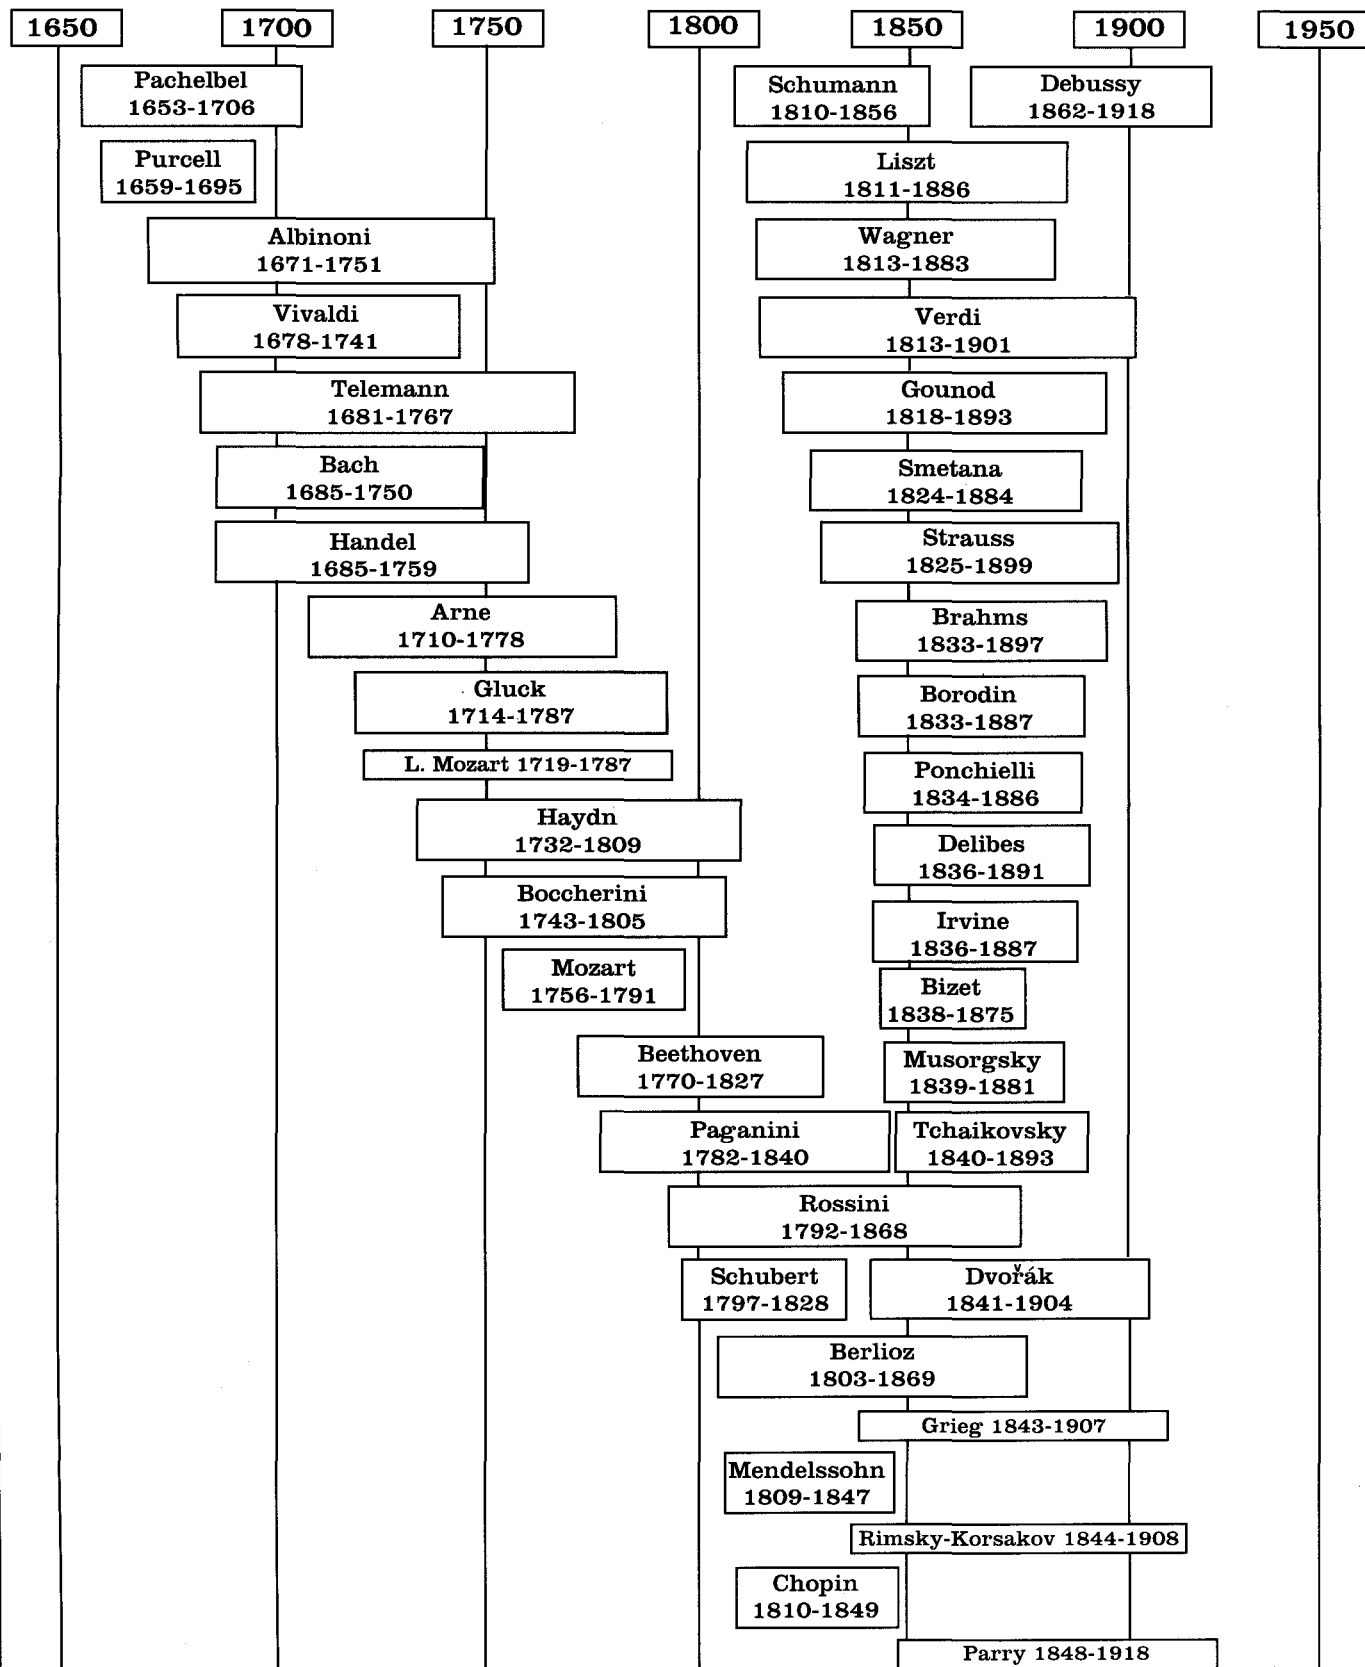

Pedal Press the pedal on the right and hold it down for the full length of the note.

Arpeggio Play each note in the chord very quickly, from the lowest note upward.

Composer chart

Below is a chart which shows you the life spans of the composers in this book.

About this section of the book

The tunes in this section of the book are all taken from famous pieces of classical music. Some of the pieces were originally written for the piano, but others were written for an orchestra, or a group of instruments or singers. They have been specially arranged and simplified to make them easy to play.

The pieces are grouped in four sections - Theatre music, Music for dancing, Religious music, and Descriptive music. At the beginning of each one there is an introduction to the pieces that follow. On pages 126-127, you will find some hints about how to play each piece.

Naming and numbering pieces of music

Most pieces of music have a number, called an opus number. (Opus is the Latin word for "work"). In this book, opus numbers have been used when the composer wrote more than one piece with the same title. Where a piece has a well-known title, no opus number has been given.

Sometimes a single opus number was given to a group of pieces that were published together. In this case each piece was given a second number, for example, op.35, no.5. The opus number will help you if you want to buy a recording of a particular piece, or a copy of the original music for it.

Theatre music

Since the earliest times, music has been a very important part of theatrical performances. Music is often added to plays to make them more interesting. Sometimes musicians accompany singing and dancing on stage, but music can also be used to emphasize the mood of the play, rather like film or television music.

Acting, singing and dancing have always been closely linked. In ancient Greek and Roman times, some actors used to mime the story (act without speaking) while music was played. Later, composers began to write music to go with plays and religious stories. Gradually, two special kinds of theatre music developed. One, opera, is based on singing. The other, ballet, is based on dancing.

Opera

Opera tells a story through songs. The music is played by an orchestra, while the actors sing on stage. The first opera was performed in the early 17th century.

La Scala opera house in Milan

Opera soon became very popular in Europe, and many opera houses (special theatres for opera) were built.

Opening of *Orfeo*, an early opera

The performers were often much more famous than the composers. People would go to an opera to hear singers they liked.

Title page of an opera by Mozart

