- 1.1 These children all come from different places. Where do you think they come from?
 - e.g. I think the boy in picture 3 comes from Asia because he has got slanted eyes.
- **1.2** What do you have in common with these children? Do you have any differences?
 - e.g. Both the girl in picture 8 and I have got an oval face.

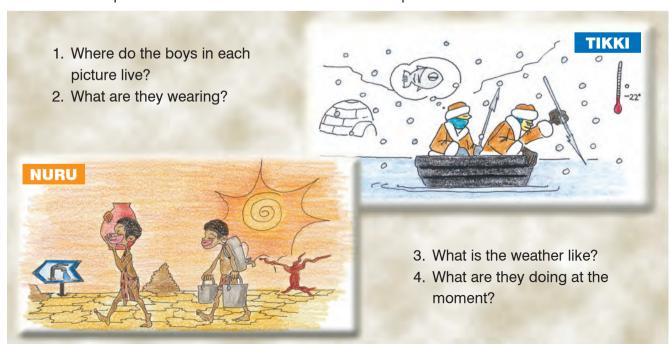

The boy in picture 6 has got fair hair, whereas I have got dark hair.

The Way we Look

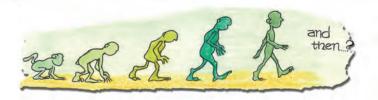

Have you ever thought about why we look the way we do? What makes some people's hair curly and others' straight? Why is some people's skin dark and others' light? These are some of the questions we asked Ms. Susan Franz, an anthropologist, who talked to us about people and their characteristics.

- Ms. Franz, why do people around the world look so different?
- Well, think about the countries we live in. They differ greatly in terrain, temperature, altitude and vegetation. Yet, people have managed to make homes almost everywhere: barren, rocky mountain tops, icy, freezing plains, wet marshes, scorching deserts. The people living in these different places have slowly become very different from each other. Their skin colour, the shape and size of their bodies and their characteristics have evolved over the years to suit their surroundings.
- Can you give us some examples?
- Of course. A good example is skin colour. Scientists think that dark skins which are rich in a substance called melanin offer good protection against the burning rays of the sun. Very dark, curly hair also offers good insulation from the sun and heat. In northern countries,

where the rays of the sun are weaker, people don't need dark skin. Their pale complexion allows the skin to absorb the sun's rays easily in order to make vitamin D.

- Facial characteristics are also very different. Why?
- Well, the key word here again is 'adaptation'. In extremely cold weather, ears and noses are often the first parts of the body to suffer from frostbite. That's why people who live in very cold temperatures have facial characteristics that help them survive the harsh weather. Their faces are flat, and their noses are also small and flat. They also have an extra layer of fat in their eyelids which gives them slanted eyes.
- That's very interesting! What about body size and height?
- Well, again scientists have found that people who live in hot, dry climates are often tall and thin. This lean type of body helps heat escape more quickly. People from cold regions, on the other hand, tend to have more sturdy bodies, covered by a layer of protective fat.
- So, if we move to a northern country, will our skin become pale?
- Of course not! People's bodies have slowly changed over thousands of years. Who knows what we will look like ten thousand years from now!...

LESSON 1 . PEOPLE AND PLACES

- 2.3 Answer the questions.
 - 1. What is the main idea of the text?
 - 2. Why have people's bodies and characteristics changed throughout the years?

Language focus

3.1 Look at the verbs in bold. Which tenses are used? What is the difference between them?

- 3.2 Read the examples and match them with the appropriate use in the boxes below.
 - 1. More and more people are moving to other places.
 - 2. Nuru walks many miles every day to collect water.
 - 3. It's snowing. Tikki is putting on his heavy parka.
 - 4. Some scientists are flying to Africa next week.
 - 5. Their plane leaves at 3:30.
 - 6. Dark skin offers good protection against the sun.

- a. something that is happening now
- b. a future arrangement
- c. a changing situation

- d. present habits
- e. something that is always true
- f. timetables

- **3.3** Read the sentences and complete the rule by circling the appropriate word.
 - Tikki usually goes fishing with his father.
 - People in hot climates are often tall and thin.

<u>Usually</u> and <u>often</u> are adverbs of frequency.

They are placed **before** / **after** the main verb and **before** / **after** the auxiliary verbs.

Talking about us

4.1 Describe someone from your class. Can your classmates guess who it is? e.g. She wears glasses. She's holding a pencil case. She likes sports.

4.2 Work in pairs. Ask each other questions to find out about your habits. You can use the ideas below. e.g. How often do you ...?

- ☆ travel abroad
- ☆ go to festivals
- ☆ go to the cinema / theatre
- ☆ visit museums
- ☆ eat out / foreign food
- ☆ do sports

I go to festivals at weekends!

NOTE Time expressions such as every day / week / year, on Mondays, in the morning, at weekends, once a month, twice a year, now and then, from time to time, every other day are usually found at the end of the sentence.

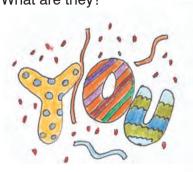

A child's life in...

5.1 Imani lives in Sungo, a village near Lake Malawi in Africa. She is taking part in a documentary about the lives of children around the world. Listen to her talk about her daily routine and complete the chart below.

(1)	get up, prepare breakfast, (2)
7:00	(3), sweep school
(4)	classes begin
10:30	(5)
(6)	school finishes
2:15	(7), do homework
4:30	(8)
(9)	(10)because we have to get up early!

5.2 Complete the clock diagram with your daily routine. Use your notes to compare your daily routine with Imani's. What do you have in common? Are there any aspects of her life you like / don't like? What are they?

Writing a description

6.1 Read what Eva wrote about her new friend, Olga, in a letter to her English penfriend and take down notes about Olga. Compare your notes with your partner's.

	specific p	1. s ohysi	ize a cal d	nd b letai	ody . Is (e _y	 /es, k	 nair,	 face	, etc	 .)
4. 5. 6. 7.	family her past interests a special characte general c	incic	lent tails							

6.2 You have decided to enter a creative writing competition. The title of the competition entry is the following: "Describe an interesting person you know or a person who makes you happy".

Consider the following:

- What are some important details about this person's appearance and character?
 Make a list.
- What order should you put your information in?
- How will you make your beginning or ending interesting?
- Should you include how you first met this person or mention how this person acted in a specific situation?

... I want to tell you about a new friend of mine. Her name is Olga, she is my age and we're in the same class. As you can see from the photo, she's got long fair hair, brown eyes and a friendly face with a beautiful smile. She's not very tall but she's slim and fit.

I met her on the first day of school. I went and talked to her when I realised she was new. Before she moved to my town, Olga lived in Kiev — that's in the Ukraine. Her parents are very likeable and friendly. Her dad has got a business here and her mum works in a supermarket. Her brother is called Alex and he's just like my own brother: funny!

Olga and I sit together in class. She's very good at maths — not like me! I help her with her Greek when she doesn't understand something. I think we make a very good team. We do many things together. We listen to the same kind of music. Her favourite band is U2. She's got some great CDs.

When she first came to school, some boys in the class made fun of her, which was not so nice. But she talks to everyone — even to those horrible boys. She's a very friendly person and we really understand each other. When I'm sad, she knows I need somebody to talk to and she's always there for me! Sometimes she is a bit shy but so am I.

Olga may not be from Greece but I don't care because we have a lot of things in common and it's never boring when we're together. I like her very much. She's great! I'm really glad that I met her.

USEFUL TIPS

- Make notes before you write. Think about what information will be interesting for the reader.
- 2. Put different information in different paragraphs. Decide on an order for them.
- 3. Think of an interesting beginning and ending.
- 4. Use details and adjectives. They make a description more vivid.
- Reread your text after you have finished and think about what else might be interesting for the reader.
- Check your text for spelling and grammar mistakes.

Lesson 2 Joined in

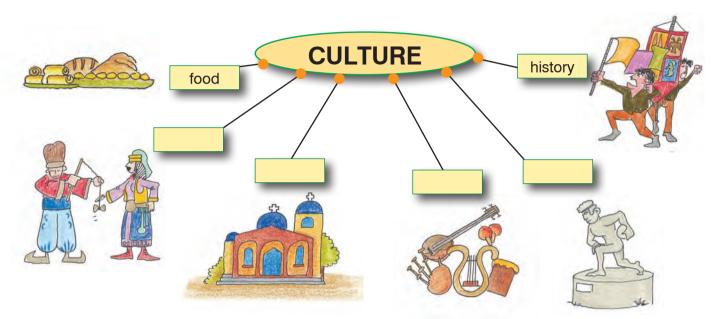

our Differences

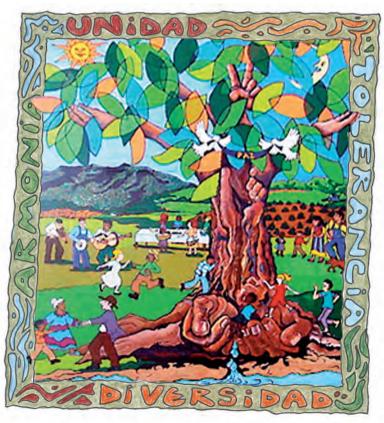

Different but alike

1.1 What is "culture"? Every country has its own, but the elements that make up "culture" are common for all people. Work in groups to complete the spider diagram below. Add your own ideas.

- 1.2 In the summer of 2006, some students from West Jefferson, USA, painted a mural entitled "Unity in Diversity". There are four Spanish words bordering the mural.

 Can you guess their meaning?
- **1.3** How is the meaning of these four words represented in the mural?

1.4 Mini-project: Cultures on my street

You have decided to take part in a European Commission competition. The title of the competition entry is: "Cultures on my Street". Find someone in your neighbourhood who comes from another country, interview them and write their story. Take a photo if you can. Present your stories in class.

Welcome to my world

Look at the areas you need to focus on before listening. This will help you carry out the task more easily.

At the beginning of each school year, an international school in Europe organises a "Welcome Evening" where foreign students introduce themselves and the countries they come from. You will hear one of

these students, Maria Dolores, talk about her country. Listen and complete the table below.

Name of country	Greeting	Food/Drinks	Entertainment
(1)	(2) 'Buenos dias'	(4)	(5) cafes / / football (7) music / / art calleries
			(8) / art galleries

A glimpse into my country

3.1 Read what two other students say about their countries. What aspects of their culture are they talking about?

Hello everyone! I'm Yoko. I'm from Tokyo, the capital city of Japan. The customs of my country are somewhat different from those of the countries of the West. For example, we bow to greet someone and we

don't like standing too close to each other. If you say 'Ohay gozaimasu' to someone, you mean 'Good morning', and we young people often say 'Genki?' which means 'Are you well?'. Body language is very important, too. If you shake your hand from side to side, you mean 'no' and pointing to your nose means 'me'. You all know traditional Japanese dishes such as sushi, tempura and noodles and you probably know that we use chopsticks to eat our meals. We eat sitting on mats on the floor, therefore, our floors have to be very clean. To keep them clean, we always take off our shoes and change into special slippers when we enter the house. Sports that are very popular in Japan include judo, kendo, karate and sumo wrestling, our national sport, which has a history of more than 1,000 years! Young people also enjoy baseball, football, volleyball and tennis. Finally, two forms of traditional Japanese theatre, Noh and Kabuki, continue to thrive in my country today...

'Salut', I'm Pierre and I'm from Paris, the capital city of France! In my country we say 'Bonjour' for 'Good morning' and 'Comment allez-vous? for 'How are you?'. Like Spanish people, when we greet each other, we shake hands and usually

kiss 3 times! We're one of the largest producers of wine in the world and famous for our 'haute cuisine'. One taste of a crêpe or a croissant, and you'll never forget it! The French love doing sport and keeping fit. Some of the most popular sports in my country are football, cycling, skiing, tennis and pétanque - a traditional game played with metal balls. Culture and the arts are extremely important in our everyday life. We celebrate local festivals through music and dance throughout the year. We also appreciate a visit to the theatre, the opera or the many famous museums, such as the Louvre, home to the world-famous painting 'Mona Lisa', or the Orsay museum to admire the paintings of Renoir, Monet and Degas, some of the greatest Impressionist artists....

Adapted from: www.oxfam.org.uk

- **3.2** Which of the two students mentions the following? Write (Y) for Yoko, (P) for Pierre or (B) for both.
 - 1. "People in my country don't really like physical contact"
 - 2. "People in my country are keen on sports"
 - 3. "People in my country like going to the theatre"
 - 4. "People in my country like music"
 - 5. "People in my country don't use knives and forks"
- 3.3 Look at the poster. Do you know how other people say 'hello' in their language? Discuss in class.

3.4 Game

Do you know how other people say 'thank you' in their language? Work in groups and make a list. The group with the longest list will be the winner.

Language focus

4.1 Look at the verbs in bold.

You all **know** the Louvre...
The French **love** good food and wine...
'Bonjour' **means** 'good morning'.

These verbs are called stative verbs. They refer to a 'state' and are not normally used in **continuous** tenses. Do you know any other stative verbs?

You The 'Bo

- 4.2 Some stative verbs can be used in continuous tenses but there is a difference in meaning. Look at the following pairs of sentences and explain what they mean in your own language.
 - 1. a. We **have** a lot of interesting customs in my country.
 - b. We are having sushi and noodles for lunch.
- 2. a. We **think** that the Japanese are very polite.
 - b. She's thinking of learning karate.
- 3. a. Spanish food **tastes** delicious.
- b. He's tasting the paella.
- 4. a. The Spanish dancers look very fit.
 - b. We are looking at the traditional costumes.

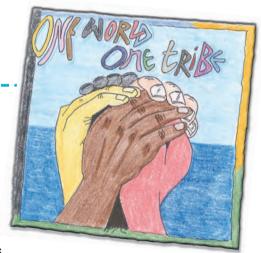

Work in pairs.	. Use stative verbs	to make true sente	nces about your cour	ntry.

or Edio 6

Mini-project: A song for us

- **6.1** "ONE WORLD, ONE TRIBE" is a CD that brings together many different kinds of music such as funk, reggae, R&B, rap, rock, and more. Look at the CD cover and discuss what the picture shows and what message it conveys. How is this message connected to the title of the CD?
- **6.2** Get into groups to compose your own song that represents the idea of "Unity in Diversity". Use a variety of instruments and write the lyrics. Ask your Music teacher for help.

6.3 Once you have created your own song, draw a picture for your CD cover. Ask your Art teacher for help.

Lesson 3 Different Different buildings

1.1 Look at the different buildings below. What materials are they made of? What factors have affected the choice of materials?

The Bird's Nest, Beijing

The Casa Milà, Barcelona

- **1.2** The Erectheion, the Taj Mahal and the Colosseum are all important landmarks and famous tourist attractions. Do you know why these buildings were originally built?
- 1.3 Mini-project: A famous landmark

Choose a landmark and write its story. Then make a poster and present it to the rest of the class.

Useful tip
Look for key words and phrases,
such as names, dates, places, etc. Do
not focus on details or unknown words.

2.1 The 3 texts below come from an article about remarkable buildings. Read them and complete the table.

	Agia Sophia	The Tower of Pisa	The Sydney Opera House
a) Where is it?			
b)How old is it?			
c) Who designed it?			
d) What is its most striking feature?			

he "Church of Holy Wisdom", also called Agia Sophia, is in Constantinople – now Istanbul. It was built by the emperor Justinian after the riots of AD 532. Anthemios and Isidoros were two of the Greek architects who designed it. It took six years to build and about ten thousand men worked on it. The first stone of the foundations was laid by the emperor himself. The building had brick walls, marble linings inside, amazing mosaics made up of tiny cubes of coloured glass, marble or gold and massive marble pillars. Of all its fascinating features though, perhaps the most remarkable is its huge, shallow dome, supported on piers made of limestone. There are also smaller half-domes around the largest, supported by arches - a typical feature of Byzantine design for big buildings. Agia Sophia is well over 45 m high and over 60m long and wide. Today we are accustomed to seeing buildings as large as this, sometimes even larger. But in Justinian's time, Agia Sophia must have been truly awe-inspiring.

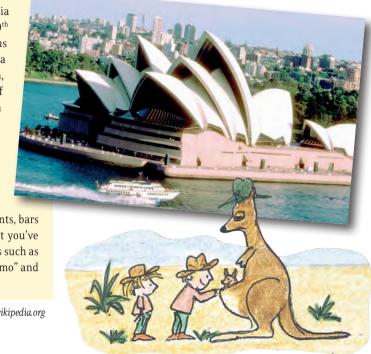

The famous Leaning Tower of Pisa is the bell tower of the cathedral in the city of Pisa, in Italy. Its height is 55.8m, it has 8 storeys and there are 294 steps to the top. Construction began in 1173 and it took 200 years to complete. The architect's identity is still unknown, but we do know that he designed the tower to be vertical. After the third floor was built, the tower started to lean, mainly because its foundation was shallow – only 3 metres – and in weak soil. The Pisans stopped construction twice – for almost 100 years each time – because they were busy fighting battles with other Italian cities! In 1372, the tower was completed and seven bells were installed, one for each note of the musical scale. Over the years, there have been many attempts to straighten it, or halt the leaning. This was not as easy as it seemed. Some of those attempts had exactly the opposite result: the tower sank even further into the soil! The latest attempt was completed in 2001 and took ten years. The tower has been declared stable for at least another 300 years.

LESSON 3 · DIFFERENT PLACES - DIFFERENT BUILDINGS

The Sydney Opera House is located in Sydney, Australia and is one of the most distinctive and famous 20th century buildings. It is also one of the world's most famous performing arts venues and since its opening, it has become a symbol of Sydney. Designed by Danish architect Jørn Utzon, it reaches out into Sydney Harbour and its spectacular roof reminds us of a moving ship at full sail! Construction began in March 1959 and it was completed in 1973 at a cost of \$102 million! It is very large (183m x 120m) and it is supported on 580 concrete piers sunk up to 25m below sea level. The roofs of the House are constructed of 1,056,000 white granite tiles and the interior is composed of pink granite and wood. It has about 1,000 rooms, 5 theatres, 5

rehearsal studios, 2 main halls and a multitude of restaurants, bars and souvenir shops. What you may not be aware of is that you've probably seen this breathtaking structure featured in films such as "Mission Impossible II", "Independence Day", "Finding Nemo" and many more!

Mini-project: Story competition

You have decided to enter a creative writing competition. The title of the competition entry is the following: "Every Building has its own Story". Look at the building in the picture and write its story. The following questions will help you.

- Where is it?
- How old is it?
- Who made it?
- For what purpose?
- What does it look like?
- What is the story behind it?

Project time: Our multicultural fair!!

Your school is organising a Multicultural Fair and your class has decided to make a presentation on different countries, focusing on **Houses**, **Food** and **Clothes**.

Work in groups. Choose the country you want to present and research the following areas:

HOUSES

Find information about different types of houses around the world, e.g. a Dyak longhouse in Borneo, a house with murals in Germany or India, a houseboat on the canals of Amsterdam in Holland or along the river Rio Negro in Brazil, a tent of the wandering people called Bedouin or the people of Mongolia, etc.

FOOD

Find out what other people eat or drink in their country, e.g. 'tortillas' in Central and South America, 'chapattis' in India, reindeer milk in Lapland, camel milk in Saudi Arabia, raw fish and seaweed in Japan, etc.

