

$$8 + 5 = 13$$

A curved line connects the 5 in the equation above to the 2 and 3 in the equation below.

$$\textcircled{2} + \textcircled{3}$$

$$8 + 8 =$$

A curved line connects the 8 in the equation above to the two empty circles in the equation below.

$$\bigcirc + \bigcirc$$

$$8 + 4 =$$

A curved line connects the 4 in the equation above to the two empty circles in the equation below.

$$\bigcirc + \bigcirc$$

$$8 + 7 =$$

A curved line connects the 7 in the equation above to the two empty circles in the equation below.

$$\bigcirc + \bigcirc$$

$$8 + 6 =$$

A curved line connects the 6 in the equation above to the two empty circles in the equation below.

$$\bigcirc + \bigcirc$$