There are lots of different types of opera. The styles have changed gradually over the years. In Handel's operas, all the words are sung, and the stories are serious. They are often based on history or mythology. Several of Mozart's operas, including *The Marriage of Figaro* and *Così fan tutte*, are based on comical stories and contain spoken parts. In the 19th century, composers like Verdi and Puccini wrote operas with sad, romantic stories. These are often about the lives of ordinary people, not historical or legendary ones.

Inside an opera house

The story used in an opera is called the libretto. This is the Italian word for 'little book'. When opera first began, the people in the audience had this in front of them so that they could read the words while the opera was being performed. Later, the audience sat in the dark, and only the stage was lit. This made it too dark to read, but it was easier to see what was happening on the stage.

Title page of Verdi's *La traviata*

Ballet

Ballet tells a story using music and dance. There are no spoken words, so the music is very descriptive and the dancers use their movements to tell the story.

The first ballets were performed in private. Wealthy noblemen arranged evenings of entertainment in their homes, in which performers sang, danced and recited poetry.

Modern ballet dancers

Later, composers such as Lully began to write music specially for the ballet. Someone else worked out the dance steps. The person who arranges the dances is called the choreographer.

Ballet stories are very imaginative. Some are based on fairy tales, like the ballets of Delibes and Tchaikovsky. Two of the most popular ballets in this style are Tchaikovsky's *The Nutcracker* and *The Sleeping Beauty*. Other ballets are based on plays or books, and can be sad or romantic.

Performers at a private house

The dances gradually became the most important part, and the performers started to mime the actions instead of singing or reciting words. The first ballet to be shown in a public theatre was staged in 1581 in France.

At first, dancers chose any music to perform to. It was not necessarily dance music.

Overtures

An overture is a piece of music that is played before an opera or ballet begins. It is the first music that the audience hears, so it is often lively and exciting to attract people's attention.

Overtures are also played at the beginning of orchestral concerts. The overture to Rossini's opera *The Barber of Seville* is often used this way. When this idea first became popular, many composers, such as Mendelssohn, began writing overtures specially for concerts.

Costumes and scenery

Opera and ballet often use spectacular costumes and scenery. Sometimes parts of the scenery have to move during the performance.