CLOTHES

Find information about unusual clothes, e.g. parkas in Alaska, dishdashas in Dubai, kilts in Scotland or kimonos in Japan, etc.

How to prepare your project

- Choose your roles. Decide who is going to do what depending on your interests and abilities.
- 2. Organise your time. How much time do you need for your research and how long will it take you to prepare your presentation?
- 3. Have you got enough information for your project? If not, where could you find more? Discuss with your group.
- 4. Once you have found the information, you need to focus on the most important things and take down notes. Organise your notes and write your report. Remember to collect photos or drawings that illustrate what you are going to present.

We could surf the Net for information.

Let's search in a magazine or an encyclopaedia.

How about going to the library?

- listen to scientists talk about ancient cities
- talk about life in the past
- write a story
- enter an art competition
- do a project on world mysteries

On a winter night in 373 BC, a catastrophic earthquake and tidal wave destroyed Helike, the principal Greek city located in Achaea, Northern Peloponnesos, two kilometres from the Corinthian Gulf. The entire city and all its inhabitants were lost beneath the sea.

Helike had been founded in the Bronze Age and its pan-Hellenic sanctuary of Poseidon was known throughout the classical world. It had led the twelve cities of the first Achaean League, and had founded colonies in Asia Minor and in South Italy. The dramatic destruction of Helike was one of the most appalling tragedies of the classical world and may have inspired the creation of a very famous myth.

• Which myth do you think this is?

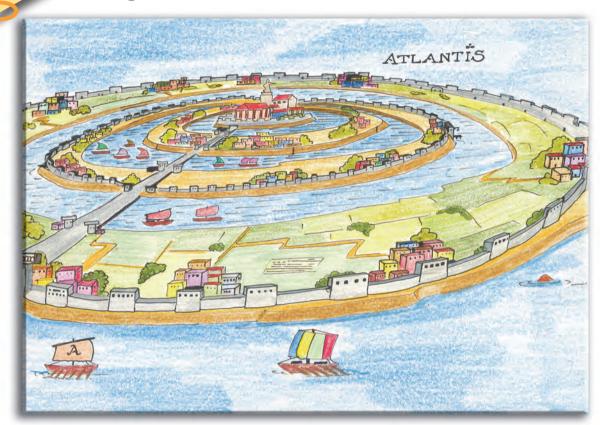

At the end of this Unit, you should be able to: • talk about past habits and events

- talk about actions in progress in the past describe natural disasters
- react to good or bad news
- relay a message from Greek into English

The legend of Atlantis

- 1.1 What do you know about the lost city of Atlantis? Where was it? What happened to it? Discuss.
- 1.2 You are studying the mystery of Atlantis in your History class and your teacher has asked you to make a short presentation to a group of British students who are visiting your school. You have already done some research, but some information is missing from your notes below. Listen to part of a BBC radio programme about Atlantis and fill in the gaps in your notes.

- Plato learned the story from Solon.
- Solon learned the story when he travelled to (1)
- The island was named after Atlas.
- On top of a hill, there was a temple.
- Inside the temple was a (2) statue of the God of the Sea driving six
- ? A violent (4) shook the land, giant (5) rolled over the shores and the island sank into the sea.

2.1 Work in pairs. Complete the first two columns of the KWL chart with what you already know about Atlantis and what else you would like to know about it.

K (know)	W (would like to know)	L (learnt)

2.2 Mr. Alexandros Demetriou, a famous Greek archaeologist, was interviewed about Atlantis for an English language newspaper, "The Athens Tribune". Read the interview and find three more interesting facts about Atlantis. Complete the last column of the KWL chart above.

Reporter

- Mr. Demetriou, just a few questions from our readers about Atlantis... Do we know where it used to be?

Mr. Demetriou:

– Well, there are many and varied theories. Plato stated that Atlantis lay in the Atlantic Ocean near the Rock of Gibraltar. Other researchers believe that the island's location was somewhere in the Mediterranean Sea. Finally, there are some people who think that Thera could be the island of Atlantis.

Reporter:

- That sounds interesting. I guess it's because of the discovery of the city of Akrotiri, which was excavated by the well-known archaeologist Spyridon Marinatos, right?

viii. Demeeriou

– Possibly. In about 1500 BC, Thera was destroyed by the world's largest volcanic eruption. Akrotiri was buried beneath 15 feet of ash, which preserved its streets, buildings and impressive wall paintings. It's an exciting theory, but not a widely accepted one, I must say.

Reporter:

- What is so interesting about Atlantis?

Mr. Demetriou:

– Well, Plato's description was of a land of wealth, beauty and advanced civilisation.

This made many explorers seek out its location. They read Plato's dialogues like a treasure map, which would help them locate the lost city.

Reporter:

- It sounds like a magical place.

Mr. Demetriou:

– It may have been ... There are of course archaeologists and researchers who have challenged these theories, saying the Atlantis story is just a myth. Yet, people still long to discover Atlantis, even with no archaeological proof of its existence...

... When Time Stood Still...

I

Almost 2,000 years ago, and only a few days' journey from Rome by coach, the lively city of Pompeii lay at the foot of a volcano named Mount Vesuvius.

II

Pompeii was a dynamic, commercial centre full of life. There were dozens of shops where shopkeepers sold jewellery and perfumes, potters worked with clay, and metalworkers and glassblowers amazed passers-by with their skill. There were theatres, bars, taverns and public baths where people used to go to relax and socialise. There was also an amphitheatre where people used to watch gladiators fight.

Ш

Vesuvius had not erupted in more than a thousand years. There had been an earthquake some years earlier, but no one could imagine what would follow... Then, in August AD 79, the earth started to shake again, and a few hours later, the volcano erupted with a tremendous bang. Tons of rocks, ash and hot lava buried Pompeii. Buildings

collapsed, fires broke out everywhere. It was a terrifying scene. People everywhere were screaming, children were crying, and others were praying for the destruction to stop. For the city of Pompeii, time stopped here.

IV

In 1748, when archaeologists began excavations, they discovered that the lava had not only destroyed Pompeii, but it had also preserved it. Everything was found exactly the way it had been almost two thousand years ago. Archaeologists found shops, temples, a theatre, wall paintings. The hot ashes had hardened around people's bodies preserving the positions they were in at the time of the eruption. The bodies had turned into dust, but by pouring plaster into holes in the hardened ash, archaeologists were able to make out their shapes. In some cases, they could even see the expression on a person's face. Inside the houses they found a half-eaten loaf of bread, eggs, a kettle on the fire. They even found a sign at the entrance of a house saying 'Cave Canem', which means: 'Beware of the Dog'!

Ένα ταξίδι στο χρόνο, με προορισμό το 5500 π.Χ., τότε που οι άνθρωποι ζούσαν οργανωμένα σε πασσαλόκτιστα σπίτια μέσα ή δίπλα στη λίμνη της Καστοριάς, κάνουν όσοι επισκέπτονται τον λιμναίο οικισμό του Δισπηλιού. Πρόκειται για μια περιοχή μοναδική στην Ελλάδα καθώς ο οικισμός του Δισπηλιού είναι ο μοναδικός λιμναίος στη χώρα μας και ένας από τους πιο γνωστούς στα Βαλκάνια και την Ευρώπη.

Ο άνθρωπος είχε από την προϊστορία ακόμα μια ιδιαίτερη σχέση με το νερό. Το νερό εξασφάλιζε εκτός από την τόσο απαραίτητη ύδρευση ένα σωρό άλλα πλεονεκτήματα σε μια ανθρώπινη εγκατάσταση. Εκεί ποτίζονταν τα ζώα που εξέτρεφε, και έβρισκαν

ένα σωρό άλλα πλεονεκτήματα σε μια ανθρωπιντί εγκαιαυτασή. Εκει ποτιστάτα τα μαστίστο το τροφή στην πλούσια βλάστηση που φυόταν δίπλα του. Πρόσφερε, επίσης, τη δυνατότητα να ποτιστούν τα χωράφια που εξασφάλιζαν στον άνθρωπο την καθημερινή διαβίωσή του. Έτσι οι περισσότεροι προϊστορικοί οικισμοί ήταν εγκατεστημένοι κοντά σε πηγές.

Φαίνεται ότι υπήρχε τότε πολιτισμός. Από τα ευρήματα που βρέθηκαν στο Δισπηλιό, ξεχωρίζουν ειδώλια που αναπαριστούν άνδρες, γυναίκες και ζώα, κοκάλινες φλογέρες, πήλινα αγγεία, φιάλες και μαγειρικά σκεύη, κοσμήματα, χάντρες και κοχύλια. Τέλος, θα πρέπει κανείς να αναφερθεί στο πιο αναπά-

ντεχο από τα ευρήματα. Μια ξύλινη πινακίδα που αλιεύτηκε, στην κυριολεξία, από τη λίμνη και χρονολογήθηκε στο 5260 π.Χ. φέρει επάνω της «σήματα» που θα μπορούσαν να αποδοθούν σ' έναν κώδικα μίας πρωτογενούς γραπτής επικοινωνίας.

A glance back in time

2.1 Look at the pictures below and guess what they show and which civilisation they come from.

2.2 The following article is about ancient Egypt. You want to read it but paragraphs 2-5 are not presented in the right order because of a printing error. Can you put them in the right order?

	LAND OF THE PHARAOHS
1	We have all heard of the sophisticated civilisation of the Egyptians. Not only was it one of the first, it also lasted the longest: nearly 3,500 years!
A V and	The Egyptians were superb engineers, astronomers, accountants, mathematicians and surgeons, and they used mysterious symbols, called hieroglyphics, to write. They built temples dedicated to their Gods and a famous statue, the Sphinx. What they are best known for, though, are the pyramids they built.
WARDA AL WA	The main role of these tombs was to protect the pharaohs' bodies from decay, since the Egyptians firmly believed that after death, their spirits lived on and would need their bodies in the afterlife! They preserved the bodies by using salt and various substances to dry them out, after they had removed all
	the internal organs. Afterwards, they wrapped the bodies in linen bandages to become mummies. Many things the pharaohs had used while they were alive accompanied them into the tombs: jewellery, furniture, make-up, toys and especially food!
Sand of the	One reason for this was Egypt's location. It lies in a valley between two deserts, and the great river Nile, almost 1,000 km long, crosses it from top to bottom. Every year, for about 4 months, the Nile overflowed and flooded the surrounding fields. As the water slowly receded, it left behind a thick layer of mud. This
	made the fields very fertile and gave Egypt its ancient name, Kemet, which meant 'black land'.
si shida ku sakar 40 s Tagfadh ar 4 a yerara	How did they build them? No one really knows how they managed to lift the tremendously heavy stone blocks and lay them in place. What is even more remarkable is that they had no heavy equipment, such as cranes, to help them; they didn't even use the wheel until a few centuries later! Probably, thousands of men dragged and pulled the blocks up specially made ramps. These imposing stone structures were constructed as tombs for their kings and queens, the Pharaohs.
6	Our fascination with the Egyptians has no end. We will always owe this magnificent civilisation more than we will ever know. *Adapted from: "History of Man: The Last 2 Million Years", Reader's Digest*

2.3 Listen to check if you have found the right order.

- 2.4 Read the article again and tick whether the statements are True (T), False (F) or Not Mentioned (NM).
 - 1. The river Nile flows through Egypt and other countries as well.
 - 2. Egypt got its ancient name from the mud.
 - 3. The Egyptians were very good at most sciences.
 - 4. They used heavy equipment to move the stones for the pyramids.

LESSON 6 • LIFE ON THE WATER

4.2 Simple Past or Past Perfect

Look at the following sentence and answer the questions.

 They preserved their bodies after they had removed all the organs.

Which tense is used to describe the action that happened first?

Which tense is used to describe the action that happened second?

Circle the right answer to make the rule.

We use the Past Perfect to talk about:

- a. a past action with a present result.
- b. an action finished at a definite time.
- c. an action that happened before another past action or time.

How did they do it?

You are writing an article about activities in the ancient world for your school newspaper. Below are the notes you took during your research. Use your notes to write the paragraphs that refer to Egypt and Greece.

1. Egyptian farming

- Egyptian farmers [clear away] the stones and branches
 / the floods [go down] (after)
- they [clear] the soil / they [plough] it (before)
- they [plough] the soil / they [scatter] seeds (after)
- e.g. Egyptian farmers cleared away the stones and branches from their fields after the floods had gone down.

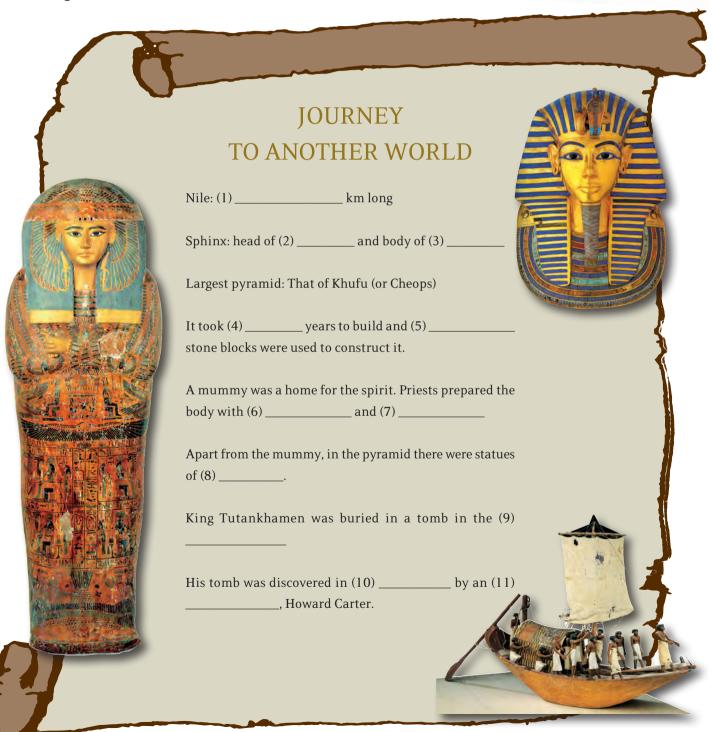

- Theran artists [begin] a wall painting / they already [think] carefully about what images to draw (before)
- They [rub] the plaster walls with pebbles to make them smooth / they [draw] ideas directly onto the wall (after)
- They [make] sure all details [be] accurate / they [use] colours to fill in the sketches (before)

Imagine you are taking a guided tour on a riverboat down the Nile during an educational trip to Egypt. The leaflet you were given was not clearly printed. Listen to the guide and write down the missing words on the leaflet.

7.1 Minoas was a young boy who lived in ancient Greece in the year 1470 BC. Read the story about a day that changed his life and answer the questions. Compare your answers with your partner's.

1. **Who** is the main character in the story?

- 2. What happened in the story?
- 3. When did the disaster happen?
- 4. Where did it happen?
- 5. How did it happen?
- 6. Why did it happen?
- 7. How did life for the villagers change after the disaster?
- 8. How did the main character feel?
- **7.2** Find the following in Minoas's story.
 - 1. What does he say in the first and last paragraphs?
 - 2. Why does he use his mother's actual words in paragraph 2?
 - 3. Underline all the time expressions in the story. What are they used for?
- 7.3 You have decided to enter a story competition. The title of the competition entry is the following: "Imagine you are living in ancient Greece, or another ancient civilisation. Write your own story about a life-changing experience you had". Make notes first and look at the 'Useful Tips' for help.
- 7.4 Write your story.
- 7.5 Read your partner's story and help him/her to improve it. Look at p.162 for tips on how to give peer feedback and write comments on your partner's writing.
- **7.6** Rewrite your story in order to improve it. Take into consideration your partner's comments.

I'll never forget that hot summer day many years ago when I was still a young boy living in the village of Malia in Crete. It was a little after noon and I was at home, practising a new song on my lyre.

Suddenly, I heard a loud rumble and the earth started to shake beneath my feet. Mother, who had been in the storage room with the servants, ran up to my room. "Get out of the room - quick", she shouted, as she grabbed me by the hand and pushed me towards the doorway.

I ran into the yard and looked around. Dust and as hes covered everything and the buildings were in ruins. I suddenly remembered that my brother had gone down to the harbour. I ran off to look for him, worried that something bad might have happened to him. When I reached the harbour, I was relieved to see him running towards me. Before I had time to even think, giant waves started crashing onto the shore. We ran together towards the mainland as fast as we could. Almost out of breath, we managed to climb up a tree and out of harm's way at the very last moment!

A few days later, my father told us that there had been a tremendous eruption on the island of Thera. It had destroyed the whole island along with many other villages like my own. It was shocking news.

In the days that followed, life was very tough. It took us a long time to rebuild the village, but eventually life got back to normal. We could only hope that nothing like this would ever happen again.

USEFUL TIPS

- Give specific information about when, where, how, who, what and why.
- 2. Think of an interesting beginning; it will make the reader want to read on.
- 3. Use time words (first, next, then, before, as soon as, after that, later, finally) to help the reader follow the order of events in your story.
- 4. Make good use of tenses. We mainly use past tenses in stories.
- Describe feelings.
- 6. Use interesting vocabulary ('wonderful' news instead of 'good' news, 'horrible' accident instead of 'bad' accident, etc.)
- Use dialogue, action and detailed description to make your story sound real and your characters come alive.
- 8. Pay attention to punctuation. Use exclamation marks (!), ellipses (...), etc.

• I'd prefer to travel by train. • | fancy travelling to Europe. Would like, would prefer and fancy are used to express

What form is each verb followed by?

specific preference.

What would you like?

Work in pairs. Look through the advertisement again and ask each other questions to find out which of the activities mentioned you would like to do. Give reasons for your answers.

- e.g. Would you prefer to visit the Taj Mahal or go to the Himalayas?
 - I'd rather go to the Himalayas because I love climbing.

Project time: Fun with friends!!!

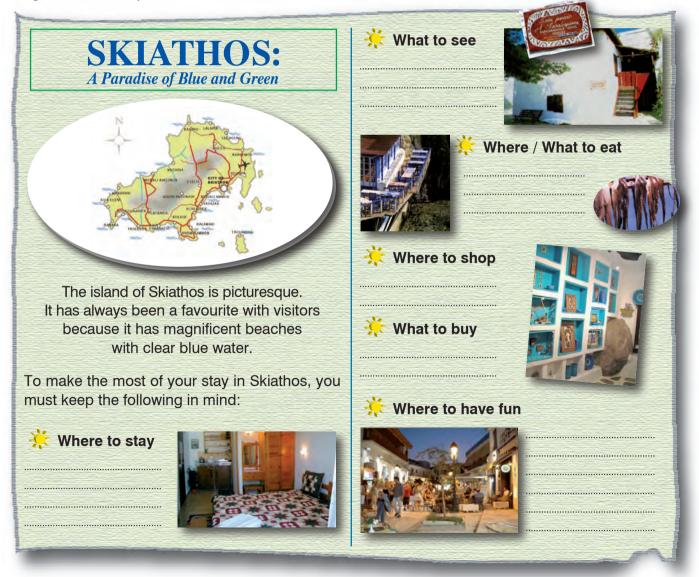

Your school is involved in an exchange programme with students from a school in Kent, England. They will be visiting your town for 3 weeks. The headmaster of your school has asked you to prepare a leaflet, telling these young people a few interesting things about your town and giving them specific information about the things they can do there.

