**You are going to read a text about modern medicine .Some words are missing. Use the words in brackets to form a new word that fits into each blank.**

Thanks to modem medicine there are many new  (**TREAT**) for diseases which, in the past, were  (**CURE**) . Many childhood  (**ILL**), for example, have disappeared. This is due to the use of vaccinations.

(**MEDICINE**) advances have also changed the way surgical operations are performed. These are less  (**PAIN**) for the patient than they used to be. But,  (**FORTUNATE**), in Third World countries , a high number of  (**INFECTION**) diseases are still common because of overpopulation and poor  (**LIFE**) conditions. Malnutrition, which is caused by  (**SUFFICIENT**) food, is one of the many problems which can  (**THREAT**) children's lives in these countries.

With today's technology , there is no reason that a  (**SOLVE**) to these problems should be beyond our  (**CAPABLE**).