17th century opera scenery

Often complex machinery is needed to do this. This can make ballets and operas very expensive to stage.

Machinery to move the scenery shown above

A scene in *The Nutcracker*

Terzettino

This tune is from a light-hearted opera called *Così fan tutte* by Wolfgang Amadeus Mozart (1756-1791). It was written in 1790.

Terzettino means “a little trio”. It is a song for three people. On the left is a page of music from the opera in Mozart’s handwriting.

Mozart

Moderato

On the right is a scene from a performance of *Così fan tutte*. It took place in 1969 at a festival in Salzburg, the city where Mozart was born.

The words of the opera (the libretto) were written by Lorenzo da Ponte. He also wrote the words for two of Mozart's other operas.

Fidelio

Ludwig van Beethoven (1770-1827) wrote many kinds of music. But although he was interested in theatre music, *Fidelio* was his only opera.

At first, audiences disliked the opera. Beethoven rewrote it several times before it was a success. On the left you can see a scene from the opera.

Beethoven

Andante

The Barber of Seville overture

Gioachino Rossini (1792-1868) was a very famous and successful composer. He wrote *The Barber of Seville* in 1816 for a theatre in Rome.

It was performed less than a month after he started to write it. Many people think it is one of the best comic operas ever written.

Rossini

Allegro vivace

f

Drinking song

This tune is from an opera by Giuseppe Verdi (1813-1901) called *La traviata*. It is now one of the most popular operas ever written.

But the first performance in 1853 was not a success. This is partly because it used modern costumes like the one on the left.

Verdi

Allegretto

5

This made the sad story too realistic. At the time, people thought that operas should be like fantasies, and not like real life.

In some later performances, the singers had 17th-century costumes like the one shown here. This helped the opera become much more popular.

It was written at the same time as *La traviata* (see page 74). Verdi finished the two operas within six weeks of each other.

Allegro

The Count di Luna and the troubadour Manrico are brothers, but they do not know this. The Count believes his brother was killed by a woman called Azucena, but in fact she has brought up Manrico as her own child. The Count sentences Azucena to death for murdering his brother. When Manrico tries to save her, the Count imprisons him.

Manrico serenades Leonore with love songs

The *Anvil chorus* is sung by people beating metal on an anvil. The bass line of the music imitates the crash of the hammer.

On the left is some scenery used in a performance of the opera. The troubadour comes to this castle to sing to Leonore, the woman he loves.

Manrico and the Count fight a duel over Leonore

Leonore and Manrico are happy until the Count arrests Manrico

Leonore begs the Count to spare Manrico's life

Soldiers' chorus

This tune is from an opera called *Faust* by Charles Gounod (1818-1893). It is based on a story by the German writer Goethe.

In the story, Faust sells his soul to the Devil. Several other composers, including Mendelssohn and Berlioz, also wrote music based on it.

Gounod

Allegro (alla marcia)

Sheet music for the Soldiers' chorus, composed by Charles Gounod. The music is in 6/8 time, key of B-flat major, and marked *Allegro (alla marcia)*. The score is written for piano (p) and includes dynamic markings such as *f* (forte) and *ff* (fortissimo). The piece is divided into measures, with measure numbers 2, 5, 9, 14, and 18 indicated. The notation includes treble and bass staves, with various musical symbols such as notes, rests, and accidentals. The piece concludes with a Coda section, marked "D.C. al Coda" and "Coda".

Measure numbers: 2, 5, 9, 14, 18.

Dynamic markings: *f*, *ff*.

Section markings: D.C. al Coda, Coda.

March of the kings

This piece is by Georges Bizet (1838-1875), shown on the right. It was written for *L'Arlésienne*, a play by the French writer Daudet.

The tune itself is a very old folk song. It comes from Provence, the area in the south of France where Daudet lived.

The image shows a musical score for the piece 'March of the kings' by Georges Bizet. The score is written for piano and is in 2/4 time. It is in the key of B-flat major (two flats). The tempo is marked 'Tempo di Marcia'. The score is divided into five systems, each with a treble and bass staff. The first system starts with a forte (f) dynamic. The second system has a measure number 4. The third system has a measure number 7. The fourth system has a measure number 10 and a crescendo (cresc.) marking. The fifth system has a measure number 13 and a fortissimo (ff) dynamic. The score includes various musical notations such as notes, rests, slurs, and fingerings (e.g., 1, 2, 3, 4). The piece ends with a double bar line.

Morning

This tune is by Edvard Grieg (1843-1907). It is part of some music he was asked to write by Henrik Ibsen, a Norwegian author.

The music was written to go with Ibsen's play *Peer Gynt*. This part describes Peer Gynt waking up and seeing the sun rising in the desert.

Grieg

Moderato

Handwritten musical score for the piece "Morning" by Edvard Grieg. The score is written for piano and is in 6/8 time, with a key signature of one sharp (F#). The tempo is marked "Moderato". The score is divided into five systems, each containing two staves (treble and bass clef). The first system starts with a piano (*p*) dynamic and a "legato" marking. The second system ends with a mezzo-forte (*mf*) dynamic. The third system starts with a mezzo-forte (*mf*) dynamic. The fourth system ends with a mezzo-piano (*mp*) dynamic. The fifth system concludes the piece. The score includes various musical notations such as notes, rests, slurs, and fingerings (e.g., 1, 2, 3, 4, 5). The piece is numbered 1, 5, 10, 14, and 18 at the beginning of each system.

Flower duet

This tune is from an opera called *Lakmé* by Léo Delibes (1836-1891). It was successful immediately because of its oriental style.

At this time oriental fashions were very popular. They influenced music, painting, poetry and even the style of dress some people wore.