Get into groups and use the leaflet below as a model to make your own leaflet about the place where you live.

REMEMBER TO:

- find an eye-catching title
- use pictures, maps, drawings of your area
- give clear and specific information

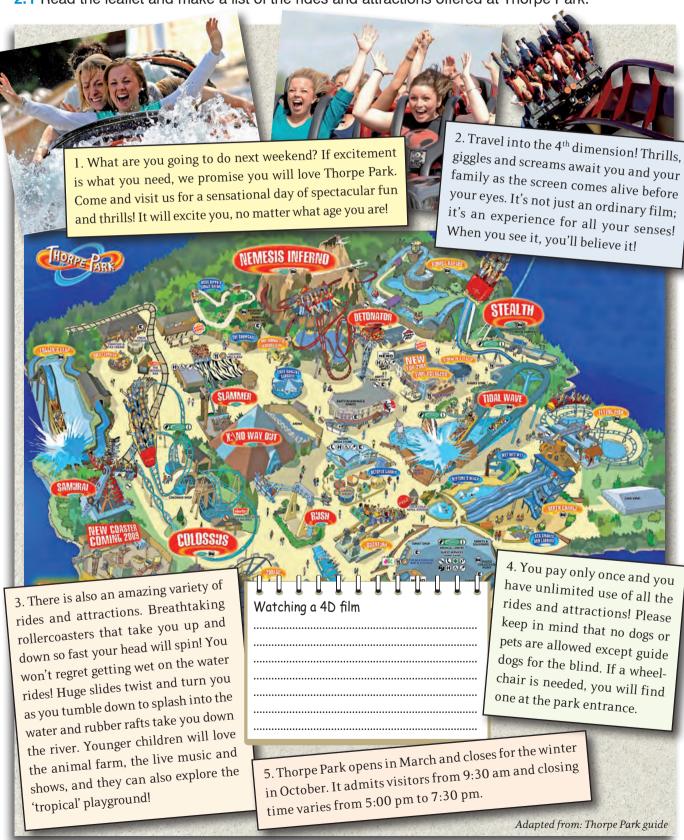

Where the magic never ends...

2.1 Read the leaflet and make a list of the rides and attractions offered at Thorpe Park.

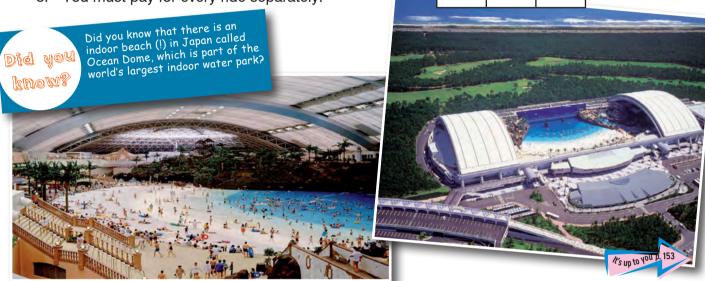

LESSON 8 • WHAT AN EXPERIENCE!

- 2.2 Which of the rides in Thorpe Park do you find most exciting?
- 2.3 Tick whether the following statements are True (T), False (F) or Not Mentioned (NM) in the text.
- Useful tip

A summer camp adventure

You are going to a Fun and Fitness Camp this summer. Read the information leaflet and tell your Australian friend, Tom, what you intend to do there and what you hope to gain from this experience.

e.g. I'm going to join the volleyball team.
I think this will help me keep fit.

Θερινές διακοπές για παιδιά στο Αθλητικό CAMP του δήμου μας

Ο Δήμος μας υλοποιεί κάθε καλοκαίρι ένα ειδικό πρόγραμμα για τα παιδιά της πόλης. Το Αθλητικό CAMP απευθύνεται σε παιδιά ηλικίας από 6 έως 14 ετών και περιλαμβάνει πλήθος αθλητικών και πολιτιστικών δραστηριοτήτων, με σκοπό τη δημιουργική αξιοποίηση του χρόνου τους. Το πρόγραμμα δίνει στα παιδιά τη δυνατότητα να αναπτύξουν την κοινωνικότητά τους, να καλλιεργήσουν την αθλητική και πολιτιστική τους συνείδηση, να ψυχαγωγηθούν και να βελτιώσουν τη φυσική τους κατάσταση.

Το πρόγραμμα περιλαμβάνει κολύμβηση, ενόργανη γυμναστική, τένις, ποδόσφαιρο, μπάσκετ, βόλεϊ, στίβο αλλά και μουσική, θεατρική αγωγή, ζωγραφική και εκμάθηση ξένης γλώσσας, ενώ η διεξαγωγή όλων των δραστηριοτήτων γίνεται σε κατάλληλες και ασφαλείς εγκαταστάσεις, ή και σε ειδικά διαμορφωμένους χώρους της πόλης.

Writing a personal letter

- **5.1** Read Emma's letter and answer the questions. Compare your answers with your partner's.
 - 1. What is the purpose of this letter?
 - 2. How does Emma begin and finish the letter?

.....

- 3. What does she talk about in each paragraph?
- 4. Is this letter formal or informal? What helped you decide?

5.2 Write a letter answering Emma's questions.

Think about the following:

- What information are you going to include in each paragraph? Make notes.
- Have you answered all your friend's questions?
- Can you add any more information? You can write about interesting places to visit, food, entertainment, etc.
- Should you use adjectives such as great, exciting, wonderful, etc., to create positive feelings?
- Which set phrases are you going to use for the greeting and the ending of the letter?
- **5.3** Check your letter for grammar and spelling mistakes.

December 15th

Dear Myrto,

I'm writing to let you know that I've arranged times and tickets, and I'm coming to Greece on January 3rd. My plane arrives at the airport at 10am.

I'm so excited! I can't wait to see the sights and spend some time with you and your family. So, what are your plans for those ten days? What are we going to do? I hope we can visit some ancient monuments, but most of all, I want to make time to see the skiing competition you told me about. I would also like to know if we'll have time to go shopping. I want to buy some souvenirs for my friends!

By the way, what's the weather like? What clothes should I bring? Write soon to let me know about your plans. That's all for now. Thanks again for inviting me. Look forward to seeing you.

Lots of kisses!!!

Emma

P.S. Can you come and pick me up from the airport?

USEFUL TIPS

- 1. Use an appropriate greeting and ending.
- Say why you are writing in the opening paragraph.
- Give your friend all the information he/she needs. Make sure you answer all his/her questions.
- 4. Finish the letter with set phrases like: *look* forward to seeing you, see you soon, keep in touch, write soon, etc.
- Use a P.S. if you want to state something you have forgotten or if you want to emphasise something.

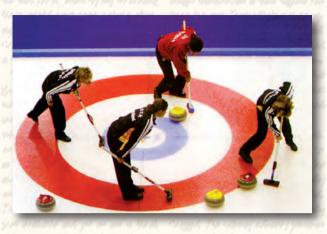

2.1 Read the interview below between Jim Jansen, a well-known sportscaster and Raphael Duke, an ambitious curling athlete who hopes to make the next Olympics. As you read, underline three things that make curling unusual. Compare your answers with your partner's.

CURLING: An Unusual Sport!

Here we are, in the All-Stars Sports Stadium and standing next to me is Raphael

Duke, the athlete we will all be hearing about in the very near future! Raphael is a curling champion
and he has very kindly agreed to answer some questions about this very unusual sport!

- Raphael, how would you describe curling to the people who have never even heard of it?
- Well, first of all, curling is an exciting winter sport where players slide a heavy stone down a 'corridor' of ice towards a round target area.
- That sounds fairly easy, but I'll bet it isn't! ...
- I'll say! The players have to use strategy in order to play well. In fact, curling is so demanding, that people often refer to it as "chess on ice".

- These lanes of ice remind me of really big bowling alleys, only they have these very short side walls. Why is that?
- First of all, they're wider and longer than bowling alleys. The walls don't allow the stone to slide off the lane. Look at the end of the lane. There is a large circle there called the 'house', which has 3 concentric scoring rings of different colours. The centre is called the 'tee'.
- Do you need any special equipment?
- Of course! The most important piece of equipment is obviously the curling stone. It's a round stone specially

made of granite, and it has a handle on top. It's quite heavy, too ... it weighs 19 kg! We also wear special shoes. One of the shoes has a rubber sole that grips the ice and the other one is covered with a smooth material so we can slide on the ice too. We also use special brooms to sweep the ice in front of the stone. Sometimes we wear gloves to keep our hands warm.

- Now, I know that matches are played between two teams of 4 players each. But how do you play?
- We slide two stones from one end of the lane to the other taking turns. The other teammates run alongside the stone clearing its path with brooms, which makes the stone travel further. We have to be very careful, though,

not to touch the stone. We all aim close to the 'tee', or try to knock the other team's stone away from it. Each team tries to have as many stones as possible in the 'house'. The coloured scoring rings help us judge which stones are closer to the centre. The team with the most points wins!

- No, there aren't. Funny, isn't it?
- It sure is. Oh ... and by the way, do you know where curling comes from?
- It probably comes from Scotland and was originally played as an outdoor game on frozen lakes and rivers in the 1500s. Scottish players improved it, made up rules and turned it into a sport that was carried to other countries.

- That's true. It's very popular in Canada where the winters are very long and cold. Canada has got some great curlers. Has it been an Olympic sport long?
 - Since the '98 Games in Nagano, Japan! Until then, it had appeared as a demonstration sport in some Games ... Oh, look! I'm sorry, but I'll have to leave you here. My teammates are waving their brooms at me! Time for practice!
 - Of course, Raphael. Thank for your time, and ... happy curling!

Adapted from: www.curlingbasics.com

2.2 Look back at the interview and answer the following questions.

- 1. Why is curling compared to chess, according to Raphael Duke?
- 2. What equipment is necessary to play the sport?
- 3. Why do the players use brooms?
- 2.3 Can you complete the following information about curling? Read the sentences below and try to fill in as many blanks as you can. If you need help, take a peek at the interview!

1.	Number	of	concentric	rings	in	'house':	
----	--------	----	------------	-------	----	----------	--

- 2. Curling stone weighs
- 3. Number of teams that play:
- 4. Number of players on each team:
- 5. Number of stones each player slides:
- 6. Curling was invented in around
- 7. It became an official Olympic Game in

Remarkable athletes

Listen to the story of two Greek athletes who participated in the Olympic Games hundreds of years ago and answer the questions.

- 1. What sport did each athlete compete in?
- 2. What is so remarkable about these athletes?
-
- 3. How would these athletes perform at today's Olympics?

The true meaning of sports

- 4.1 At the modern Olympic Games, the first, second and third-placed athletes are rewarded with gold, silver and bronze medals, and in many cases, with great sums of money. At the Olympic Games in ancient Greece, there was only one winner, who did not receive any kind of financial reward. What was the prize for Olympic winners then? Why was it an important reward for them?
- 4.2 Read an extract from an article written in August 2008, during the Olympic Games in Beijing. According to this extract, doping is a phenomenon which seems to be getting worse and worse. Why do you think this is happening?

"...Doping problems in China still exist, leading to some major anti-doping violations from time to time", said Duan Shijie, BOCOG executive vice-president and a vice-minister in China's General Administration of Sports. "It has been spreading from professional athletes to amateurs and from professional competitions to sporting schools and even social sports." From: www.uk.eurosport.yahoo.com

Language focus

- **5.1** Look at the examples and complete the rules.
 - Curling is so demanding that it is referred to as 'chess on ice'.

We use **so** + (without a noun)

• Curling is such a demanding sport that it is referred to as 'chess on ice'.

We use **such** + (a/an) + (adjective) +....

5.2 Circle.

• Curling is too demanding (for me) to play it.

This sentence means: a) Curling is very demanding, but I can play it.

b) Curling is extremely demanding and I can't play it.

Too comes before / after an adjective. It has a positive / negative meaning.

I have got **enough money** to buy scuba diving equipment.

Basketball is **easy** enough (for me) to play.

NOTE
Too and enough
are followed by
an infinitive.

Enough comes before / after an adjective and before / after a noun.
It has a positive / negative meaning.

5.3 Read the examples.

Curlers wear special shoes, don't they?

Curlers must not touch the stone, **must they**?

Curling isn't difficult, is it?

Yes, they do. Yes

Yes, that's right. They mustn't.

Well, it is actually. The rules aren't easy enough for everyone to follow.

NOTE

Let's play tennis, shall we?

I'm clever, aren't !?

Don't talk, will you?

Grammar Reference, p. 171

The short questions in bold are called **questions tags**. They are used to check information or to ask for confirmation. How are they formed?

Let's talk about sports, shall we?

Work with your partner. One of you is a young athlete, a snowboarder, and the other is a reporter interviewing the athlete. The reporter uses the ideas in box A and the snowboarder uses the answers in box B. Act out the dialogue.

e.g. **Reporter:** You started training at the age of seven, didn't you? **Snowboarder:** Yes, I did, but only for an hour a day.

A (reporter)

- 1. start training at the age of 7
- 2. train more hours
- 3. enjoy training
- 4. too difficult to train and do schoolwork
- 5. have enough free time
- 6. participate in a national event last month

B (snowboarder)

- a. Yes. Only for an hour a day.
- b. Yes. 5 hours a day.
- c. Yes, a lot.
- d. Yes, quite / not impossible.
- e. No, not enough.

UNIT 4

LET'S CHANGE OUR SCHOOLS

"Nea Pedagogiki"

1.1 Read a short extract from "Nea Pedagogiki" (Nikos Kazantzakis, "Anafora ston Greco") in which the author gives an account of his school experiences at the end of the 19th century. What do you think the 'new' teaching approach was all about?

Στην Τετάρτη Τάξη βασίλευε και κυβερνούσε ο Διευθυντής του Δημοτικού. Μας είχε έρθει σπουδασμένος από την Αθήνα κι είχε φέρει, λέει, μαζί του τη Νέα Παιδαχωχική. Θαρρούσαμε πως θα 'ταν καμία νέα χυναίκα και την έλεχαν Παιδαχωχική μα όταν τον αντικρίσαμε χια πρώτη φορά ήταν ολομόναχος η Παιδαγωγική έλλειπε, θα 'ταν σπίτι. Κρατούσε ένα στριφτό βούρδουλα, μας έβαλε στη γραμμή κι άρχισε να βγάζει λόγο. Έπρεπε, λέει, ό,τι μαθαίναμε να το βλέπαμε και να το αγχίζαμε ή να το ζωγραφίζαμε σ' ένα χαρτί γεμάτο κουκκίδες. Και τα μάτια μας τέσσερα· αταξίες δε θέλει, μήτε γέλια, μήτε φωνές στο διάλειμμα· και σταυρό τα χέρια.

- 1.2 How did the teacher apply this 'new' approach in his classes?
- 1.3 Compare Kazantzakis' classroom reality with yours. How have things changed since then?
- 1.4 Interview your parents or grandparents about their school life. Ask them about the following aspects: school subjects, discipline, books and materials, classrooms, dress code, length of the school day and school year, etc. Share your findings in class.

In this Unit you will:

- read about school life
- listen to students from another country talk about their school
- talk about schools of the past and schools of today
- write a report about your school
- participate in a debate

At the end of this Unit, you should be able to:

- express obligation, necessity, prohibition and
- ask for, give and refuse permission
- compare and contrast schools make suggestions
- define people and things and offer details

Lesson 10 Looking at

Other Schools

A school is not just a building; it is much more. What makes up a school? Fill in the blanks in the picture below with your ideas.

A completely different experience

This is an extract from Joan Benoit's high school journal. Read it and answer the following questions.

- 1. The writer talks about two of the schools she went to. How did she feel about each one?
- 2. What was the impact of each school building on the writer?
- 3. How did the students' behaviour change in the new school? Why?
- 4. What does the writer say about rules in both schools?
- **5.** Why was the headmaster right in trusting the students?

As an adult I can understand my junior high school teachers, but it was hard to be their student. The building was overcrowded — we were still waiting for the new high school to open — dark, old and depressing. We didn't have any extracurricular activities to enjoy after school, so we all came and went at the same hours. We did everything together, day after day. We were a jumpy, bored mob — it was no wonder that they needed so many rules to keep us in line.

Going into high school was a completely different experience. Suddenly, we had choices to make; nobody was telling us where to be and what to do all the time. The headmaster of the school felt that we should be given more control of our time in school. The high school offered a series of mini-courses in English and Social Studies from which we could pick and choose. In free periods we could elect to swim, study in the library, sit out on a sunny hillside, eat, or do anything else that didn't involve leaving campus, disturbing classes, or breaking rules.

Péople told the headmaster he was wrong. They said high school kids would tear the building apart unless they were kept under the strictest discipline. Here the town had spent a fortune to build a new school and he was going to let it be destroyed.

But they underestimated us. We were grateful for the building and for the freedom to experiment with it. We understood that Mr. Raynolds was depending on us to behave like responsible people ...

From: 'MVP' by Joan Benoit

Mini project: My school now and then

- 3.1 Research the history of your school building and make a poster showing the changes it has gone through over the years.
- 3.2 Write a journal entry about how your school makes you feel.

A school from Finland

4.1 You are participating in a video conference with the Strömberg school in Finland. Listen to some of the students talk about their school life. As you listen, complete the text below with the relevant information.

Relationships

Students all know each other. They call their teachers by (1)...... They (2)..... with their teachers and other students.

Subjects / Activities Students don't have to (3)..... much. They learn by doing things. (4) and maths are taught in the classroom. There are also (5)..... for magazine-making, handicrafts, music, drama and science.

Facilities

There is a library for studying. Students can grow vegetables in the school garden. There are special rooms for (6)..... with sofas for reading and chess tables. There is a cafeteria where hot meals are served. There is a gym and a large (7) where the students play football.

Responsibilities

The students have to do lots of (8)..... like taking care of the garden, the aquarium, helping in the kitchen and recycling.

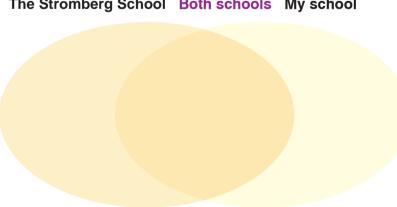

Local community

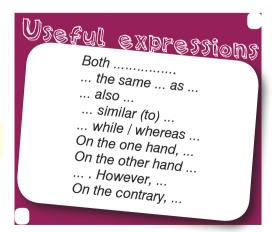

The school is open to the local community. For example, parents visit the school to talk about their iobs.

4.2 After the video conference, your teacher asked you to make a presentation of the similarities and differences between the Finnish school and your own. Make a diagram like the one below and fill in the information you have about the two schools.

Back to School, with a Laptop

It used to be that getting ready for another school year meant buying a few new No.2 pencils, spiral notebooks and a lunchbox. Not anymore. Young children and teenagers, as well as college students, are going to school with more electronic gadgets than ever.

