

Μεταβλητή απάντηση

The image shows a Scratch project with a script on the left and a stage on the right. The script is triggered by a 'when green flag clicked' event and contains the following blocks:

- when green flag clicked
- show direction 90 degrees
- go to x: -180 y: -100
- ask 'δωσε αριθμό για χρώμα' and wait
- set pen color to 'απάντηση'
- set pen size to 3
- draw line
- move 120 steps
- turn right 90 degrees
- move 100 steps
- turn left 90 degrees
- move 220 steps
- turn right 90 degrees
- move 110 steps
- turn right 90 degrees
- move 340 steps
- turn right 90 degrees
- move 210 steps
- turn right 90 degrees
- play sound 'SpaceRipple'

The stage shows a green background with a black maze. A yellow line, representing the pen's path, starts at the bottom left of the maze and follows the inner boundary. A small orange car icon is positioned at the start of the yellow line. The 'Ants' (Αντικείμενα) panel shows the 'Dias' (Δίας) object with coordinates x: -180, y: -100, size 19, and direction 90. The 'Sprites' (Σκηνή) panel shows a small black maze icon with the label 'Υπόβαθρα 1'.