The musical score is written for piano in 3/4 time, key of B-flat major. It consists of five systems of music. The first system starts with a treble clef, a key signature of two flats, and a 3/4 time signature. The tempo is marked 'Allegro moderato'. The first measure is marked 'mp'. The score includes various musical notations such as notes, rests, and slurs. The piece ends with a double bar line and a repeat sign.

Music for dancing

Dancing has always been a popular entertainment. At first, most people danced privately in their homes, or at feasts and parties. But, in the 18th and 19th centuries, as more people wanted to dance, large public halls called ballrooms were opened. An orchestra or small band played the music. There were many types of dance. Each one changed little by little over many years, but some of them are still danced today.

Music for dancing is different from music for ballet (see page 69). Ballet music was written for professional dancers and theatrical performances, but most of the music in this section of the book was written for ordinary people to dance to.

Early dances

In ancient times, dances were used as a way of praying. People danced and sang to ask their gods to make crops

grow. But this died out in most parts of Europe when Christianity became the most common religion.

We know from books and pictures that dancing

Medieval dancers

was still popular, but very little dance music from before about 1350 has been found. This is probably because the only music written down in this period was church music (see page 100). But gradually people began to write folk and dance music down too.

Early folk music

16th century dancers

During the 15th and 16th centuries, the basse danse was very popular. This was in fact a series of dances in several different styles.

However the music was never very fast because the clothes people wore were so bulky that they were not able to move quickly.

The suite

By the Baroque period (about 1600 to 1750) the basse danse had developed into a musical form called the suite. This is a set of dances played one after the other.

An 18th century ballroom

There was no limit to the number of dances, but normally there were four or five. The most popular dances were the allemande, the courante, the sarabande and the gigue. Any extra ones were inserted between the sarabande and the gigue.

In the allemande the dancers linked arms. It was a good dance to begin with because it was not too fast. The courante used quick running steps. Sometimes it was hard for the dancers to keep up with the music.

18th century dancers

After this, the slow, gentle sarabande gave the dancers a rest. The suite usually ended with a fast, lively gigue.

The minuet

The minuet was another dance which was often included in the suite. Minuets are slow and graceful, in three-four or three-eight time. The dancing couples bow to each other and point their toes as they dance.

In the 18th century, the minuet was one of the most popular dances. Even when it was no longer fashionable in ballrooms, composers continued to write minuets to include in their operas, ballets and symphonies.

The gavotte and musette

The gavotte became popular around the end of the Baroque period. It was often included in suites.

Another dance, called the musette, developed from the gavotte. It is similar in style, but the bass line contains a repeated note known as a drone. This sometimes makes the music sound a bit like a bagpipe. At around this time in France, a small bagpipe called a musette was very popular.

Dancing a minuet

One of the most famous composers of waltzes was Johann Strauss II, the son of another composer called Johann Strauss.

Title page of *The Blue Danube*

Another very popular dance in the 19th century was the polonaise. This originally came from Poland in the 16th century. The polonaise was slow and dignified, and was often danced at weddings and other special occasions.

In the 19th century, many composers began to feel very proud of the customs and traditions of their countries. They began writing music that was based on folk tunes and dances. This is known as Nationalism. Famous nationalist pieces are Grieg's Norwegian dances and Dvořák's Slavonic dances.

Mozart wrote lots of minuets. Some were for dancing, but others were part of larger pieces of music like operas and ballets.

The 19th century

The most popular dance in the 19th century was the waltz. It is in three-four time, and is quite fast. Some people believed the waltz was unhealthy because the dancing couples whirled around the room so quickly.

19th century dancers waltzing

A musette

One of the most famous musettes was written by Johann Sebastian Bach, in his *Notebook for Anna Magdalena Bach*.

Musette

J.S. Bach (1685-1750) came from a very musical family. His father was a musician and three of his sons became famous composers.

This piece is from a book of music he wrote for his wife, Anna Magdalena. The picture shows him accompanying his family singing and playing.

J. S. Bach

Moderato

Sheet music for the piece "Musette" by J.S. Bach, marked **Moderato**. The music is in G major (one sharp) and 2/4 time. The tempo is marked **Moderato**. The piece begins with a **mp** (mezzo-piano) dynamic. The notation is for a single melodic line, likely for a flute or violin. The piece is divided into measures, with measure numbers 5, 9, 13, and 17 indicated. The piece concludes with a **Fine** marking. The final measure is marked **D.C. al Fine** (Da Capo al Fine). The piece is in 2/4 time, with a tempo of **Moderato**.

D.C. al Fine

The musical score is for a piano piece in 3/4 time, marked Allegro. It consists of 20 measures. The first five measures are marked with a forte (f) dynamic. The piece ends with a double bar line and the instruction 'D.C. al Fine'.

Minuet in A

Luigi Boccherini (1743-1805)
wrote this minuet as one
movement of a string quintet
(a piece of music for five
stringed instruments).

Music for small groups of
instruments is often called
chamber music. It became
very popular around this time.

Moderato

Boccherini

The musical score is written for piano in A major (three sharps) and 3/4 time. It consists of five systems of staves. The first system starts with a treble clef, a key signature of three sharps, and a 3/4 time signature. The tempo is marked 'Moderato' and the dynamics 'mp'. The score includes various musical notations such as eighth notes, quarter notes, and sixteenth notes. Fingerings are indicated by numbers 1-5. Trills are marked with 'tr'. The score is divided into measures by vertical bar lines, with measure numbers 4, 8, 12, and 16 indicated at the start of their respective systems. The piece concludes with a final cadence in the fifth system.

The Blue Danube waltz no.1

Johann Strauss composed this waltz in 1867. He was asked to write some music to accompany a poem about the Austrian capital city, Vienna.

The poem included the words
"Vienna, be glad,
Oho, why, why?"
Many Viennese people felt
insulted by this.