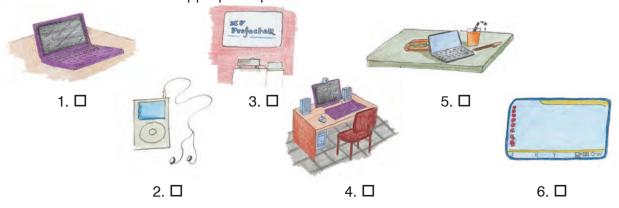

Another change is that the newest tech devices are not aimed at just older students anymore. While laptops are still most useful for those going off to college, younger students are starting to use them as well. The technological era has truly taken off!

Adapted from: New York Times

4.1 Read the advertisement below about a new kind of board. What is it? How can it be used in the classroom? Discuss.

New!!! Innovative!!! Modern!!!

Why do teachers worldwide use our TECH Board interactive whiteboard?

Mainly because:

- it motivates learners!
- it makes presentations lively!
- it reduces the need for note-taking!
- it makes it easy to use web pages in class!

Interactive whiteboards are becoming one of the most powerful interactive learning tools in education.

INCREDIBLY EASY TO USE!!!

The touch-sensitive board connects to your computer and digital projector which displays the image from the computer screen onto the board. You can then control the computer directly from the display on the board, write notes in digital ink and save your work!

If you can use a computer, you can use a TECH Board!

4.2 The Ministry of Education is going to equip all schools with modern technological means. Students have been asked to suggest what their school needs the most. Suppose you are members of your school committee. Get into groups of four. Two of you take role A and the other two take role B. Prepare your arguments to support your point of view and act out your roles.

ROLE A:

You and your partner think that an interactive white board is what your school needs the most. Try to persuade the other members of the committee. Come to an agreement.

ROLE B:

You and your partner think that new computer software and CD-ROMs is what your school needs the most. Try to persuade the other members of the committee. Come to an agreement.

Writing a report

- **7.1** The headmaster of a school in New Zealand is thinking of starting 'after school clubs' for his students. He asked them to think of ideas and write a report making suggestions. Here is the report the student committee wrote. Read it and answer the questions. Compare your answers with your partner's.

Make notes first and plan your report. Look at the 'Useful tips' for help.

Think about what kind of information you would like to include in the report.

- What is the topic of your report?
- Who are you writing this report for?
- What kind of equipment is there already in your school?
- What else do you need to get?
- **7.4** Write your report.

From: The Student Committee

To: Mr. Willis

Subject: "After School Clubs"

The purpose of this report is to present our suggestions for the creation of 'after school clubs' in our school. We have many different interests and we would like the clubs to offer a variety of activities so there is something for everyone.

Our school has no 'after school clubs' at present. Although the idea has come up in student committee meetings several times, unfortunately, nothing has been done so far.

To begin with, many students have expressed an interest in putting on plays or shows, and a DRAMA CLUB would give them the opportunity to do so. Furthermore, it could help raise money for charity, or entertain students with performances at the end of the year. It would be a good idea if there were a COMPUTER CLUB, too. Students could get together and do projects in the computer lab, or get in touch with computer clubs from other countries! Finally, we would like to suggest an ART CLUB. It would be a good idea for those of the students who are artistic. They could come up with imaginative ways to decorate our school. In addition, they could have 'Art Evenings', to exhibit their work to their parents and peers.

These are just a few ideas of course. The possibilities are endless and we are all very anxious to see the 'after school clubs' become a reality.

USEFUL TIPS

- Make sure you know the reason you are writing your report and who you are writing for
- 2. Reports should not be very informal.
- Think about what you want to say and make a list of your ideas grouping similar ones into paragraphs. Write different paragraphs for different ideas.
- Make your comments and suggestions clear and specific.
- 5. Give your report a general title. You can also give each paragraph a heading to make your report easy to read.

Just put it in writing

2.1 Read the texts about the history of writing and printing and complete the table on the next page.

at a rate that would have been unthinkable in prehistoric times! The oldest known writing in the world are carvings and marks on a limestone tablet which was found in Mesopotamia and is estimated to be about 5,500 years old. Sumerian scribes slowly developed these symbols into a kind of writing which is known as cuneiform. This writing spread widely in the Near East, while the ancient Egyptians developed a type of picture-writing: the hieroglyphic script. The first writing, however, to be written consistently in horizontal lines, were two forms of syllabic script used by the Minoans on the Greek isle of Crete in 1500 BC. Because of this, these two forms are known as Linear A and Linear B. Another important early syllabic script was that used in the Phoenician city of Byblos – from which comes the word 'Bible', meaning 'book'!

cuneiform writing

Johann Gutenberg (1397-1468)

The most important invention of the Middle Ages was printing. Until the 15th century, all European books were either copied by hand or printed from wooden blocks that had been carved with the text of an entire page. Both these methods were extremely time-consuming and books were very expensive. Johann Gutenberg, who was a German goldsmith, was the first European to produce movable, metal letters, which could be used again and again. He converted a wine press into the first printing press and found a durable metal to make the letters from. Gutenberg's invention turned out to be revolutionary: books could now be printed cheaply and in great numbers. Mankind began to rush forwards!

In our days, electronic books, better known as e-books, have begun to revolutionise the way people read. What are e-books? They are books in digital format, meaning that they can be viewed on a computer screen, or even the latest cell phones! Like traditional books, they have titles, pages, chapters, and illustrations. Unlike traditional books, they can be ordered on-line and they are delivered electronically to your computer. They are more convenient than books, since it is much easier to carry around a laptop rather than dozens of heavy books... They are also cheaper than conventional books, which makes them an attractive alternative to consumers. As we sail towards a society that will surely be based on electronic information, e-books will undoubtedly take on a more important role in our lives.

Project time: Time for debate!!!

Do you know what a **debate** is? It is a contest in which two opposing speakers or groups each make speeches to support their side on a specific issue. Since they disagree on the issue, they must present solid arguments in favour of their side. At

the end of the debate, judges decide which group was more persuasive.

Look at this statement:

"Teachers cannot be replaced by computers"

Are you for or against this opinion? Take a side, get into groups and prepare to debate this issue.

How to prepare for a debate

- Research your topic using available resources.
- Prepare your arguments and support them with evidence. Try to predict
 what the other team's arguments and responses may be and prepare
 for those, too.
- Prepare a set of questions for the other team.
- Prepare an outline summarising your position.

How to conduct a debate

Speeches can last up to 2 minutes.

- **Speech 1:** The team who is **in favour of** the issue speaks first (proposition team). A speaker from this team introduces the topic and analyses the team's first arguments.
- **Speech 2:** The team who is **against** the issue goes next (opposition team). A speaker from this team states and analyses their first arguments.
- **Speech 3:** The **second speaker of the proposition team** states and analyses the rest of the arguments.
- **Speech 4:** The **second speaker of the opposition team** states and analyses the rest of the arguments.

There is a 5-10 minute break for each team to prepare their final speech.

- **Speech 5:** The **opposition team** opposes the proposition team's arguments and summarises their own speech to show why their point of view is better.
- **Speech 6:** The **proposition team**, in turn, opposes the opposition team's arguments and summarises their own speech to show why their position is better.

- listen to famous pieces of classical music
- write a biography
- do a project on famous artists
- dramatise a scene

At the end of this Unit, you should be able to:

- ask for and give an opinion
- describe processes
- talk about rules
- talk about different styles of art, music, and types of drama

Lesson 13 Quite

an Art!

1.1 Look at the painting, read the poem and listen to the music. Which common theme do you think was the source of inspiration for these artists? Fill in the blanks with one word.

...... by Jean-François Millet

COUNTRY ROAD,
WALK
by Frank Asch

Roll up the moon,
raise the sun,
time for a change of scene.
Look at a rose,
swim in its red.
Have you ever seen
such green?

Holes in my socks, toes in my holes, as plain as the day on your face.

Dew in the grass, sun in the dew, shining all over the place.

- 1.2 How does each artist communicate his idea of the theme?
- 1.3 What other forms of art do you know? Complete the diagram below.

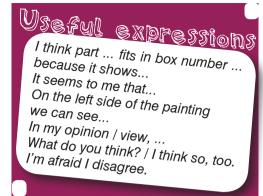

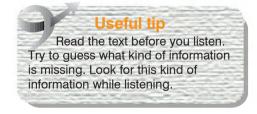

2.1 The puzzle below shows two parts of a famous painting by Pablo Picasso. Work in pairs. Cut out the four missing parts on page 161 of your book and discuss with your partner where each piece fits in the painting. Reach an agreement and stick the pieces in the empty spaces to complete the painting.

2.2 Do you know the title of this painting?

3.1 You are at the Pablo Picasso museum. The following text is part of a leaflet about the story of the painting above. Some of the words have not been printed. Listen to the museum guide and fill in the gaps.

The artist's eye

the destruction. By (5), news of the massacre at Guernica had reached Paris. Eyewitness reports filled the front pages of Paris papers. Picasso was stunned

by the (6) photographs. He rushed to his studio, where he quickly sketched the first images for the mural he would call "Guernica".

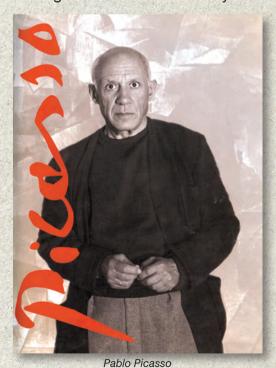

3.2 Why do you think Picasso created "Guernica"?

Picasso's "Guernica"

4.1 Read the rest of the leaflet and discuss what messages are communicated by this work of art.

The cubist painting by Picasso, called "Guernica", is an immense black and white mural painted in oil. The mural depicts a scene of death, violence, brutality, and helplessness. It shows the suffering people and animals experience in the violence and chaos of a war. The overall scene is within a room. There are humans, animals and buildings in this scene but there seems to be no background. On the left side of the painting we can see a mother holding her dead child. A wide-eyed bull stands

over the woman. At the bottom lies a fallen soldier, still holding his broken sword from which a flower grows. In the centre above the soldier is a horse whose body is pierced with a spear. On the right, there is another woman trapped in a burning building.

The painting is very large: 349 x 776 cm. Despite its great size, it was painted in less than two months. Picasso was so angry about what had happened in Guernica that he wanted everybody to immediately take notice of the brutal event. All the figures in the painting seem to be crammed together and their mouths are open as though they are crying out. We get the feeling that they can't get away from the horrors of war; they are trapped in their suffering.

Some people criticised Picasso's cubist style because they could not understand his symbolism. Picasso answered his critics, "It isn't up to the painter to define the symbols. The public who look at the picture must interpret the symbols as they understand them". Even though opinions about the exact meaning of the images of the painting are numerous, there is no doubt that the painting sends a strong antiwar message, not only about what happened in Guernica but about the kind of suffering that takes place in any war.

Adapted from: Picasso's Guernica in "What your sixth grader needs to know"

4.2 Reflect on the painting.

- 1. Why didn't Picasso explain his symbolism?
- 2. What feelings does the painting arouse in you?

Mini project: War in Art

- 5.1 Do you know any other paintings or pieces of art that were influenced by violence or war? Ask your Art teacher, or use the Web and other sources to find such pieces of art and bring them to class. Discuss whether they evoke the same kind of feelings as Picasso's "Guernica".
- 5.2 Make a poster or make up a slogan that reflects your feelings about violence or war.

8.1 A group of students from an international school are visiting an art gallery. Here is the handout their Art teacher gave them to fill in during their visit. Match each style of art with its definition.

1. Cubism	a. A style of art including many bright, colourful brush strokes. The paintings do not have a lot of detail and they are usually outdoor scenes like landscapes.
2. Realism	b. A style of art that shows items painted in a colourful way. It is inspired by comic strips, advertising, popular entertainment and everyday objects.
3. Impressionism	c. A style of art where the subjects remind us of basic geometric shapes.
4. Pop Art	d. A style of art that shows things exactly as they appear in life.
5. Surrealism	e. A style of art where the paintings are generally based on dreams. They are filled with familiar objects painted to look strange or mysterious.

8.2 Listen to the students' Art teacher as she guides them around the gallery discussing the exhibits. Look at the styles of art above and as you listen, try to match each painting with one of the styles. There is one extra style you do not need to use.

8.3 These are some other paintings the students saw at the art gallery. Can you match each one to its title? Write the titles under the paintings.

- 2. lost his hearing?
- 3. became famous 100 years after he died?
- 4. could write from memory a work that he had composed entirely in his head?
- 5. wrote music which is played on the piano but creates the sound of a harp?
- **6.4** Find representatives of classical music in Greece and play their music in class. Ask your Music teacher for help.

Project time: Art throughout time!!!

Invite your Art and / or Music teacher to give a short talk about artists (painters or musicians) who were representative of their times and inspired new artistic movements. After this presentation, get into groups and choose one of the artists presented or any other artist you would like to learn more about.

- Research the artist's life and the era he/she lived in. The following questions might help you.
- What country was the artist from?
- When did the artist begin to paint / play music?
- What other artists or movements inspired this artist?
- How does the artist's work reflect the places, people, or events in his / her life?
- What was unique, innovative, or impressive about the artist's work?

- 2. Explore the works of this artist in order to create a visual timeline of his / her art and life. Go to page 161 of your book to see what a timeline looks like. Your timeline should include at least 5 works from different periods of the artist's life.
- 3. Once you have selected the works of art you want to present, make copies of the paintings or tape the pieces of music. Create a label for each one that includes the title, date and description. The description should answer some of the questions in step 1.
- 4. Have an 'Artist Day' in your class. Present your timelines to the rest of the class and display them on your bulletin board.

The story of Romeo and Juliet

3.1 Do you know what happens in Shakespeare's well-known drama "Romeo and Juliet"?

3.2 Read the summary of the story to find out if you were right.

One day, Romeo heard there was going to be a feast at the house of Capulet. He decided to go, but in disguise so that no one would know who he was. When Romeo arrived there, he looked around the room, and caught sight of a girl so beautiful that he could think of nothing else. When he found out that she was Juliet, Capulet's daughter, he was stunned. Juliet also fell in love with the young man. When she heard that he was Romeo, the only son of Montague, she could hardly believe her misfortune. "My only love sprung from my only hate!" she said.

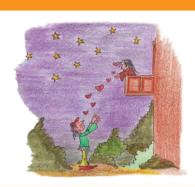

Later that night, Romeo was walking past the Capulets' garden when he suddenly stopped. "Can I go forward when my love is here?" He decided to climb over the wall and meet

Juliet. Then he saw her standing on the balcony. Juliet had not seen him. "Romeo, Romeo!" she said to herself. "Why are you Romeo? Refuse your name and I'll no longer be a Capulet". Romeo was filled with joy.

Romeo and Juliet confessed their love to each other and married in secret the very next day. While Romeo was coming back from the secret wedding, he came across Tybalt, Juliet's cousin, who had been arguing with Romeo's friend Mercutio. In the fight that followed, Tybalt killed Mercutio and then fell dead from Romeo's sword. Romeo had to escape from the city of Verona. Juliet's parents told her that she should marry another man. Filled with despair, Juliet went to the priest who had married them to ask for help. He had a plan. He would give her something to drink, which would make her sleep for forty hours. Her family would think she had died. Meanwhile, the priest would send a letter informing Romeo, who would then take Juliet away with him.

Writing a biography

- 6.1 Odysseas Elytis is one of the most significant Greek poets. Read his biography and talk about what you learnt about his life and work. Do you know anything else about him?
- **6.2** Read the questions below and answer them as you go through the text again.
 - 1. What is the main idea of each paragraph?
 - 2. Which words show when and in what order the events happened? Underline them.
 - 3. What are the main characteristics of a biography? Compare your answers with your partner's.
- 6.3 There is going to be a section dedicated to famous poets in your school's English magazine. Choose the poet whose biography you want to include in the magazine.

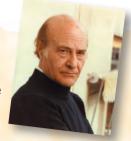

Write down notes and make a plan. Think about what kind of information will be interesting for the reader. The following questions can help you:

- Where did the person grow up?
- What was his / her family like?
- What was his / her childhood like?
- What / When did he study?
- What inspired this person to become the important figure he / she did?
- Why do you admire him / her?
- What has he / she accomplished?
- 6.4 Write the biography.
- 6.5 Reread your work and think about the following:
 - Did you include enough facts in your biography to make the reader understand the importance of this person's life?
 - Did you tell the events in chronological order?
 - Did you use linking words to make the order clear?
 - Are the grammar, spelling and vocabulary correct?

If not, rewrite your biography to improve it.

Odysseas Elytis

Odysseas Elytis was the pen-name for Odysseas Alepoudelis. He was born in Herakleion. Crete in 1911.

In 1914, his family, which originally came from Lesvos, moved to Athens, where Elytis began to study law after leaving school.

After some years, however, he broke off his studies and devoted himself entirely to his literary and artistic interests. He got to know the poet Andreas Embirikos, who became his lifelong friend. As time went by, he was inspired by Embirikos and the Greek-Byzantine cultural tradition. In 1935, he published his first poems in the magazine 'Nea Grammata'. He also took part in the first international Surrealist exhibition arranged that year in Athens.

Experiences from the war lie behind the work that made Elytis famous. He is known as one of the most prominent poets of the Greek resistance and struggle for freedom. After the war, Elytis was busy with various public assignments and he published very little in the following ten years.

The poetic cycle 'To Axion Esti', which began in 1948 but did not appear until 1959, is recognised as Elytis's greatest work. It has been translated into several languages and in 1960 was awarded the National Prize in Poetry. It was set to music by Mikis Theodorakis in 1964.

Odysseas Elytis was awarded the Nobel Prize for Literature in 1979. He died in 1996.

Useful tips

1. Make notes before you write.

Cover important events in this person's life.

- 2. Read your notes and decide on an order for them.
- 3. Put different information in different paragraphs.
- 4. Don't forget to use linking words such as: then, later, after that, during this time, because of this, as a result, finally.
- 5. Check your biography or ask your partner to check it.

A tribute to a leading theatre director

The man in the picture was a Greek theatre director widely known and praised throughout Europe for his lively and successful staging of ancient Greek plays. He founded the experimental Art Theatre (Theatro Technis) in 1942. He also put on works by famous European playwrights such as Bertolt Brecht and Luigi Pirandello. In 1962, his production of 'Birds' ('Ornithes') by Aristophanes won first prize at an international festival in Paris. Do you recognise him?

Project time: Stage it!!!

- 1. Work in groups to select 4 or 5 scenes from Homer's 'Iliad', which run 3-5 minutes reading time each. Ask your Literature teacher for help.
- 2. Rewrite the scenes in English. Be sure to preserve the original meaning of the scenes.
- 3. Assign roles among yourselves. If you need extras*, ask students from other groups or classes to help you.
- 4. You should attempt to memorise your part and speak your lines with feeling that is both appropriate and convincing.
- 5. You may use simple props and costumes if you wish, but they are not required. Clear body language is the best prop of all! Be creative!
- 6. When you rehearse your scene, try to remember never to have your back towards the audience in order to be audible and visible.
- 7. Decide on the piece of music you would like to accompany your scene. Think in terms of what emotion(s) you want this music to arouse in your audience. Ask your Music teacher for help.
- 8. Make a poster to advertise your play and invite other classes to your performance. Your poster should be professional in appearance and include the following: the name of your play, the names of the actors, the date and time of the performance, suitable artwork and a short description of the plot.
 - 9. Act out your scenes in front of the audience in the order they appear in the 'Iliad'.

