2. Press the + button to make a new post
3. Create two AI photos giving the right prompt: a) an image of an electric car & b) a Charging port
4. Add two sentences giving basic information about the topic (one has to be a technical note)
5. Check & publish

1. Electric cars use a , not petrol.
2. We plug the
..... into the car.
3. Electric cars have
..... (no smoke).

Technical note:
The car battery uses
..... power. When we at
home , we use an
charger.

DC, AC, INVERTER,
ZERO EMISSIONS,
CHARGING CABLE,
CHARGE,
BATTERY

USE THESE WORDS FOR THE
BLANKS

Some ideas for your presentation!

TOPIC	PROS (+)	CONS (-)
ELECTRIC CARS	<ul style="list-style-type: none">• Cheap to run: Electricity is cheaper than petrol.• Silent: No noise pollution• Green Energy: Possible to use solar panels to charge	<ul style="list-style-type: none">• Price: Expensive to buy.• Charging: Takes hours to charge the battery• Green Energy: Not practical, time & cost issues

Show enthusiasm, flash a smile and maintain eye contact with your audience.

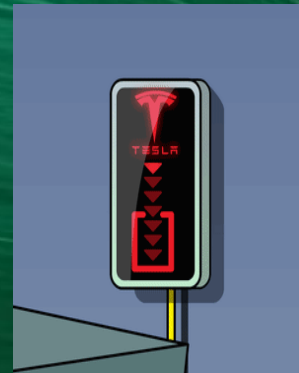

BASIC SCRIPT to make a presentation: ELECTRIC CARS - PROS VS CONS

- Today, we present our project about
- A great advantage is that
- For example
- However a disadvantage is that
- In our opinion this technology is the future for drivers.

Go to webpage and check sections : Do solar panels work with EVs?/ benefits

TOR Use the PROS vs CONS table

Team work for best results

1 Assign roles:

1. Project Manager: You keep the team organized and check the flow. You are the boss of the workflow!
2. Technical Editor: You handle the padlet and the digital tools. You are the Master of Technology!
3. Speaker(s): You will present the final project to the class. You are the voice of the team!