Strauss

Tempo di Valse

6

11

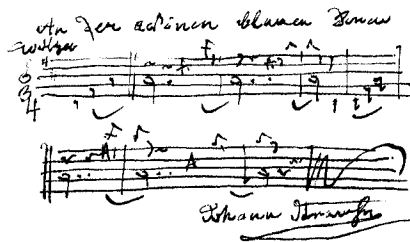

16

21

Later, when the words had been removed, the tune became extremely popular. It was almost like an unofficial national anthem.

Strauss' original copy of the opening is shown here. The full title is *An der schönen blauen Donau* ("By the beautiful blue Danube").

Hungarian dance no.5

Johannes Brahms (1833-1897) was born in Hamburg in Germany. He wrote 21 Hungarian dances for piano between 1868 and 1880.

There were many Hungarian people living in Hamburg at this time. Brahms heard a great deal of Hungarian folk music as a child.

Brahms

Allegro

musical score for "The Rose Tree" in G major, 4/4 time. The score is written for piano (p) and includes a mezzo-piano (mp) dynamic marking. The melody is in the treble clef, and the bass line is in the bass clef. The key signature has one sharp (F#), and the time signature is 4/4. The melody consists of a series of eighth and quarter notes, with a final quarter note tied to the next measure. The bass line consists of a series of quarter notes and eighth notes, with a final quarter note tied to the next measure. The score is divided into three measures by vertical bar lines.

Dance of the hours

Amilcare Ponchielli (1834-1886) taught at the music school in Milan in Italy. One of his pupils was Puccini, another famous composer.

Dance of the hours is from an opera called *La gioconda* ("The joyful girl") written in 1876. It is Ponchielli's most famous opera.

Ponchielli

Slavonic dance op.46, no.8

Antonin Dvořák (1841-1904)
was born in Bohemia, now
called the Czech Republic.
Many of his pieces were based
on Czech folk tunes.

On the left is the title on the
cover of his Slavonic dances.
It was one of the first pieces
he was commissioned to
write, and was very popular.

Dvořák

Allegro

Eugene Onegin waltz

Tchaikovsky wrote this piece in 1879. It was performed in Moscow the same year. It is based on a story by Pushkin, a Russian poet.

On the left is a picture of Tchaikovsky's country house. It was half-way between Moscow and St. Petersburg.

Tchaikovsky

Moderato

Handwritten musical score for the Eugene Onegin waltz, Tchaikovsky. The score is written for piano (p) and is in 3/4 time, key of D major (two sharps). The tempo is marked Moderato. The score is divided into five systems, each starting with a measure number (4, 7, 10, 13). The notation includes treble and bass staves with various musical symbols such as notes, rests, and fingerings (e.g., 1, 2, 4, 5). The piece concludes with a double bar line at the end of the fifth system.

Norwegian dance op.35, no.2

Grieg went to a special music school (shown on the right) called the Leipzig Conservatoire, in Germany.

The school was founded by another composer called Mendelssohn (see page 114) in 1843, the year in which Grieg was born.

Grieg

Allegretto

A musical score for a piano piece in 2/4 time, marked 'Allegretto' and 'mf'. The score is written for piano and consists of four systems of staves. The first system starts with a treble clef, a key signature of one sharp (F#), and a 2/4 time signature. The melody is in the treble clef, and the bass line is in the bass clef. The second system starts with a measure rest in the treble clef. The third system starts with a measure rest in the treble clef. The fourth system starts with a measure rest in the treble clef. The score ends with a double bar line.

Grieg was very influenced by Norwegian folk music. A lot of his pieces, including this dance, are written in a traditional Norwegian style. Some of his pieces were based on folk stories, or were written to describe the Norwegian landscape. He also wrote many songs using poems by Norwegian writers. Many of these were first performed by his wife, Nina Hagerup, a famous singer. In 1867 Grieg founded the Norwegian Academy of Music, so that other Norwegian composers could learn to write music in a traditional style.

Norwegian folk dancers

Polovtsian dance no.1

This dance is from an opera called *Prince Igor*. Alexander Borodin (1833-1887) worked on this opera for 18 years but died before it was finished.

The opera was completed by two other composers, Rimsky-Korsakov and Glazunov. Like Borodin, both of them were Russian.

Borodin

Moderato

Handwritten musical score for the Polovtsian dance no.1, Moderato, in 4/4 time, key of D major. The score is written for piano (p) and consists of five systems of music, each with a treble and bass staff. The tempo is marked Moderato. The score includes various musical notations such as notes, rests, and fingerings (1, 2, 3, 4). The piece ends with a double bar line.

Handwritten musical score for the Polovtsian dance no.1, Moderato, in 4/4 time, key of D major. The score is written for piano (p) and consists of five systems of music, each with a treble and bass staff. The tempo is marked Moderato. The score includes various musical notations such as notes, rests, and fingerings (1, 2, 3, 4). The piece ends with a double bar line.

Religious music

People have always used music for prayers to their gods and goddesses, in different religions all over the world. The earliest surviving written music was composed for use in churches. The pieces in this section of the book were written for worship in different types of Christian churches.

Early church music

The first type of church music is known as plainsong or plainchant. It was first written down in the 6th century AD, but may have been used for many years before that. Each prayer had its own chant, and there were different chants for various times of the year. The tunes were very slow and only used a few notes.

13th century music (left)

16th century music (right)

Beside plainsong, the only other popular music was folk music. Folk songs were lively and tuneful, and so were enjoyable to sing. In the 10th century, some composers began to think that they could make their church music more interesting if

St. Mark's Cathedral, Venice

they mixed chants with folk tunes. Gradually church music became more varied.

Early folk musicians

Church composers

Until the 17th century, most composers were paid by churches to write music. In many large churches, the composers had to write new music for every week. This was performed in church by professional musicians, at first an organist and a choir, later an orchestra too.