 10. Ask someone to videotape your performance.

^{*} an extra: a person who plays a minor part in a film or play (e.g. in a crowd scene)

UNIT 5 **HEALTHY LIVING**

1. What would a 'Green Week' at school be like? Listen to some students talk about their 'Green Week' and complete the tree below with the activities they did on each day.

- talk about healthy eating habits, fitness and ecology
- listen to students talk about how they saved energy in their school
- write an e-mail to a friend and a haiku
- make a questionnaire
- do a project to make your school 'greener'

- talk about possible future situations and imaginary situations in the present
- ask for, give and accept advice
- express result and purpose
- talk about the results of a survey

Lesson 16 You are

What you Eat

1.1 Children from a High school in Melbourne, Australia, are taking part in a 'Healthy Living' project. One of the groups is working on the kinds of food European teenagers eat and has asked your school for help. Read the survey below about Greek students' eating habits at school and complete the table.

2.2 Which of the foods above are healthy and which are not? Discuss and complete the table below. Is what you eat similar to what students from the above countries eat?

COUNTRY	HEALTHY FOOD	UNHEALTHY FOOD

2.3 What factors affect people's eating habits?

3.1 On the radio programme you have just listened to, the speaker refers to the celebrity British chef Jamie Oliver and his 'Feed me Better' campaign. What do you think his campaign was about? Was it successful? Read the text below to find out.

Nowadays, junk food dominates school menus. Children are not getting the right nutrients to help them grow, concentrate at school and stay healthy in adult life. Scientists stress that if children do not have a balanced diet they have behavioural and health problems.

In February 2005, Jamie Oliver, concerned with the poor nutritional value of the food served up in schools, decided not to put up with it any longer. He launched the 'Feed Me Better' campaign, which would try to improve school food in Britain. He presented a 4-part series on TV called "School Dinners".

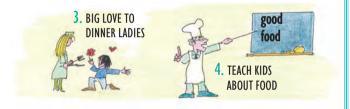

Jamie worked with the dinner ladies at Kidsgrove School, Greenwich, to provide better meals at a cost of 37p per child. It was very hard work. The dinner ladies and Jamie did not agree. The kids cried and parents slipped burgers to them through the school gates. By the end of the show though, Jamie proved that schools can offer fresh, nutritious meals like pasta, vegetables and soups that kids enjoy eating. However, what was really needed was more money from the government. So, Jamie wrote his 'Feed Me Better' manifesto with the top five things which the government needed to change, and put it on the Internet.

Jamie's 5-step manifesto

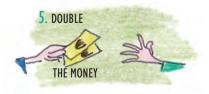

Suddenly, up and down the country, parents and children were sharing Jamie's disgust at the state of school dinners. The headlines in the papers were deafening. Jamie was on the front pages of all the papers: *The Guardian, the London Evening Standard, The Daily Mail.*

Four days after the broadcast of the last episode, Jamie delivered his petition of 271,677 signatures to the Prime Minister at 10 Downing Street, who thanked Jamie for his remarkable work and announced that the government would take immediate action over school meals.

School kitchens would be rebuilt, dinner ladies trained, parents would become involved. All this would be supported by a £280 million funding package. The average cost per meal was almost doubled.

Jamie ended by saying: "If we follow a healthy diet and take regular exercise, our kids will be healthy adults. What came out today will make a difference to every kid in this country".

Adapted from: www.feedmebetter.com

- **3.2** Put the following sentences in chronological order. Then use them to write a summary of Jamie's campaign.
- a. Jamie started a campaign and presented a TV series.
- b. The website petition hit 270,000.
- c. Jamie met the Prime Minister.
- d. The government gave money.
- e. Jamie wrote his manifesto and put it on the web.
- ... 1 ... f. Jamie was worried about the poor quality of food at schools.
- g. In the beginning, parents and kids were against his effort.
- h. People from all over Britain supported him.

- 3.3 How would you promote a 'healthy eating' campaign in your school? Work in pairs to make a list of ideas.
- 3.4 Work in groups. Find detailed information in your Home Economics book or other sources about how your diet during adolescence can affect your health in later life. Use a diagram from pages 161-162 to organise your information and present it to your classmates.

3.5 Mini project: Questionnaire

Your teacher has asked you to prepare a 'Health and Fitness' questionnaire to investigate the eating and exercise habits of the students in your school.

- **Step 1**: Work as a class to generate a list of questions for the survey.
 - e.g. Question 1:

What is the most important meal of the day?

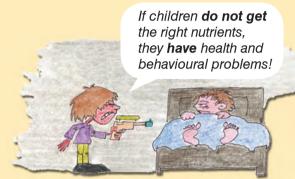

- a. breakfast
- b. lunch
- c. dinner
- **Step 2**: Edit and print the questionnaire.
- **Step 3**: Visit other classes to conduct the survey. Try to visit as many classes as possible, because the more data you have, the more accurate your results will be.
- **Step 4**: When the survey is complete, make a bar graph or a pie chart with the results. Your Maths or IT teacher can help.
- **Step 5**: Discuss the results in class. Do the students in your school have good or bad eating and exercise habits? Why?
- **Step 6**: Inform other classes about the results of your survey. If these results show bad eating and exercise habits, you might want to do something about it. Look at the Unit Project (page 118) for ideas.

Talking about food

- 5.1 Look at the prompts below and make sentences, using 'Type 0' or 'Type 1' conditionals.
 - e.g. exercise a lot / eat as much as you like

 If you exercise a lot, you can eat as much as you like.
 - 1. not eat fish or meat / be a vegetarian
 - 2. skip meals / not lose weight
 - 3. the label of product say "low fat" / be a good choice
 - 4. take vitamins / not have to worry about eating fruit and vegetables
 - 5. allergic to milk / not eat dairy products
- **5.2** Which of the above are food 'myths' and which are food 'facts'? Justify your answers.

- **6.1** Look at 'The MedEATerranean plate' and answer the questions.
 - What are the characteristics of the Mediterranean diet?
 - Why do you think it is considered healthy?

6.2 A healthy diet and regular exercise contribute to our good health. Make a list of everything you eat and the activities you do in one day. Then look at your Home Economics book, calculate approximately how many calories you consume and how many you burn, and estimate whether there is a balance between the two considering your size and age.

Lesson 17 The 'Greenest'

Way to School

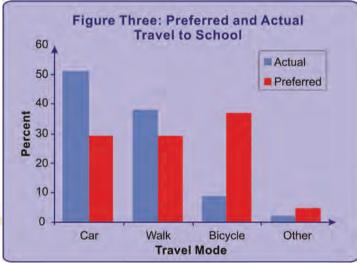

Travel to school

- 1.1 How do you usually get to school?
- 1.2 The graph below shows how some students from New Zealand get to school and how they would prefer to get to school. What are the results of the survey? Discuss.
 - e.g. Fifty per cent of the students get to school by car, whereas only thirty per cent would like to.

- 2.1 Listen to a radio announcement about a 'Bike-to-School Week' in England. What is the purpose of this announcement?
- 2.2 Read the information leaflet that was handed out to students for the 'Bike-to-School Week'. Underline the benefits of getting to school by bike. Then write them in the list on the next page in order of importance, starting with the most important one for you.

BIKE-TO-SCHOOL WEEK

Cycling kids are confident kids, more independent and brainier! Just 15 minutes cycling to and from school could make a real difference to your fitness, and the planet's future.

1. A Smarter Generation

Cycling makes you fitter, more alert and cleverer. A more active lifestyle, would greatly improve your chance of living a long and healthy life. But cycling and daily exercise have many immediate benefits as well. You will enjoy improved bone strength, muscle tone, increased alertness and improved school performance. Teachers often comment that children who walk or cycle to school arrive brighter and more ready to learn than those driven by car.

2. On your Own

Cycling encourages independence. If children are allowed to make their own way to school, they become more confident and independent. The school journey is an ideal opportunity for them to learn road safety awareness and other life skills. For many children, cycling is simply more fun and more sociable than going to school by car, and they love the feeling of freedom it gives them.

3. Taking the First Step

Cycling is good for the planet. If more children cycled to school, it would be good for the environment. There would be less traffic congestion, less pollution and fewer of the emissions that cause global warming. If more people decided to cut out the school run, the streets would also be safer and it would be easier to encourage others to do the same.

4. Thinking about Tomorrow

We are all aware by now that our planet's resources are slowly drying up and there is no way the earth can keep up with the demand. Cycling to school and anywhere else for that matter - will ensure that our planet's valuable resources are not exhausted. Remember these resources 'belong' to everyone - future generations, too.

2.3 Think of some reasons why young people in your town do not walk or cycle to school. Discuss.

Don't show each other what you have written. Then combine your clauses to make sentences and read them aloud in class. Do any of them make sense?

The students of a German school want to write a report on the use of bicycles in your country. They have sent you the following e-mail to ask for your help.

Hey there! We're the students of class B2 in a school in Berlin and we're doing a project on the use of bicycles around the world! We need your help! We're looking for cities where people use bicycles a lot. So far, we've talked to people in Copenhagen, Amsterdam and Paris. We wonder if you could help us with info about your country. Anything you find would be helpful!

Here are some questions that may help you:

- How many people use bicycles in this city?
- Why do people use bicycles in this city?
- Do more men or women cycle?
- What age groups use bicycles most?
- Do the cyclists face any problems?
- What are their suggestions for the better use of bicycles?

E-mail us as soon as you can! Thanks a lot.

The students of class B2

You have come across a survey concerning the use of bicycles in the city of Karditsa. Read the survey carefully. Use the information to write an e-mail to the German students answering their questions.

Lesson 18 Going 'Green'

'Green' schools

1.1 Every day you do things that affect the environment in different ways. Work in pairs to think of the activities you do and what kind of impact they have on the environment.

- e.g. Leaving the lights on when you leave a room wastes energy. Going to school on foot saves energy.
- 1.2 What do you think a 'green' school is? Is your school 'green'? Why / Why not?

Steps towards a 'greener' school

2.1	I Listen to three students who participated in eco-projects talk about what they did to	make	their
	schools environmentally friendly. Match the speakers with the areas they worked on.	There	is an
	extra one you do not need to use.		

Speaker 1: Speaker 2: Speaker 3:

- a. School Grounds
- b. Healthy Living
- c. Saving Water
- d. Waste and Recycling
- **2.2** A group of students from the 2nd High school of Komotini worked on the theme of saving energy. They started their project by identifying the problems. Can you guess what problems they found?
- 2.3 Listen to a reporter from an international environmental newspaper interview the students about the project and the steps they took to complete it. Take down notes on the problems they found in their school. How many of the problems did you guess?

	STEP 1: Identifying the problems

LESSON 18 • GOING 'GREEN'

2.4 Read the rest of the interview and complete the "tree diagram" with notes on what the students did at each step.

Reporter: Great! Now after identifying the

problems, what was your second step?

Tina: Well, we had to do a lot of research to

get detailed information. For example, we found electrical bills and studied how much energy was consumed

in the school. We estimated its value and then made charts and diagrams with our

results.

Reporter: That must have kept you busy! So, I gather the next step was taking action. Am I right?

Vicky: Yes. We really got working! We wrote down a report and we announced it to students and teachers. We made sure the lights were turned off when classrooms were empty

Lena:

and we started to monitor the use of the lift. Only students who really need to, use it.

keep them closed in the winter and we make sure

You forgot to say about the windows. We now

that all our classmates are involved!

Reporter: Well, then I guess your job is done! Great work

kids! Well done!

Markos: That's not all. There was one final step. You

see, after all the work we did, we wanted our community to know... we wanted to get everyone

involved. Everyone has to be sensitised!

Reporter: Of course! So, what did you do?

Markos: First of all, we organised a drawing competition to involve students from other schools

and we worked with our teachers to make bookmarks with ecological messages which

we gave out. We also distributed lots of leaflets with information. Our school newspaper

also ran articles about what we did and the local radio station interviewed us.

It must really be satisfying to know that Reporter:

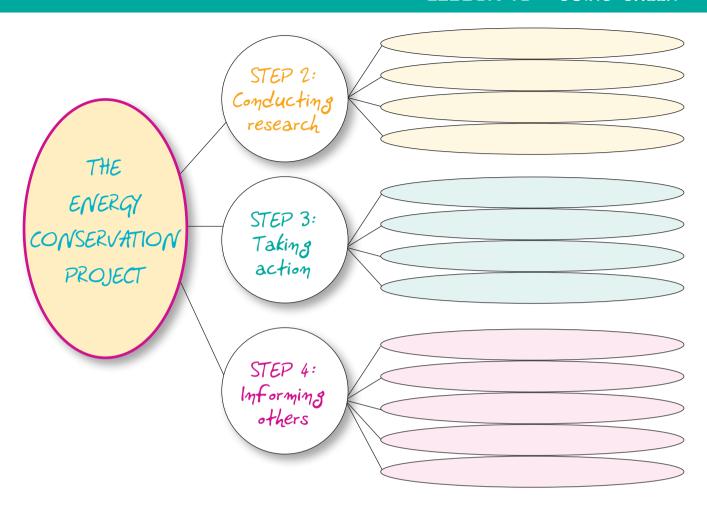

with just a little effort, you have made a difference. Congratulations to you all.

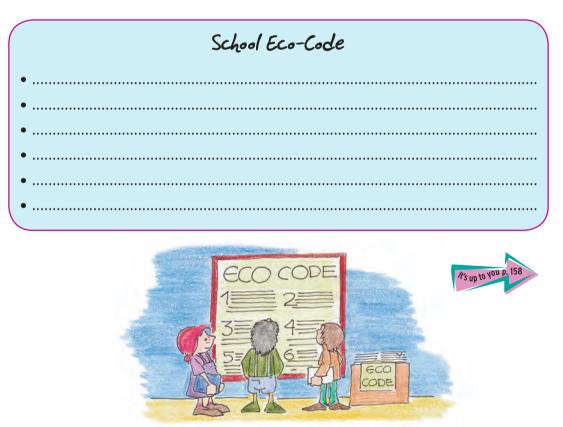

Adapted from: www.eco-schools.org

2.5 The students have to write an eco-code to put up in their classrooms. Can you help them?

- **3.1** Look at the following sentence.
 - Unless we realise the importance of saving energy, we will run out of natural resources soon.

This is a 'Type 1' conditional although it has no 'if' in it.

Guess which part is the if-clause and underline it. Which word means 'if ... not'?

3.2 Match column A with column B to make correct 'Type 1' conditionals using **unless** instead of **if** ... **not**.

3.3 Read the following sentences.

- Huge forest areas are burnt every year. As a result, many animals lose their habitats.
- We should plant trees in order to make cities look better.
- We should use environmentally friendly products to protect the ozone layer.
- People don't recycle as much as they should. Therefore, natural resources will run out soon.

Celebrate the beauty of nature

A school in Ireland participating in the Eco-Schools project worked on the conservation of the environment. As part of the action they took, they wrote haikus celebrating the beauty of nature.

Haiku is a type of poetry from the Japanese culture. Haiku poets write about everyday things and their themes include nature, feelings or experiences. They use simple words and grammar.

A Haiku has 3 short lines. The first line contains 5 syllables, the second line contains 7 syllables and the third line 5 syllables. Haiku doesn't rhyme. It must 'paint' a mental picture in the reader's mind. Look at the following Haiku and try to mark the syllables with your pencil.

RAIN Soft whispers of rain Falling from white, cotton clouds. They touch the earth's face. (5 syllables) (7 syllables) (5 syllables)

Now, look at some more Haikus. One has the 7-syllable line missing and the other has one 5-syllable line missing. Use your imagination to fill them in.

Yellow sunflowers

Cool ocean water

Splashing and pounding the shore,

Moving in the wind.

WRITING A HAIKU

Now it's your turn to write your very own haiku.

IHEME	images. Look at pictures of nature to get inspired!
MOOD	• What is the 'mood' or feeling you want to create? Happy? Sad? Reflective?
LANGUAGE	 Think of images and descriptive words that describe your theme. Use all your senses! Jot down the words as they come into your mind.
THE POEM	• The final step is to put your ideas on the haiku 'frame': 3 lines, 5, 7 and 5 syllables. When you are satisfied with the result, read it aloud. Can you 'see' a picture in your mind?

PUBLISHING• Type your haiku in a font that you feel suits it, or write it out clearly. Illustrate your poem, or if you are computer 'talented', draw it on your computer.

Project time: Towards a healthier,

fitter and 'greener' school!!!

What can you do to make your school a healthier, fitter and more beautiful place for everyone?

1. Get into groups and choose the topic you want to work on. Consider the following:

- Health and eating habits
- Sports and exercise
- Waste and litter
- Energy
- School grounds

- 2. Go round your school and identify areas that are problematic. If possible, take photos that clearly show the problems.
- 3. Discuss with your group what you can do about the problems. Make an action plan.

- 4. Take action to make a difference. You can:
 - organise a healthy eating day / week
 - make organic compost for your school garden
 - organise 'active breaks'
 - plant flowers and trees
 - install recycling bins
 - make and put up banners to inform other students about the problems

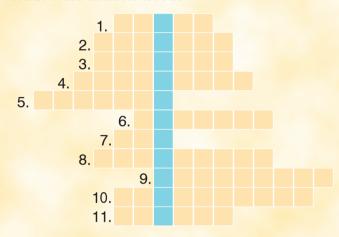

- 5. Inform the community. You can:
 - take photos that show how the situation has improved. Exhibit your 'before' and 'after' photos side by side onto posters and accompany them with captions that describe the action you took.
 - compile your work onto a CD-Rom and present it on your web site.

Unit 6 Review

UNIT 7

EMBRACING OUR WORLD

August 5 was International Friendship Day for 2007, time to recognise your friends and their contribution to your life. Friendship helps to bring peace and positivity to the globe - a great reason to celebrate!

Did you knows

Kostas has made a poster to celebrate International Friendship day as part of a project he is working on with his class. Look at how many languages he found the word 'friend' in. Which ones are similar to the English word?

Read the quotes about friendship. What qualities do they suggest a real friend must have? Find two more quotes to help Kostas complete the poster.

In this Unit you will:

- read about friends and people who care for others
- read and listen to poems
- listen to stories about amazing people
- talk about friendship
- write an e-mail to a school partner
- learn how to participate in an eTwinning project

- At the end of this Unit, you should be able to: • discuss the topic of friendship and people
- thank someone and respond to thanks • report statements, orders, requests and

Lesson 19 Against the Odds

Being a friend is...

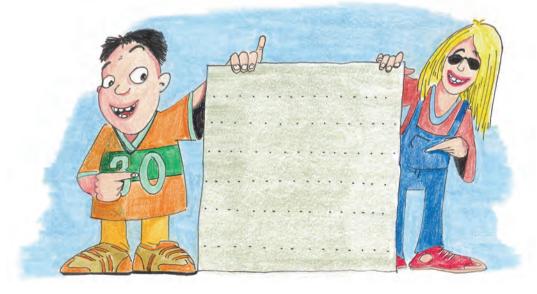

1.1 There are all kinds of friends: school friends, e-friends, penfriends, and many more. What activities or experiences come to mind when you think of your friends? Fill in the spider diagram.

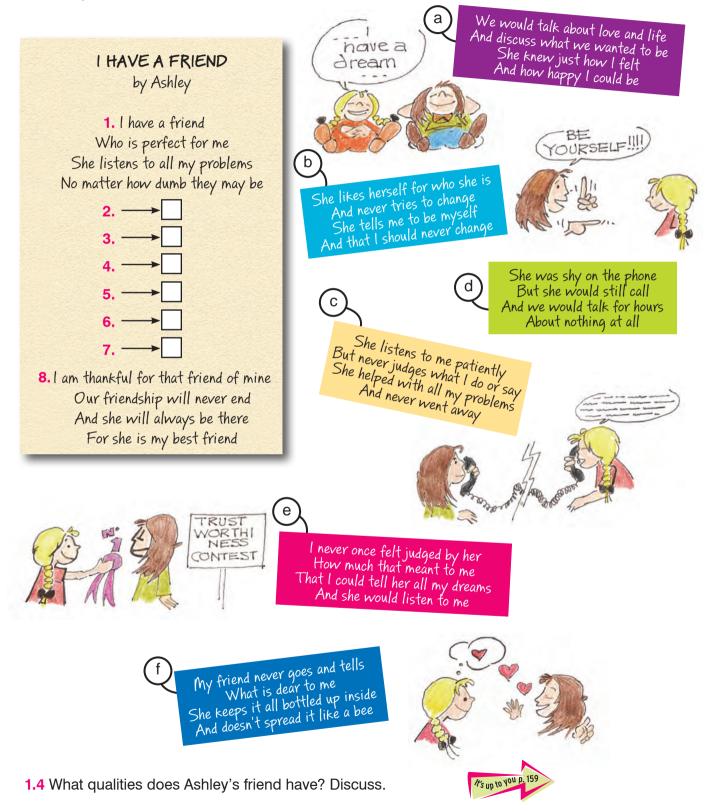

1.2 Isocrates said that friends are compassionate and considerate. What qualities do you look for in a friend? Make a list.

To have good friends, you have to be a good friend (old saying)

1.3 Ashley's poem is all mixed up. Work in pairs to put it back together again based on what qualities you consider most important in a friend. Then listen to Ashley's original poem and compare it with your version.

1.5 Work in groups. Find a book, a film, a song or any other work of art about friendship and bring it to class to share with the rest of your classmates.

2.1 Look at the title of the text below and the photo of two friends, Edna (left) and Amanda. What do you think the story will be about?

2.2 Read their story to see if you guessed right.

A Fearless Friend!

To celebrate the end of their first week as ninth graders at a high school in Orlando, Florida, Edna Wilks, her friend Amanda Valance and some other students decided to go for a moonlight dip in a lake near Edna's house. "It's a very safe lake," said Edna, then 15, "and we're good swimmers".

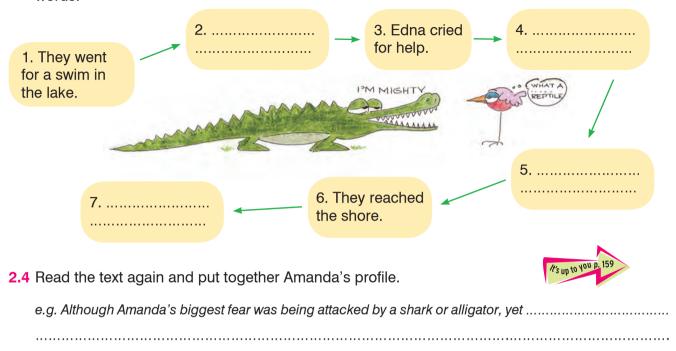

But as they waded and splashed in the water the night of August 18, 2001, something broke the surface of the lake and grabbed Edna's left arm. "I thought it was someone playing around," she said. "When I saw the alligator's head, I didn't have enough time to scream. He just pulled me under and started spinning me over and over. I thought that this was the end".

For a brief instant, the deadly alligator loosened its grip and Edna burst to the surface and cried out for help. "I saw everyone swimming away," she said. "All the kids were heading for the shore. I screamed, 'Come back! Please, don't leave me'!"

But everyone did – except for her best friend Amanda, who didn't panic and paddled towards her on a surf board. "I was a bit scared for a moment," said Amanda. "Then I thought, no, I can't leave my best friend out here to die." When she reached Edna, the gator surfaced and seemed to glare at her. Amanda pushed Edna onto the board, and towed her steadily towards the shore 50 metres away. The alligator began to approach them. Although she was petrified, Amanda kept comforting Edna. "I told her, 'Don't give up... you must try... you can make it...' I was crying."

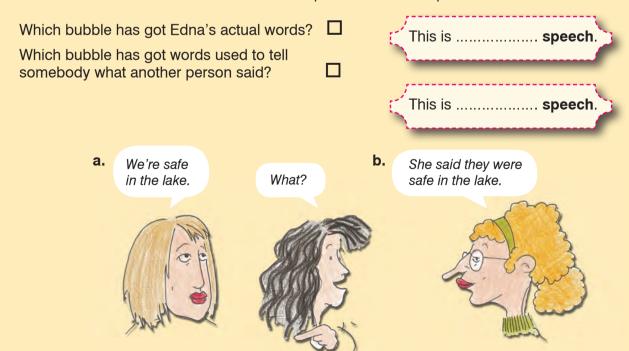

When they reached the shore, Edna's mother and paramedics were anxiously waiting to rush her to hospital. Miraculously, the reptile had only snapped Edna's upper arm bone. "We all look up to Amanda. If it weren't for her incredible bravery, Edna wouldn't be here today," said Edna's mum. Edna added, "Amanda's biggest fear was being attacked by a shark or alligator, yet she still took the risk and saved me. She's a courageous, amazing friend and she definitely qualifies as a hero!"

Adapted from: 'Amazing Stories of Survival' People Magazine, June 2006 2.3 Complete the 'chain of events' diagram below with the main events of the story in your own words.

3.1 Look at the bubbles below. Answer the questions and complete the boxes.

3.2 Compare the sentences above and circle the changes you can see.

3.3 Look at the text and complete the direct speech in the table below.

Direct speech	Reported Speech
Simple Present (1) "Amanda as a hero".	Simple Past Edna said that Amanda qualified as a hero.
Present Continuous (2) "Someone around".	(a) Edna thought someone was playing around.
Simple Past (3) "She the risk".	(b) Edna said that Amanda had taken the risk.
Can (4) "I my friend out here to die".	(c)
Must (5) "You try".	(d) Amanda told her friend she had to try.

- **3.4** How have the verbs changed from direct to reported speech? Complete the tenses and forms in the table above.
- 3.5 Do you notice any other changes?
- 3.6 Look at the sentences below and find Edna's exact words in the text.

Reported speech

Edna told her friends to come back. Edna asked her friends not to leave her.

How do we report orders and requests?

What a night!

A reporter interviewed some of the children that were swimming with Edna on the night of the attack. Read his notes and help him finish his story.

It was a terrifying moment for all these children. I saw some of Edna's friends on the shore immediately after the attack and they talked to me. Jimmy, a 14-year-old classmate of Edna's said that

Thankfully, Edna was taken to hospital very quickly and
her injuries were not very serious. It was a night these
children will never forget.

Lesson 20 Seeing through

a Friend's Eyes

Sounds of a day

- 1.1 Listen to the sounds and try to guess what is happening. Take notes as you listen and share your answers in class.
- 1.2 Now listen to a young boy talking about the beginning of his day. Do you notice anything unusual? How does he experience the world around him?
- 1.3 How is the boy's life different from yours? Why are sounds and touching so important in his life?

Making a new friend

2.1 Listen to an extract from the same story. How do the boy and Abram meet and how do they become friends?

My sister says the park is ugly and dirty. Abram says there are a few little bits of paper, and a couple of cans and some bottles, but he says he can squint up his eyes and all those things lying around shine like flowers. Abram says you see what you want to see.

My sister says the park is just for poor folks, and that no one would ever come here if they had a chance to go anywhere else. Abram says the park is just for lucky people, like him and me. He says the people who come to this park can see things inside themselves, instead of just what their eyes tell them.

After a while Abram goes away. He says, "I will come back and look for you tomorrow". I hear his ice cream bells go farther and farther away until I do not hear them anymore. While I am waiting for my sister to come for me, I fall asleep on the bench. I have a good dream. I dream that Abram lifts me so I can touch the leaves of a tree. All of the leaves are songs, and they fall around me and cover me. I am warm and soft under the songs. My sister shakes me awake. "You'll catch cold lying here," she says.

The next day while I am sitting on my bench, I hear the ice cream bells and I walk out to the curb, touching the cages of the trees as I go. Abram gives me an ice cream bar and we walk together back to the bench. I do not have to touch the cages because I am with him. I have made a good friend.

Adapted from: "Sound of Sunshine, Sound of Rain", by Florence Parry Heide

I am sitting on the bench tapping my good luck song with my shoes when I hear the bells of an ice cream truck. I feel the money in my pocket. I have the dime and I also have a bigger one. I know I have enough for an ice cream bar. I walk out to the curb, touching the cages around the trees. I wait until the bells sound near, and I wave. He stops. He is near enough to me to touch his cart. Now I feel him seeing me.

"Here," I say, but he does not take my money.
"Guess what?" he says, and his voice is soft and kind
as fur. "Every tenth kid wins a free ice cream bar, and

you're the lucky one today."

I can feel him getting off his cart and going around to open the place where he keeps his ice cream bars. I can feel him putting one near my hand and I take it. I start back to my bench.

"You gonna be okay by yourself now?" the ice cream man calls. I sit on the bench. I listen for the sound of his cart starting up, and his bells ringing, but I can only hear the other sounds, the regular ones. Then I hear him walking over to my bench. I am sorry, because I only want to feel the ice cream and see how long I can make it last. I do not want anyone to sit with me now. I may dirty my clothes and I am afraid he will see me.

He starts to talk. His name is Abram. He tells me about the park. My sister says the trees are in cages because if they weren't in cages they wouldn't stay in such a terrible park. Abram says the trees are in cages to keep them safe so they can grow up to be big and tall.

LESSON 20 - SEEING THROUGH A FRIEND'S EYES

2.2 Work with your partner and answer the following questions.

- 1. What kind of a person does Abram seem to be?
- 2. "Abram says you see what you want to see". Why do Abram and the boy's sister 'see' the world around them differently?
- 3. Whose view do you think the boy prefers and why?

What do you think?

3.1 Look at the photos. All of these people need help. What can you do to help them? Complete the table below. Add more ideas of your own.

People in need	Type of help
e.g. the disabled	doing the shopping

3.2 "Dogs are man's best friend". Discuss friendship between people and animals. Find a story that clearly illustrates the bond between man and animals or share your own experience with the rest of the class.

4.1 Look at the following reported statements. Find the actual words of the boy and Abram in the text and complete the **direct speech** list below.

Direct speech	Reported Speech
Present Perfect (1)	Past Perfect The boy said he had made a good friend.
will (2)	Abram said he would come back and look for him the next day.
(3)	(b) The boy said he might dirty his clothes.

- 4.2 How have the verbs changed from direct to reported speech? Complete the table above.
- **4.3** The verbs 'say' and 'tell' are most commonly used as introductory verbs in reported speech. Other verbs that we can use are:

Reported statements	Reported requests and orders	Reported questions	Words and expressions that this words speech
tellsayaddreplythinkanswerexplain	tellaskwarnorderadvise	askwonderwant to know	change in reported speech: this - that here - there now - then ago - before tomorrow - that day yesterday - the day before last week - the previous week month - the following month

4.4 Put the sentences from the text in reported speech using the introductory verb in brackets.

1.	"Every tenth kid wins an ice cream bar" (explain) Abram
2.	"You are the lucky one today" (add) Abram
3.	"The park is just for lucky people" (think) Abram
4.	"You will catch cold lying here" (warn) His sister

What do you think?

5.1 Read the poem below. Can you guess which word is missing from both the title and the poem? Listen to check your answer.

THE BLIND MEN AND THE

by John G. Saxe

And so these men of Indostan Disputed loud and long.
Each in his own opinion
Exceeding stiff and strong,
Though each was partly in the right,
And all were in the wrong!

- **5.2** What is the point the poet is trying to make? How does this point relate to the story of the blind boy?
- 5.3 Draw the animal described above based on the opinions of the blind men. What does it look like?

The Blind Cow Restaurant in Zurich, Switzerland, offers up a different dining experience: Guests eat in complete darkness and are served by blind or visually handicapped staff!

Put on a blindfold or close your eyes. Describe the object your teacher gives you only by smell, touch or taste. Reflect on what it felt like to be 'blind'.

How can you make new friends? Are there any ways today that didn't exist in the past?

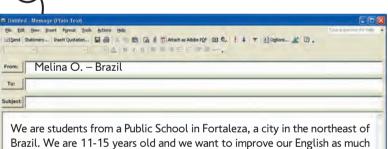

Lin S. – Singapore

- 2.1 Read the e-mails below and answer the questions.
 - 1. Who wrote them?
 - 2. Why did they write them?
 - 3. Who did they send them to?

We are 30 students in the 2nd Grade of high school in Singapore. Our first language is English. We also learn Malay and Chinese as our second languages. We are a vibrant class of 14-year-olds who enjoy writing about our lives here in sunny Singapore. Singapore is a multi-cultural society and there is much to share about this small, bustling, colourful city. We would like to learn about life in any European / American cities. How often can you exchange e-mails or postcards with us? How about once a fortnight? By the way, have you ever been to Singapore? We are a class of creative, imaginative and well-informed 14-year-olds who would love to meet you!

as possible. We would be happy to find a school somewhere in Europe to start making penfriends. We would also like to invite you to our country so we can meet each other. We like sports, going to the cinema and of course writing e-mails, but we also want to make a positive impact on the lives of other children and families in need. We are concerned about the hardships and tragedies faced by other children around the globe and we want to help. Right now we are trying to organise some fundraising events to help the children who suffered the terrible earthquake in China. If anyone from anywhere in the world would like to join our project, please get in touch. I'm sure it'll be a great experience for everyone!

Dear fellow students.
,
We come from the state of Massachusetts in the USA! Our school is
the Kendall school in a town near Boston. It's a great school and we spend
a lot of our free time on sports and other interesting activities. We also
like exchanging e-mails and visiting chatrooms to see what other kids of
our age have to say!
The children in our school are very close — it's like we're one big

This week, we are organising a fundraising event for our school partner
in Indonesia. We want to help them buy basic equipment for their new
school. It's good to know we can help! Our events will include traditional
games, contests, dances, an auction and even a karaoke contest!
Would you be interested in helping us out?
We hope to hear from you soon.

Project time: An eTwinning project!!!

7.1 Your Australian friend Jennifer, who is on holiday in Greece, wants to know more about the eTwinning programme you are involved in. Here is some information on it. Could you tell her about it?

Η δράση eTwinning δημιουργήθηκε για να δώσει στα σχολεία την ευκαιρία να μάθουν μαζί, να μοιραστούν τις απόψεις τους και να δημιουργήσουν καινούργιες φιλίες. Προωθεί αντίστοιχα τη συνείδηση του ευρωπαϊκού πολυγλωσσικού και πολυπολιτισμικού κοινωνικού μοντέλου. Μέσω του eTwinning, σχολεία των κρατών της Ευρωπαϊκής Ένωσης αλλά και της Νορβηγίας, της Ισλανδίας, και πρόσφατα της Βουλγαρίας και της Ρουμανίας, υποστηρίζονται στην «αδελφοποίηση» σχολείων μέσω του Internet.

7.2 Below are some comments from your classmates' portfolios about the benefits they gained from participating in the eTwinning project. Write down the benefits and tell Jennifer about them.

I was never really good at using my computer. I felt I had no computer skills at all. Now, I'm fast and most important of all, I can use my computer with ease for many other things.

Helena

eTwinning is really great! I exchange e-mails with so many people, that I feel I now have new friends all over the world.

Jason

The eTwinning project made me work harder on my English! I'm much more fluent and I don't find writing in English difficult any more.

LESSON 21 • FRIENDS WITHOUT FRONTIERS

7.3 Suppose you want to find a school partner to collaborate on school projects, practise foreign language skills and establish international friendships. How will you get started? Follow the steps below:

How can you get involved in eTwinning?

It is very simple.

- Decide on the profile of your school partner.
- Register your school.
- Find your school partner.
- Connect with your school partner.
- Decide on your project.
- · Register your project.
- · Work with your school partner.
- Develop your partnership.

WELCOME TO THE WORLD

ERDINAN-MAGELLANVS SYPERATIS ANTARCTICI-FRETI-ANGVSTHS-CLARIS

Christopher

Columbus

Marco Polo's Odyssey

During the Middle Ages, most people in Europe spent their entire lives in the village where they were born. But in the 13th century, a young Italian named Marco Polo travelled all the way to China! Marco was only seventeen years old when he left Venice. It took him almost four years to cover the vast distance over steppes, deserts and mountains before he finally reached the palace of Kublai Khan, the Mongol emperor.

When he arrived, Marco found a shining palace of marble and gold. The walls of the palace ran for miles and enclosed a vast park full of animals and over two hundred kinds of birds. China was full of riches that Europeans were eager to buy. Kublai Khan was impressed and sent Marco Polo on many important missions to distant parts of the empire.

When Marco Polo returned home to the city of Venice, he talked about the wonders he had seen in China. The story of Marco Polo's travels became popular all over Europe, even though many people thought Marco had made up a lot of the wonders he described. One person who read Marco's book believed it all. In fact, he was so excited that he wanted to find a fast sea route to China. His name was Christopher Columbus.

- 1. What impact did Marco Polo's journey have on the world of his time?
- 2. Look at the pictures of other important people whose love for travel and adventure broke the boundaries of their world. Work in groups to choose one of these people and make a 5Ws chart about them. Then, present the information to your classmates based on your chart.

- join some students on a journey round the world
- look at interesting photos and learn about people and places
- plan an afternoon out with your friends
- send a virtual postcard
- read a poem

At the end of this Unit, you should be able to:

- discuss the content of pictures and where they come from propose a plan and reach a common decision about what

express your opinions, wishes, likes and dislikes

Lesson 22 Breaking

the Boundaries

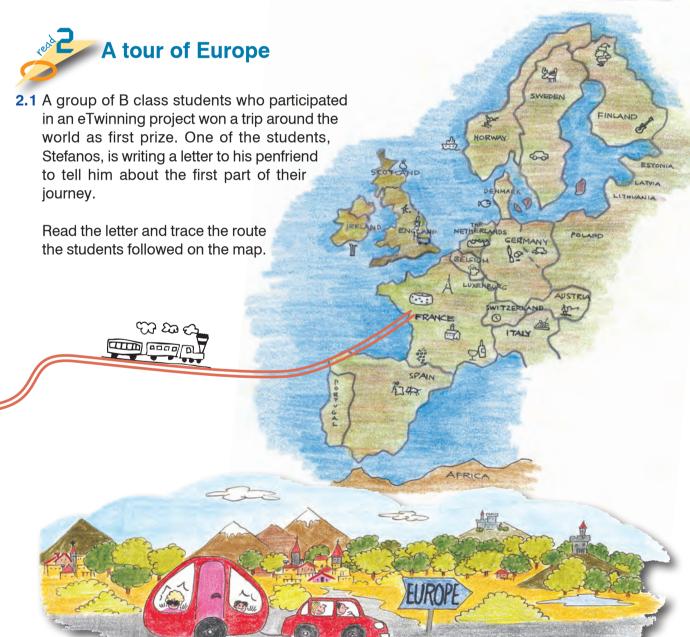

Setting off

In 1271, 17-year-old Marco left his hometown of Venice to embark on an adventure that was to last 24 years, and which took him to places that Europeans had never heard of until then! Travelling today is much easier, but just as exciting!