Later composers did not have to depend on churches for their money. But some still worked for churches, and others wrote church music for special occasions. In the 19th century, some composers wrote religious music that they intended to be played in concert halls, rather than in church.

The mass

A mass is a type of religious service (set of prayers) held in many Christian churches. Masses have special words, usually in Latin, that are spoken by the priest. In the 7th century, composers began to set the words of the mass to music. At first the tunes were chants. Later they became more complicated, and parts for instruments were added.

Medieval monks singing mass

For hundreds of years, the mass was the most popular form of church music.

There are masses for many different occasions. As well as ordinary ones for each day of the year, there are masses for special events like coronations, weddings and funerals. A funeral mass is called a requiem ("re-kwi-em"). It gets its name from the Latin words "Requiem in pace" which means "May they rest in peace".

The chorale

In Germany in the 16th century, some church leaders believed that people should take part in prayers, not just listen to the choir or orchestra. One of these, Martin Luther, began writing tunes for everybody to sing. They had words that were written in everyday languages, not Latin. These tunes are called chorales, and they were usually accompanied by an organ.

Some chorale tunes are based on plainchant melodies, others on folk songs. The melodies were simpler than most masses of the time. This made them easier to sing and meant that everyone could join in. J. S. Bach was one of the most important composers of chorales.

Martin Luther

An 18th century performance of an oratorio

Soon this type of church singing became popular all over northern Europe and later in America. Today, tunes in this style are often called hymns. Some are based on earlier chorales, but there are many recent ones too.

The oratorio

An oratorio is a piece of music that tells a story based on scenes from the Bible. It is sung by a choir and is usually accompanied by a small group of instruments or by an orchestra.

Oratorios were developed by a group of church leaders who were trying to encourage more people to go to church. They believed that people would find stories from the Bible much more interesting if they were presented in this way. Opera was very popular at around this time, so many composers started to develop a musical style similar to opera for writing oratorios.

Sometimes they added hymns and chorales. But oratorios were not intended to be performed on stage, and the singers do not wear costumes or act out the parts. The main parts are sung by soloists and the rest by the choir.

Spirituals

Spirituals are religious songs that developed in America during the 18th and 19th centuries. They are sung in churches in the same way as hymns, but the style of music is often different from hymns.

People singing spirituals

This is because they are more closely related to folk songs. By the end of the 19th century, spiritual songs had become very popular as concert pieces. Because of this, spirituals used in church services began to change, and a new form of religious music developed. This new style became known as gospel music.

Hymn singing in the 19th century

Wachet auf!

Wachet auf! is a cantata (a piece for choir or solo singers with an orchestra). It is usually known in English as "Sleepers wake".

Bach wrote *Wachet auf* in 1731. This tune from it is a chorale (see p.101). It is called "Zion hears!"

Jesu, joy of man's desiring

This piece is also from a cantata. It is a very popular tune and many people have tried to write music that sounds similar to it.

On the left you can see the town of Leipzig where Bach lived and worked for most of his life.

J. S. Bach

Moderato

p legato

The musical score is written for piano in G major, 9/8 time. It consists of five systems of music, each with a treble and bass staff. The tempo is marked 'Moderato'. The first system starts with a treble staff containing a quarter rest followed by eighth-note patterns with fingerings 2, 3, 1, and 1, 3. The bass staff has a whole note G. The second system continues the treble staff with eighth-note patterns and fingerings 2, 1, 2, 2. The bass staff has a whole note G. The third system continues the treble staff with eighth-note patterns and fingerings 1, 1, 2, 2. The bass staff has a whole note G. The fourth system continues the treble staff with eighth-note patterns and fingerings 1, 3, 2. The bass staff has a whole note G. The fifth system continues the treble staff with eighth-note patterns and fingerings 1, 2, 5. The bass staff has a whole note G. The piece ends with a double bar line.

The Heavens are telling the glory of God

This song is from an oratorio (see page 101) called *The Creation* by Joseph Haydn (1732-1809). It is about the creation of the world.

The picture shows the palace of Esterháza in Hungary. This is where Haydn worked for the princes Paul Anton and Nicholas Esterházy.

D.C. al Coda ⊕ Coda

p

mf

p

rit.

This type of music often uses special themes (melodies) for the main characters in the story. This helps listeners to recognize the people in the story when their themes are played. Sometimes it is also possible to tell the mood of the character. For example, if the theme is played very loudly, with drums in the background, it could mean that the character is angry.

Another Russian composer, Tchaikovsky, wrote a piece about the war between Russia and France in 1812. He used parts of the Russian national anthem to describe the triumphant feeling of the Russians as they finally beat the French. The music even includes cannons to create the sounds and atmosphere of a war. The piece is called the *1812 Overture*.

Russian soldiers fighting the French in 1812

Seasonal music

Sometimes music is written to describe different times of the day or year. Vivaldi wrote a set of pieces called *The Four Seasons*. It describes the way the seasons change throughout the year.

A scene from *The Four Seasons*

He wrote lots of comments above the music to say what was happening, such as “the dog barks” and “shivering with cold”.

Haydn also gave descriptive titles to a lot of his music. He wrote three pieces to describe different parts of the day. These are called *le matin* (“Morning”), *le midi* (“Noon”) and *le soir* (“Evening”). There are no words written above the music, but you can hear the mood change in each piece. *Le matin* has a slow introduction, as if the sun is rising. Then the music livens up as the day begins.

Music about feelings

Many composers have written music that describes their feelings and emotions. The French composer Berlioz fell in love with the actress Harriet Smithson after seeing her in a play. He was unable to arrange to meet her, so to attract her attention he wrote the *Symphonie fantastique* (“Fantastic symphony”) about his feelings for her.

The story behind the piece is a mixture of facts, emotions, dreams and nightmares. At the first performance, the audience was given a printed copy of the story to read. The

music expresses his feelings and is often very dramatic.