Why do you think people still see travelling as an adventure?

2.3 What means of transport do you think the students used in order to move from one place to the next? Look at the map and the letter for clues.

Lesson 23 It's

a Small World after All

Messages back home

- 1.1 Our friends are halfway through their journey now and they want to share their experiences with Ms. Petridou, their English teacher back home. Read their postcards and match them with the pictures.
 - 1 2 3 4 1

Dear Ms. Petridou.

Well, we promised to keep you updated and so here is our first postcard! After Helsinki, we flew straight to Moscow, Russia. We thought it would be cold, but the weather is actually nice and mild. The people are quite friendly and they keep speaking Russian to us! We saw an amazing ballet performance and a concert and we went sightseeing in the famous Red Square. We also ate blinis with sour cream and tasted some borscht.

We'll write soon, Class B4.

Dear Ms. Petridou,

On from Russia and through India, to finally reach China. Our reservations were at a lovely hotel in Beijing, which is a beautiful, lively city. The inhabitants ride their bicycles everywhere and they are probably the politest people on earth! We had healthy Chinese food with lots of vegetables, although we couldn't use the chopsticks at all! North of Beijing, we visited the Great Wall of China which winds its way from mountaintop to mountaintop. Its total length is around 6,500 km and it took nearly 1,000,000 men to build it! You can't really tell how big it is from the postcard. You have to see it to believe it!

Everyone sends their love, Class B4.

3

Dear Ms. Petridou,

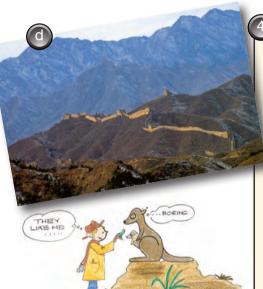

After two days in China, we packed our bags and headed for Japan. Tokyo looks a lot like a big American city - chaotic and noisy! There are so many people everywhere! Imagine: there is even a special uniformed man who pushes and squeezes people onto the underground! We didn't have time to visit any of the islands, but we managed to see the majestic Mt. Fuji in the distance with its snow-covered peak! We also had some great sushi wrapped in sea weed. Yum!

See you soon,

Sayonara,

Class B4.

Dear Ms. Petridou,

Our next destination was Australia, where we are now. Did you know that the seasons here are reversed and it is now winter? We have already been to the famous Opera House where we saw our very first opera and tomorrow we are going to visit a wildlife reserve and hopefully we'll get our first glimpse of kangaroos and koala bears. We hope all is well with you. Have to go now; we're going to buy some souvenirs! We'll bring you a shark tooth necklace that we saw ... if anyone can understand the currency here! ...

Lots of love from everyone, Class B4.

Lesson 24 A World

Guess where!

- 1.1 Our friends are now on the last leg of their journey and they are visiting the final three countries. Read the clues below to see if you can guess the remaining countries and write the name of each country in the box provided.
 - 1. _ _ _ _ _

Clues:

- This country is in the same hemisphere as Australia but in a different continent.
- ы Its flag is green and yellow.
- ⊩ It has a world famous football team.
- ► Every year an amazing carnival takes place there.
- 2. _ _ _ _

Clues:

- This country is in yet another continent.
- ⊩ In ancient times, the Greeks had visited it.
- It had an amazing civilisation just as important as our own.
- ► The longest river in the world runs through it.
- 3. _ _ _ _ _

Clues:

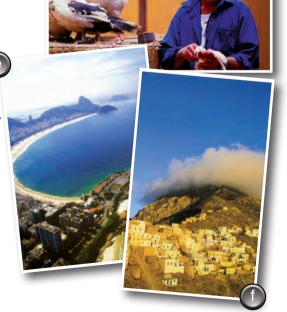

- This country has dozens and dozens of islands.
- ► The southernmost point of Europe is found in this country.
- It is not in the same continent as the previous country although they are very close to each other.
- ► It is known as "The Cradle of Democracy".
- **1.2** Look at the pictures and guess which country each one comes from. What helped you decide?

The end of a magical journey

3.1 Melina sent her friend Lydia a final e-mail telling her about what this amazing journey with her friends meant to her. Read her e-mail to see what conclusion she came to about people all over the world.

3.2 Do you agree with Melina's point of view? Go back to page 9 of your book and discuss how her final comment relates to the idea of 'Unity in Diversity'.

A magnificent poem

Kavafis is one of the most prominent Greek poets whose poems have been translated into English, French, Italian, German, and several other languages. Read his poem "Ithaca" and discuss why the 'journey' is more important than the 'destination'.

ITHACA

As you set out for Ithaca
hope that your journey is a long one,
full of adventure, full of discovery.
Laistrygonians and Cyclops,
angry Poseidon-do not be afraid of them:
you'll never find things like that on your way
as long as you keep your thoughts raised high,
as long as a rare sensation
touches your spirit and your body.
Laistrygonians and Cyclops,
wild Poseidon-you won't encounter them
unless you bring them along inside your soul,
unless your soul sets them up in front of you.

Hope that your journey is a long one.

May there be many summer mornings when, with what pleasure, what joy, you come into harbors seen for the first time; may you stop at Phoenician trading stations to buy fine things, mother of pearl and coral, amber, ebony, sensual perfume of every kindas many sensual perfumes as you can; and may you visit many Egyptian cities to learn and learn again from those who know.

Keep Ithaca always in your mind.

Arriving there is what you're destined for.

But do not hurry the journey at all.

Better if it lasts for years,
so that you're old by the time you reach the island,
wealthy with all you have gained on the way,
not expecting Ithaca to make you rich.

Ithaca gave you the marvelous journey.
Without her you would not have set out.

She has nothing left to give you now.

And if you find her poor, Ithaca won't have fooled you.
Wise as you will have become, so full of experience,
you'll have understood by then what these Ithacas mean.

UNIT 1 – UNITY IN DIVERSITY

LESSON 1 – PEOPLE AND PLACES

* Activity 2.2, p. 11

Nikos, a student reporter, interviewed an anthropologist about the way people look. Complete the table below with information from the article Nikos wrote for his school newspaper.

people's characteristics	scientists' opinion
(1) skin / hair	Protection against the sun and the heat.
Fair skin	(2)
(3) faces / noses	Protection against the cold.
Tall and thin bodies	Protection against (4)
(5) bodies	Protection against (6)

* Activity 6, p. 14

You have decided to enter a creative writing competition. The title of the competition entry is the following: "Describe an interesting person you know or a person who makes you happy".

Use the ideas below as a general plan for your writing.

Paragraph 1:

Write about this person's physical details (eyes, hair, face), size and body.

e.g. She's got small, slanted eyes, and long, straight hair. / He's short and thin.

Paragraph 2:

Write about his / her family and background. e.g. She comes from ... / He has got a large family ...

Paragraph 3:

Write about the person's hobbies and interests. e.g. She loves chess. / He's keen on computer games.

Paragraph 4:

Write about the person's character. Try to give an example to show what you mean.

e.g. She's very polite. She always gives up her seat

to the elderly. / He's very patient. He helps everybody without a word of complaint.

Paragraph 5:

Write your general opinion about this person. e.g. I'm really happy she's my best friend. / I really like him. He always makes me laugh.

LESSON 2 – JOINED IN OUR DIFFERENCES

* Extra - Vocabulary, Activity 1.2, p. 15

Match the words with their definitions and then use them to complete the sentences below.

- diversity

 a. allowing people to do or believe what they want

 unity

 b. when different types of things or people are included in something

 harmony

 c. agreement of feelings, interests, opinions

 tolerance

 d. being joined together as a group

*** Extra - Organising information, Activity 3.1, p. 16

Choose an appropriate diagram from pp.161-162 to organise the information you've read in the texts about the Japanese and the French.

LESSON 3 – DIFFERENT PLACES – DIFFERENT BUILDINGS

* Activity 2.3, p. 21

You are a member of a committee preparing the questions for a quiz show about famous buildings. Read the answers and write the questions. Don't forget to include the name of the building in each question.

e.g. When was Agia Sophia built?

It was built after the riots of AD 532.

IT'S UP TO YOU

1.	What	?
	Its most striking feature is its huge, shallow of	dome.
2.	How	?
	It's over 45m tall.	
3.	Where	?
	It is in Italy.	
4.	How many	?
	It has got 294 steps.	
5.	Where	?
	It is in Australia.	

UNIT 2 - ECHOES OF THE PAST

LESSON 4 – MYSTERIES OF OUR WORLD

** Extra - Reading, p. 32

Read the text and fill out the 5Ws chart below with the relevant information. Then work in pairs and use the chart to ask and answer questions about the statues.

How did the Easter Island sculptors create their statues?

Hundreds of gigantic statues - some standing on stone platforms, others buried up to their necks in the soil or lying broken on the ground - dominate a small remote Pacific island. The island has been known to the outside world as Easter Island since it was discovered by Europeans on Easter Day in the year 1722.

The statues were carved by inhabitants of the island to decorate coastal temples. It has been estimated that a team of 90 men would have taken about 18 months to carve each statue and get its position! The statues were apparently created over a period of several hundred years, ending about 200 years before the first Europeans arrived in the 18th century.

There are about 1,000 of the giant Easter Island statues. They range from 3ft (1m) to 70ft (21m) high and probably represent famous chiefs or long-dead ancestors of the islanders who erected them. The statues were carved from stone composed of compressed volcanic ash using primitive tools.

LESSON 5 – ACROSS THE AGES

** Activity 2.2, p. 34

Read the text on page 34 of your book and answer the questions.

- 1. What were some of the occupations of the citizens of Pompeii?
- 2. How did people entertain themselves?
- 3. What happened to Pompeii after the volcano had erupted?
- 4. When did excavations begin?
- 5. What did the archaeologists find inside the houses?

** Extra - Language focus, Activity 6, p. 37

Read the text about Spartan boys and girls in ancient Greece to find out what they used to do. Write 6 sentences.

Spartan boys were sent to military school at age 6 or 7. At school, they were taught survival skills to become great soldiers. School courses were very hard and often painful. They walked barefoot, slept on hard beds, and did a lot of exercise and other physical activities such as running, jumping, javelin and discus throwing, swimming, and hunting. At 18, Spartan boys became military cadets and learned the arts of war.

In Sparta, girls also went to school at age 6 or 7. The girls were taught wrestling and gymnastics. The Spartans believed that strong young women would produce strong babies. At age 18, if a Spartan girl passed her skills and fitness test, she would be assigned a husband and allowed to return home. If she failed, she would lose her rights as a citizen, and become a member of the middle class.

LESSON 17 – THE 'GREENEST' WAY TO SCHOOL

* Extra - Reading - Activity 2.2, p. 110

Read the text below and answer the questions.

Walking School Bus - it's great fun walking to school

There are so many good reasons to encourage children to walk to school. Walking school buses help families work together to make it happen. Just like a real bus, a walking school bus follows a pre-determined route. It's 'driven' by parents who ensure children are safe on their way to school. It's entirely up to the families on the route whether the same parents will drive the bus every time or whether families on the route will take turns. Walking school buses can be flexible, as they can run on one day or up to five times a week.

- 1. What is a walking school bus?
- 2. What are the advantages of the walking school bus?

* Activity 6, p. 112

- 3. Too much traffic.
- 4. The community should persuade more people to use bicycles.
- 5. Many pedestrians use the special bicycle lanes.
- 6. Motorbikes use the bicycle lanes.
- 7. Many drivers park their cars on the bicycle lanes.
- 8. More bicycle lanes should be constructed.
- 9. Bicycle lanes should be made inaccessible to cars.

LESSON 18 – GOING 'GREEN'

*** Extra - Reading, p. 114

1. Read the article below to find out which vehicles

a. run on electricity	
b. keep people healthy	
c. cost little to maintain	
d. produce less or no pollution	

ALTERNATIVE VEHICLES

Virtually all cars, trucks, and buses on the road today are designed to operate using gasoline or diesel fuel. These are non-renewable fossil fuels that won't last

forever. Finding alternatives is a sensible way to plan for future transportation needs. Unless we realise the importance of using a means of transport that is friendly to the environment, big cities will slowly suffocate. Alternative fuel vehicles are designed to run on fuels other than gasoline or diesel fuel. Some of these vehicles are already on the road. Others are still in the research and development stage.

A. Battery Electric Vehicles

Electric vehicles (EVs) run on electrical energy. Instead of a fuel tank, batteries store the electricity that is used to operate them. In order to charge these batteries, you plug the vehicle into a charging station or a 220V outlet at a home or office. EVs have a top speed of 25 mph and are perfect for short trips in the traffic of a large city. Most importantly, though, driving an EV produces no pollution at all.

B. Hybrid Electric Vehicles

A hybrid vehicle is any vehicle that uses two or more power sources. The most common hybrids on the road today are gasoline-electric hybrids. A gasoline engine and an electric motor power these vehicles. Hybrid EVs use more efficient gasoline engines than conventional vehicles and also burn less fuel. As a result, they produce fewer pollutants. Hybrids don't have to be plugged in. Their batteries are charged by the gasoline engine and the electric motor or generator.

C. Biodiesel Vehicles

Biodiesel is a cheap fuel that can be made from vegetable oils, recycled cooking oils from fast food restaurants, and certain animal fats. Biodiesel can be used in any diesel engine in place of diesel fuel. Biodiesel is easy to make and store, and is safer to transport than diesel fuel. It helps increase engine life. Compared to diesel fuel, biodiesel produces almost no pollutants and significantly reduces carbon dioxide emissions. It's also more pleasant to use, as the exhaust from a biodiesel vehicle often smells like popcorn or French fries!

D. People-Powered Vehicles

Some vehicles run solely on people power. Wheelbarrows, rickshaws, and bicycles are just a few examples of transportation devices powered by people. In many parts of the world, especially in places where vehicles and fuel are expensive and difficult to obtain, people depend on their own two feet for transportation. Using people power whenever possible makes a lot of sense. Walking and bicycling produce no pollutants and help keep the environment healthy. They also contribute to personal health - getting plenty of exercise can lengthen a person's life span and help avoid health

problems. And people are easy to fuel - all it takes is food!

UNIT 4 - Lesson 12, p. 80

Debate

HELPFUL TIPS

- Speak clearly and loudly so that you can be heard by everyone.
- Be polite and stay calm. Respect your opponent and your opponent's position.
- Give good reasons for your point of view. Use opinions and facts.
- Try to avoid monotone. If you want to make an important point use your voice to stress it. Slowly increase the stress as you go through your speech.
- Keep eye-contact with the audience.
- Use your arms and facial expressions to back up your speech.
- Use humour to help win over the audience.

JUDGING

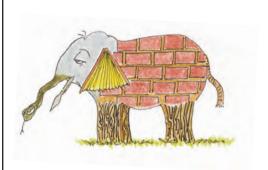

Some of you will be the judges. During the debate, you will fill in the judging form below. Study it carefully before you listen to the speeches. At the end of the debate you will add up the scores and announce the winner. Remember: you must be objective!

CLASSROOM DEBATE EVALUATION FORM					
	Levels of Performance				
Criteria	Low level (1)	Fair (2)	Good (3)	Very good (4)	
Organisation and Clarity: speeches are presented both clearly and orderly					
2. Use of Arguments: reasons are given to support or oppose opinion					
3. Use of Examples and Facts: examples and facts are given to support reasons					
4. Use of Final Speech: arguments made by the other teams are responded to and dealt effectively					
5. Presentation Style: tone of voice, use of gestures, and level of enthusiasm are convincing to audience

UNIT 7 - Lesson 20,

act. 5.3, p.130

DIAGRAMS FOR ORGANISING INFORMATION

STAR: Use a star diagram if there are a number of different characteristics or "sub-topics" associated with your main topic. Example: Finding methods to help someone improve his fitness (have a balanced diet, exercising more, etc.)

CHAIN: Use a chain of events diagram if your topic involves a series of events, with a beginning, a middle and an end. Example: Analysing the plot of a story.

SPIDER: Use a spider diagram if there are a number of different characteristics or "sub-topics" associated with your main topic but you must also get some more details on each of these "sub-topics". Example: Finding methods to help someone improve their diet and investigate each point in detail.

FISHBONE: Use a fishbone diagram if you have to investigate many causes and effect factors and how they are related to each other on a complex topic. <u>Example</u>: *Explaining the Greenhouse effect*.

CLOUD/CLUSTER: Use a cloud diagram if you have to generate a "web" of connected ideas based on a main topic. Example: Brainstorming.

TIMELINE: Use a timeline if your topic has definite beginning and ending points and a number of sequences in between. Example: Displaying key points of the civilisation of a country.

CLOCK: Use a clock diagram if your topic involves a clock-like cycle. <u>Example</u>: Recording the events in someone's day.

VENN: Use a Venn diagram if your task involves finding the similarities and differences between 2 or 3 items. Example: Comparing your country with another one.

CHART/MATRIX: Use a matrix graphic organiser if you must organise information about the characteristics of many items. Example: Creating a display of important discoveries. Who discovered them, When, Where, How, etc.

PEER FEEDBACK

FACT/OPINION: Use a fact / opinion chart if you must separate the facts from the opinions in a theme or text. Example: Separating the facts from the opinions in a news article.

PIE CHART: Use a pie chart if your task is to show divisions within a group. <u>Example</u>: Showing what percentages of the students of your class also speak English, German, French and Italian.

VOCABULARY MAP: Use a vocabulary map if you want to learn new vocabulary. <u>Example</u>: List the word, its part of speech (noun, verb, adjective, etc.), a synonym, an antonym, a drawing that represents the word and a sentence using it.

5 Ws: Use a 5 Ws chart if you have to analyse the five Ws (Who, When, Where, What, Why) of a story or event. Example: Understanding the major points of a story.

TREE: Use a tree diagram if your topic involves a "chain of events", one event happening after another with many outcomes at each "branch". <u>Example</u>: *Outlining an "Action Plan" and the detailed steps involved.*

DECISION MAKING: Use a decision making diagram if your topic involves making a decision, mentioning possible alternatives and their pros and cons. <u>Example</u>: *Deciding on what course of action to take on a specific issue*.

CAUSE AND EFFECT: Use a cause and effect diagram if your task is to examine possible causes and effects in a process. Example: Talking about what causes pollution and its effects to the environment.

KWHL: Use a KWHL diagram if you have to analyse and organise what you know and what you want to learn about a topic. K stands for what you already KNOW about the subject. W stands for what you WANT to learn. H stands for figuring out HOW you can learn more about the topic. L stands for what you LEARN as you investigate the topic. Example: Investigating the legend of Atlantis.

developing and changing situations
 The population of the world is growing.

future arrangements
 We are moving house next month.