Though Harriet Smithson was not at the concert, she and Berlioz later met, and were eventually married.

Harriet Smithson

Chopin composed many pieces called Nocturnes. They were written specially to create a mood or atmosphere, rather than to describe a specific place or event. Chopin used to play them for his friends in the evenings as a form of relaxation.

Chopin playing Nocturnes

Autumn

This tune by Antonio Vivaldi (1678-1741) is from *The Four Seasons*, a set of four violin concertos. Vivaldi learned the violin as a child.

His father was a violinist in the orchestra at St. Mark's Cathedral in Venice. Sometimes Vivaldi played there instead of his father.

Vivaldi

Allegro

Sheet music for the first system of "Autumn" by Vivaldi. The music is in G major (one sharp) and common time (C). The tempo is marked **Allegro**. The first system consists of three measures. The first measure is marked *f* (forte). The second measure is marked *p* (piano). The third measure is marked *f*. The music features a repeating eighth-note pattern in the right hand and a steady eighth-note bass line in the left hand. Fingerings are indicated above the notes in the right hand: 4, 2, 3, 1, 2, 1. Measure numbers 4, 7, 10, and 13 are indicated at the start of their respective systems.

Vivaldi was born in Venice and lived there for most of his life. On the right you can see a picture of Venice during a carnival.

Carnivals and festivals were very common in Venice at this time. They were held in the city for almost six months of each year.

16

19

22

26

29

Nocturne

Felix Mendelssohn (1809-1847) first wrote this Nocturne as part of a descriptive overture called *A Midsummer Night's Dream*.

This piece was inspired by William Shakespeare's play (see below). Later he used the same tunes to write a longer piece to go with the play.

Mendelssohn

Andante

 The musical score is written for piano in 3/4 time. It consists of three systems of staves. The first system starts with a treble clef and a bass clef, with a piano (p) dynamic marking. The melody is in the treble clef, and the bass clef provides harmonic support. The second system continues the melody and harmony. The third system also continues the piece. There are various musical notations including notes, rests, and fingerings.

The story of *A Midsummer Night's Dream*

In Athens, Theseus is about to be married. Four lovers are in a wood nearby: Hermia and Lysander (who are in love), Demetrius (who loves Hermia) and Helena (who loves Demetrius). There are also six craftsmen rehearsing a play. Oberon, a fairy king, uses a magic love potion on his queen, Titania, and on Demetrius (to make him love Helena). In the confusion that follows, Titania falls in love with one of the craftsmen, who has been given a donkey's head by one of the fairies. The play ends with a triple wedding, the craftsmen's play and a fairy dance.

Oberon and his magical servant, Puck

When Mendelssohn first came across Shakespeare's play, he immediately decided to write a piece of music about it.

He was so excited about the music that he wrote to his sister, Fanny to tell her about it. Fanny (shown left) was also a talented composer.

Puck casts a spell on Bottom, giving him a donkey's head

A scene from the craftsmen's play

The triple wedding scene at the end of the play

Hebrides overture (Fingal's cave)

Mendelssohn was very popular in Britain, and he visited England ten times. You can find out more about this piece on page 110.

Mendelssohn loved the excitement of London. He spent much time going to concerts, operas and balls, and walking in Hyde Park.

Nocturne op.15, no.2

Fryderyk Chopin (1810-1849) was a Polish composer. He was also a brilliant pianist and teacher, and was famous for his delicate playing.

In fact, he did not give many public performances. But he often played for small groups of friends and admirers, even as a young boy.

Chopin

Andante

1/4

The piano shown on the right was given to Chopin during a visit to London in 1848. Unlike most other composers, Chopin did not write music for many different instruments. Almost everything he wrote was for the piano. The only music that he wrote for orchestra was to accompany large piano works. He composed a lot of his music while he was playing (called improvising), then wrote it down later.

Romeo and Juliet

This piece was written in 1869. It is called a fantasy overture because the audience has to imagine the story as they hear the music.

Each theme (or tune) represents a particular character from the story. This helps the listeners to know what is happening.

Andante con moto

Tchaikovsky

The musical score is written for piano in G major (one sharp) and common time (C). It consists of four systems of staves. The first system (measures 1-3) begins with a treble clef, a key signature of one sharp (F#), and a common time signature (C). The first measure has a forte dynamic marking (f) and a 4-measure rest. The bass line starts with a 1-measure rest, followed by a 3-measure rest, then a 2-measure rest, and finally a 4-measure rest. The second system (measures 4-6) continues the melody and bass line. The third system (measures 7-9) shows the melody moving higher. The fourth system (measures 10-12) features a 5-measure rest in the melody. The fifth system (measures 13-15) continues the piece. The score includes various musical notations such as notes, rests, and fingerings (1, 2, 3, 4, 5).

Tchaikovsky went to America in 1891. He found the people very friendly, and felt he was welcome there.

He was particularly impressed with the Capitol building, which he visited in Washington, D.C.

Scheherazade

Nikolay Rimsky-Korsakov (1844-1908) wrote a lot of music based on fairy tales. This piece is based on a story called *The Arabian Nights*.

In the story, an evil sultan vows to marry and kill a different woman each day. Scheherazade saves herself by telling him stories.

Rimsky-Korsakov

Andante

First system of musical notation (measures 1-4). The key signature is one sharp (F#) and the time signature is 3/4. The tempo is marked 'Andante'. The dynamics are marked 'mp' (mezzo-piano). The notation includes a treble and bass staff with various musical notes, rests, and a fermata over the final measure.

Second system of musical notation (measures 5-8). The notation continues with a treble and bass staff, featuring a fermata over measure 8.

Third system of musical notation (measures 9-12). The notation continues with a treble and bass staff, featuring a fermata over measure 12.