TIME EXPRESSIONS

now, at the moment, at present, today, these days, nowadays, tonight, etc.

STATIVE VERBS

Stative verbs describe a state rather than an action, so they do not usually have a continuous tense. Some of these verbs are:

- like, want, wish, love, hate, prefer
- hear, see, smell, taste, feel
- agree, believe, know, understand, think, mean, suppose
- look, seem, appear
- belong, contain, need, own, have

!!! NOTE

Some stative verbs can be used in continuous tenses but there is a difference in meaning.

SEE

I see someone in the park. Is it Mark? (I can see him)

I'm seeing my dentist tomorrow. (I'm visiting)

LOOK

You look tired. (seem)

You're looking out of the window.

COMPARISONS

FORM

 One syllable adjectives and two-syllable adjectives ending in -ly, -y, -w.

GRAMMAR REFERENCE

We add **-er** for the Comparative form and **the -est** for the Superlative form.

old - older (than) - the oldest (of / in) narrow - narrower (than) - the narrowest (of / in)

SPELLING

big - bigger - biggest tidy - tidier - tidiest (consonant + y)

Two or more syllable adjectives.
 We add more (less) before the comparative adjectives and the most (the least) before the superlative adjectives.

beautiful - more / less beautiful - the most / the least beautiful

- The comparative is followed by than to introduce the other element in the comparison.
 I'm younger than you.
- The superlative is preceded by the and is followed by of or in (especially with places) It's the most interesting of all the subjects. It's the noisiest place in Europe.
- Irregular adjectives

good – better – best bad – worse – worst much / many – more – most little – less – least far – farther / further – farthest / furthest

USE:

We use the **Comparative** to compare one person / thing with another. One is viewed as separate from the other.

We use the **Superlative** to compare one person / thing in a group with the other persons / things in that group.

!!! NOTE

- (not) so / as + adjective + as
 He's not so / as tall as his brother.
- (not) nearly as + adjective + as

- promises, offers, threats, warnings, hopes
 I will buy you a present.
 I will help you with the housework.
- predictions (usually with: think, believe, expect, be sure, probably, perhaps, etc.)
 I'm sure she will be very successful one day.

TIME EXPRESSIONS

tomorrow, next week / month / year, in a week / month, the day after tomorrow, soon, tonight, etc.

BE GOING TO + VERB

FORM

Affirmative

Negative

I am going to work I am not going to work

Question Short answers

Am I going to work? Yes, I am / No, I'm not Is he going to work? Yes, he is / No, he isn't

USE: to talk about

- future plans and intentions
 She's going to book a ticket tomorrow.
- predictions based on what we see / know, especially when there is evidence something is going to happen

Look at those clouds! It's going to rain. Look out! You're going to fall.

!!! REMEMBER

- Time words such as before, after, when (όταν), till / until, as soon as, once, by the time, etc. are not followed by Simple Future. Instead, we use Simple Present or Present Perfect Simple.
 - He will call you as soon as he comes home. They will watch TV after they have finished lunch.
- Use shall with I or we to make suggestions or ask for information.

Shall we go out tonight? Where **shall I park**?

!!! NOTE

- The PRESENT CONTINUOUS is often used for fixed arrangements in the near future.
 We're having a party on Saturday evening. Would you like to come? (everything is arranged)
 I'm seeing the doctor next week. (we have an appointment)
- The SIMPLE PRESENT is also used with future meaning for timetables or programmes.
 His flight arrives at 6:00 tomorrow morning.
 Christmas Day falls on a Sunday this year.

TOO / ENOUGH

Too and **enough** are adverbs of degree. **Too** expresses an excessive degree and **enough** expresses a sufficient degree.

- too + adjective / adverb + to -infinitive
 I'm too unfit to do windsurfing.
- too + adjective ... for (somebody) (+ to -infinitive)

 This sport is too demanding for me (to do).
- adjective / adverb + enough + to -infinitive
 He's strong enough to win the game.
- enough + noun
 I've got enough money to go on holiday.

!!! NOTE

This car is **very** expensive, but I'll buy it. This car is **too** expensive. I can't afford it.

SO / SUCH

So and **such** can be used as adverbs of degree. They express a high degree of intensity. In this case the sentences with so and such are followed by an exclamation mark.

His story was **so** funny! It was **such** a funny story! She has **such** beautiful eyes!

So and **such** are also used with **that** to express cause and effect.

- such a / an + adjective + countable noun (singular) [+ that ...]
 It was such an exhausting day that I went straight to bed.
- such + adjective + countable (plural) /
 uncountable noun [+ that ...]
 There were such noisy parties that we complained
 to the police.
 It was such cold weather that we cancelled the race.
- so + adjective / adverb [+ that ...]

 She's so <u>determined</u> that she will succeed.

 He runs so <u>fast</u> that no one can compete with him.

So is used with quantifiers like: much, many, few, little. However, we say: such a lot of... *I'm sorry I'm late. There was so much traffic. I'm sorry I'm late. There was such a lot of traffic.*

QUESTION TAGS

FORM

We form question tags by using the **auxiliary verb** of the statement (if there is not one, we use **do** / **does** for Simple Present and **did** for Simple Past) and the appropriate **personal pronoun**.

She can dance well, can't she?
The boys like football, don't they?

USE:

We use **question tags** to ask for agreement. After **positive** statements we use negative question tags and after **negative** statements we use positive question tags.

The match was great, wasn't it? They will not reserve tickets, will they? She likes tennis, doesn't she?

!!! NOTE

I am clever, aren't !?
Let's have a break, shall we?
He has got a boat, hasn't he?
He has tennis lessons every week, doesn't he?
Don't tell anyone, will you?
This is a thrilling sport, isn't it?

UNIT 4

MODAL VERBS

OBLIGATION / DUTY / NECESSITY

 must: expresses strong obligation to do something, duty and strong necessity / must do my homework.

GRAMMAR REFERENCE

ABILITY

- can: expresses ability in the present or the future I can speak English but I can't speak German.
- could: expresses ability in the past
 He could play the violin when he was 8.
- be able to: expresses ability. It is used to refer to ability in situations where there are no equivalent

structures with can/could (infinitive, perfect tense)

Have you been able to solve the problem yet?

I can/will be able to do it tomorrow.

!!! NOTE

- **could**: expresses general ability in the past He **could play** the piano when he was 5.
- was able to: expresses ability in a specific situation in the past.

I was able to repair my car yesterday.

!!! REMEMBER

Modal verbs are followed by a bare infinitive. She **must** go on a diet. They **may** come to the party. He **has to** work late. He can't come with us.

RELATIVE CLAUSES

Relative clauses are used to give more information about nouns. They are introduced with a relative pronoun or a relative adverb.

RELATIVE PRONOUNS

- who / that is used for people

 The man who lives next door is a doctor.
- which / that is used for animals and objects
 The car which was stolen was very expensive.
- whose is used for people, animals and objects to show possession

The woman **whose** cat is missing is very sad.

!!! NOTE

- who, which and that can be omitted when they
 are the object of the relative clause
 The boy (who / that) you saw at my house is my
 best friend.
- who, which and that cannot be omitted when they are the subject of the relative clause
 The dog which / that is running is not mine.
- whose is never omitted
 The teacher whose students broke the window was fired.

RELATIVE ADVERBS

- when / that is used to talk about time
 The day when I was born was a Sunday.
- where is used to talk about a place
 The restaurant where we usually have dinner is not far from our house.
- why is used to give a reason
 The reason why she's crying is because she fell off her bike.

UNIT 5

PASSIVE VOICE

FORM

verb '**to be**' (in the appropriate tense) + past participle

The 'Mona Lisa' **is kept** in the Louvre. This seat **isn't taken**.

Hip hop music was played at the concert.

A new bridge will be built soon.

Has the house been sold?

The radio had been turned off.

The letters must be delivered tomorrow.

USE

We use the passive voice when:

the action is more important than the person who does it

The painting **will be displayed** at the National Gallery next month.

the person who does the action is unknown or obvious

The statue was stolen last week. (unknown)
The play will be performed in an open-air theatre.
(by the actors – obvious)

 we want to avoid saying who did something wrong The CD player is broken.

Passive voice tends to be used more in writing and in formal speech.

CHANGING FROM PASSIVE TO ACTIVE

- the **object** of the sentence in the <u>active</u> becomes **subject** in the passive.
- the passive structure is formed by using the verb be in the same tense as the verb in the active sentence followed by the past participle of the active verb.

play – is / are played

sang – was / were sung

has / have painted – has / have been painted will direct – will be directed

is / are composing – is / are being composed was / were collecting – was / were being collected

had sculpted – had been sculpted (must) rehearse – (must) be rehearsed

 the subject of the active sentence is introduced using the preposition by. This person, thing, organisation, etc. is called the agent.

ACTIVE: Vivaldi composed 'The Four Seasons'.

PASSIVE: 'The Four Seasons' was composed by

Vivaldi.

!!! NOTE:

- Only verbs that have an object (transitive) can be turned into passive voice. Here is a list of some verbs that do not have passive forms: look, happen, occur, (dis)appear, vanish, seem, consist of, emerge, resemble
- We use by + person

with + instrument / material

The painting was painted by Salvatore Dali.
The painting was painted with watercolours.

- The by-agent can be omitted when the subject in the active voice is he, they, someone, people, etc.
 Someone stole an expensive work of Art.
 An expensive work of Art was stolen.
- With verbs that have two objects we have two passive forms.

My friend gave me a new CD on my birthday. I was given a new CD on my birthday. (more common)

A new CD was given to me on my birthday. (less common)

 When a verb in the active voice is followed by a preposition, the preposition goes immediately after the verb in the passive.

The students **put up** a Christmas play.

A Christmas play was **put up** by the students.

- When we ask about the person who does something, the passive question form is:
 Who was this piece of music composed by?
- The verbs made and let change as follows:
 My mother made me tidy my room.
 I was made to tidy my room.
 My teacher let me go out.
 I was allowed to go out.

UNIT 6

CONDITIONALS

TYPE 0

FORM

If / When + Simple Present → Simple Present

USE

Type 0 is used to express a general truth or a scientific fact.

If you leave ice in the sun, it melts.

TYPE 1

FORM

If + Simple Present → Simple Future, imperative, can / must / may, etc. + infinitive

GRAMMAR REFERENCE

USE

Type 1 is used to express a real situation in the present or future.

If she invites me, I will go to the cinema with her.

!!! NOTE

Unless = **If not**: expresses negative conditions *I won't go shopping unless you come with me. I won't go shopping if you don't come with me.*

!!! REMEMBER

The verb is usually affirmative after unless.

TYPE 2

FORM

If + Simple Past → would, could, might + infinitive

USE

Type 2 is used to express an unreal or imaginary situation, something unlikely to happen in the present or future.

If they **had** more free time, they **would go** to the art exhibition.

!!! NOTE

In Type 2 conditional **were** is often used instead of was.

If I were you, I would tell them the truth.

TYPE 3

FORM

If + Past Perfect → would, could, might + perfect infinitive (have + past participle)

USE

Type 3 is used to express an imaginary situation in the past, something that can no longer happen in the present or future. It is also used to express regret. If I had known your phone number, I would have called you. (I didn't know it so I didn't call you) If I had studied more, I wouldn't have failed the test.

!!! REMEMBER

When the **If-clause** is before the **main clause** we separate them with a comma. When it is after the main clause we don't put a comma.

If it rains, I will stay home. I will stay home if it rains.

CLAUSES OF RESULT

They are introduced with:

- so
 - I was ill, so I didn't go to school yesterday.
- such (a / an) + adjective + noun (that)
 It was such a nice day that we went for a picnic.
 They were such expensive clothes that we didn't buy them.
- so + adjective / adverb (that)
 She was so tired that she went to bed early.
 He plays the piano so well that we all admire her.
- As a result

People hunt animals. **As a result**, some animals are in danger.

CLAUSES OF REASON

They are introduced with:

- the reason for + noun
 - The reason for his delay was the bad weather.
- the reason why + clause
 The reason why he was late was the bad weather.
- because of + noun
 He was late because of the bad weather.
- because + clause
 He was late because the weather was bad.

CLAUSES OF PURPOSE

They are introduced with:

- to + infinitive
 - They studied hard to pass the exams.
- in order (not) to + infinitive
 They studied hard in order to pass the exams.
 I shut the door quietly in order not to wake him up.
- so as (not) to + infinitive
 They have used new systems so as to improve road safety.
- so that + can / will / could / would
 He sent us a map so that we could find the way
 easily.
- in order that + can / could / might / should
 They sold the old house in order that they should have some cash available.

CLAUSES OF CONTRAST

They are introduced with:

- but
 - She was very tired, but she went to the cinema.
- although + clause
 - Although she was tired, she went to the cinema.
- However
 - She was tired. However, she went to the cinema.

- Despite + noun phrase / -ing form
 Despite her illness, Mary went to school.
 Despite being ill, Mary went to school.
- In spite of + noun phrase / -ing form
 In spite of his terrible headache, he still studied until late.

In spite of <u>having a terrible headache</u>, he still studied until late.

UNIT 7

DIRECT / REPORTED SPEECH

USE

Direct speech is the exact words someone said. The sentence is put within quotation marks ('...') *Ann: 'It's very cold outside.'*

Reported speech is the exact meaning of what someone said, but not his / her exact words. The sentence is not put within quotation marks. There is an introductory verb (say, tell), after which we can put the word **that** or we can omit it.

Ann said (that) it was very cold outside.

SAY - TELL

'Say' and 'tell' are used both in **direct** and in **reported speech**. **Tell** must be followed by an indirect object. **Say** is not followed by an indirect object but can be followed by **to** + **personal pronoun or noun.**

She said, 'I'm tired'.
She said (that) she was tired.

She **said to me**, 'I'm tired'.
She **said to me** (that) she was tired.

She **told me**, 'I'm tired'. She **told me** (that) she was tired.

EXPRESSIONS WITH 'SAY' AND 'TELL'

SAY: good morning, hello, something / nothing, a few words, so, a prayer, goodbye, etc.

TELL: the truth, a story, a lie, a secret, the time, somebody the way, the difference, a joke, etc.

REPORTED STATEMENTS

In reported speech:

 personal / possessive pronouns, and possessive adjectives change according to the meaning of the sentence.

Jerry said, 'I don't want to go out with my parents'.

Jerry said (that) **he** didn't want to go out with **his** parents.

 When the introductory verb is in a past tense, the tenses in the reported sentence change as follows:

DIRECT SPEECH	REPORTED SPEECH			
Simple Present → Simple Past				
'My dance class starts at 7:00.'	She said (that) her dance class started at 7:00.			
Present Continuous	→ Past Continuous			
'I'm moving house very soon.'	He said (that) he was moving house very soon.			
Present Perfect → Past Perfect				
'We have finished our homework.'	They said (that) they had finished their homework.			
Simple Past → Sim	ple Past / Past Perfect			
'Dad came home early today.'	He said (that) Dad had come home early that day.			
Past Continuous — Past Continuous / Past Perfect Continuous				
'I was sleeping'	She said (that) she had been sleeping.			
Simple Future → Conditional (would)				
'We will have a party soon.'	They said (that) they would have a party soon.			

 The same rule applies to modal verbs, if they have a past form:

can → could

 $may \rightarrow might$

shall → should

will → would

 Certain words and time expressions change according to the meaning of the sentence as follows:

now	\rightarrow	then
today	\rightarrow	that day
yesterday	\rightarrow	the day before, the previous day
tonight	\rightarrow	that night
tomorrow	\rightarrow	the next / following day
this	\rightarrow	that
last month	→	the previous month, the month before
next week	→	the following week, the week after
ago	\rightarrow	before
here	\rightarrow	there
come	\rightarrow	go

NOTE!

 The verb tenses do not change when the introductory verb is in the present, future or present perfect.

Jim says, 'I am very tired'.
Jim says (that) he is very tired'.

 The verb tenses may not change when we report a general truth.

Georgia said, 'It **rains** a lot in March'. Georgia said that it **rains** a lot in March.

 could, might, should, ought to, had better, would, used to remain unchanged 'I could do it'.

He said he could do it.

 must can remain unchanged or be replaced by had to

'I must leave'.

She said she **must** leave / **had to** leave.

REPORTED ORDERS / REQUESTS

 When we report orders, we use the introductory verbs: 'tell', 'order' + someone + (not) to -infinitive.

'Get into groups and don't make a lot of noise', the teacher told us.

The teacher <u>told us</u> to get into groups and not to make a lot of noise.

 When we report requests, we use the introductory verb 'ask' + (not) to -infinitive and we omit words such as 'please'.

'Help me carry this desk, please', the teacher told me.

The teacher asked me to help her carry that desk.

REPORTED QUESTIONS

 Reported questions are usually introduced with the verbs / expressions: ask, wonder, inquire, want to know.

'What time does the play start?'

He wanted to know what time the play started.

 When the direct question begins with a question word (who, where, why, when, how, etc.), the reported question is introduced with the same word.

What time does the play start?'
He wanted to know what time the play started.

 When the direct question begins with an auxiliary or modal verb (be, do, can, etc.), the reported question starts with 'if' or 'whether'.

'Do you like helping others?'
He asked me if / whether I liked helping others.

• The word order is the same as in an affirmative sentence. The verb tenses, pronouns and time

expressions change as in statements. The question mark is omitted.

'What time does the play start?'
He wanted to know what time the play started.

INTRODUCTORY VERBS

 Here is a list of verbs used to introduce reported statements:

explain, mention, point out, reply, state + (to + personal pronoun / noun) + that...

'It's about 10 km away'

He explained (to me) that it was 10 km away.

believe, think, imagine, suppose

'It's an easy job'

She believed it was an easy job.

 Here is a list of introductory verbs used to report advice, agreement, commands, suggestions, etc.

Βάσει του ν. 3966/2011 τα διδακτικά βιβλία του Δημοτικού, του Γυμνασίου, του Λυκείου, των ΕΠΑ.Λ. και των ΕΠΑ.Σ. τυπώνονται από το ITYE - ΔΙΟΦΑΝΤΟΣ και διανέμονται δωρεάν στα Δημόσια Σχολεία. Τα βιβλία μπορεί να διατίθενται προς πώληση, όταν φέρουν στη δεξιά κάτω γωνία του εμπροσθόφυλλου ένδειξη «ΔΙΑΤΙΘΕΤΑΙ ΜΕ ΤΙΜΗ ΠΩΛΗΣΗΣ». Κάθε αντίτυπο που διατίθεται προς πώληση και δεν φέρει την παραπάνω ένδειξη θεωρείται κλεψίτυπο και ο παραβάτης διώκεται σύμφωνα με τις διατάξεις του άρθρου 7 του νόμου 1129 της 15/21 Μαρτίου 1946 (ΦΕΚ 1946,108, Α').

Απαγορεύεται η αναπαραγωγή οποιουδήποτε τμήματος αυτού του βιβλίου, που καλύπτεται από δικαιώματα (copyright), ή η χρήση του σε οποιαδήποτε μορφή, χωρίς τη γραπτή άδεια του Υπουργείου Παιδείας και Θρησκευμάτων / ΙΤΥΕ - ΔΙΟΦΑΝΤΟΣ.