Fourth system of musical notation (measures 13-16). The notation continues with a treble and bass staff, featuring a fermata over measure 16.

Fifth system of musical notation (measures 17-20). The notation continues with a treble and bass staff, featuring a fermata over measure 20.

Each night, Scheherazade ends her story on a note of suspense. The sultan wants to know what happens next, so he cannot kill her.

After one thousand and one nights he decides she should be allowed to live. This tune is thought to represent a princess in one of the stories.

Playing the pieces in this section of the book

On these pages you will find some hints on playing the pieces in this book. When you are learning a piece, it is often better to practise each hand separately, slowly at first, until you can play them both comfortably. Then try them at the correct speed, and lastly try playing with both hands together.

There are suggestions for fingerings in the music, but if these do not feel comfortable you could try to work out your own. If you want to begin with the simplest pieces in the book, try the Sleeping Beauty waltz on page 21 and the Eugene Onegin waltz on page 33.

Terzettino

Take care in bars 9, 22 and 28 with the semiquaver passages in thirds. Practise these bars on their own first. You may find bar 13 a little difficult. Try each hand separately until you are confident about the fingering, then play both hands together. In bars 26 and 27, play the left hand part very quietly so that you can still hear the chord above.

Fidelio

From the second beat in bar 5 to the first in bar 9, you need to play the left hand a little louder than the right.

The Barber of Seville overture

Play this piece lightly. The left-hand chords should be quieter than the right-hand notes.

Drinking song

You might want to practise the first few bars several times before trying the whole piece, to get the rhythm right. Make sure the left hand is very even and don't play the second and third beats louder than the first.

Anvil chorus

Make sure your hands keep absolutely together where they are playing the same rhythm (from bar 11 to 15).

Soldiers' chorus

Take care with the coda in bars 18 and 19. Make sure you play the thirds in the right hand at the correct speed.

March of the kings

The notes must be kept as short as possible especially in the left hand. Where two notes

are slurred and the second has a dot over it, the second note should be very short.

Du und du

Keep the left hand very even and make sure the three-note chords are not too heavy.

Morning

Play this very smoothly and gently. There are lots of accidentals in the middle section of the piece (bars 8 to 16). Practise this section on its own first to make sure you are confident of the notes.

Flower duet

When both hands play quavers together, make sure the notes are even. Take care not to speed up during the longer quaver passages (such as bars 5 to 7). Practise bars 26 to 30 on their own until you can play them smoothly.

Pizzicati

This piece should be played very lightly, with each note as short as possible. Try it slowly at first and then speed it up.

Sleeping Beauty waltz

Emphasize the first beat of each bar in the left hand, but keep it smooth.

Musette

Practise the right hand part of bars 13 to 18 on its own at first. Once you are familiar with the accidentals and the rhythm, then add the left hand. Try to make a difference between the slurred and the staccato notes.

German dance

Make sure you count carefully when both hands are resting, and keep the tempo even.

Minuet in A

Practise both hands separately until there are no mistakes. Then put the parts together very slowly and gradually speed up. You do not need to play too quickly, but you must keep a steady pace, especially the left hand.

The Blue Danube waltz no.1

From bar 26 to the end, in the left hand, try to make the second and third beats of the bar slightly quieter than the first.

Hungarian dance no.5

Practise the right hand of bars 13 to 15 on its own. When you can play it at the correct speed, add the left hand.

Dance of the hours

The second note in each pair of quavers should be as short as possible.

Slavonic dance

Practise the rhythm in the first two bars, as this appears throughout the piece.

Eugene Onegin waltz

Make sure you hold the dotted minim right to the end of each bar.

Norwegian dance

Play this piece very lightly. Practise it slowly until you can play all the notes accurately.

Polovtsian dance

The rhythm is fairly difficult so try playing it very slowly at first. The left hand helps to keep the rhythm, so add this as soon as you can.

Wachet auf!

You may need to play this slowly until you get used to the fingering.

Jesu, joy of man's desiring

It is easier to count this as three beats in a bar. Keep a steady pace without playing it too slowly, to make it flow.

The Heavens are telling the glory of God

The left hand is fairly tricky, especially in bars 6 to 8. Practise these bars until you can play them without any mistakes before you put the two parts together.

The Lord's my shepherd

Take care not to rush this piece. Play it fairly slowly, keeping the notes even.

Jerusalem

Maestoso means "majestically". Play it very boldly and at a steady pace.

Go down Moses

Practise the rhythm in bar 3, it appears several times in the piece. Bars 12 and 13 may need some extra practice.

Swing low, sweet chariot

The rhythm in the right hand is fairly difficult. Make sure you can play it confidently before you add the left hand.

Autumn

The right hand has thirds almost all the way through the piece. You need to practise these until you can play them evenly. The left hand has the same rhythm, so make sure you play the two parts absolutely together.

Nocturne

This should be very gentle. Make sure the accompaniment is always very soft to allow the tune to come through.

Hebrides overture (Fingal's cave)

From bar 9 to the end the left hand part is fairly difficult. Learn the left hand on its own before putting the two parts together.

Nocturne op.15, no.2

Bar 7 has a very tricky rhythm in the right hand. You need to practise this bar slowly and accurately before playing the whole piece.

Romeo and Juliet

Make sure you keep the left hand very even. Play the left hand a little quieter than the right hand to stop it from sounding too heavy.

Promenade

The time signature changes every bar. Try to keep a steady crotchet beat, placing a little more emphasis on the first beat of each bar.

Vltava

Try to play this very smoothly, without leaving any gaps between the notes.

Scheherazade

Hold the chords in the left hand for the full length of the notes. Keep the right hand flowing smoothly.

The girl with the flaxen hair

Take care with the rhythm in bars 14 to 15 and 33 to 34. The fingering is fairly hard, so you will need to practise it until it feels comfortable.
